1.1.1 MAYOR'S FOREWORD AND EXECUTIVE SUMMARY

Cllr MA Hlatshwayo

VISION

As a district Municipality, the core existence of the Zululand District Municipality (ZDM) in line with the numerous forms of legislations, especially the Constitution of the Republic of South Africa, is to improve the quality of life of all our communities by providing and fast-tracking access to services like water and sanitation.

Key Service Delivery Improvements

As it is always the case, even on this financial year our core function and focus has not changed, we are still committed to the provision of clean potable water and sanitation to about one million residents of the Zululand District.

As a Mayor of ZDM, I am aware of the backlogs and continued challenges in the provision of water and sanitation which is due to inadequate funding that we receive from Municipal Infrastructure Grant (MIG). ZDM's intention is to eradicate these backlogs and challenges once and for all, but in order to attain that, we need more than R3.2 billion for our water and sanitation programmes, especially for our 10 Regional Water Schemes.

With the meagre grants that we get annually, we are struggling to fulfill our mandate. However we are trying to do all we can to deliver on our mandate which is to ensure that all our residents are provided with clean water. Each and every financial year, all grants allocated to ZDM for water and sanitation get exhausted, but backlogs remains.

On top of our core delivery function, a few years ago my predecessor started an LED programme whereby income generating projects within all our 89 wards are funded to the tune of R60 000 per ward. There is also a budget set aside to fund income-generating projects for widows' and orphans' clubs also within all our 89 wards to the tune of R20 000 per ward.

These programmes play an important role in mitigating against high unemployment rate within the district of Zululand, which is predominantly rural.

We plan to continue with these two programmes as they make a difference in the lives poorest of the poor within our communities as they put food in the table for many families. We are however working on a plan to ensure that all our LED-funded ward projects are sustainable instead of depending on prolonged funding from the municipality.

Public Participation

During each and every financial year as per legislation, our municipality continues to hold budget and IDP road shows within all the five local municipalities, which are Nongoma, Phongola, eDumbe, AbaQulusi and Ulundi. We also hold regular meetings with all stakeholders within our district and beyond to get their views and input on how we can best provide our core services, which is water and sanitation, within our district and to discuss and share ideas on how we could avert the water crisis that befell our district.

For the past 14 consecutive years our municipality has received unqualified audit opinion from the office of the Auditor-General. We will continue to strive to be a corrupt-free and well-run District Municipality as we have done in the past.

Receiving these good financial reports was no co-incidence but had been as a result of putting in place good financial management systems and stringent fiscal controls that makes it easier to spot any wrong doing.

Future action

We are doing all we can to speed-up construction within our 10 Regional Water Schemes, namely: Nkonjeni, Simdlangentsha West, Simdlangentsha Central, Simdlangentsha East, Mkhuze, Coronation, Mandlakazi, Usuthu, Khambi and Hlahlindlela. A large chunk of our budget goes to water and sanitation programmes.

Conclusion

Our District Municipality had other primary functions other than the provision of water which among others includes, promotion of tourism, LEDs, disaster management, ensuring good governance, health, as well as community and social services. We want to assure the people of our district that we will continue providing them with all these municipal functions to our best ability.

Cllr Mpiyakhe Alson Hlatshwayo

Mayor: Zululand District Municipality

1.1.2 SPEAKER'S FOREWORD

Cllr V. O Mbuyisa

This report for financial year ended in June 2014, is prepared to provide public within the Zululand District Municipal boundaries with an assessment of the Council's performance and impact for the relevant 12 month period. It is intended to provide the citizens of the district with an understanding of the council's strategic approach over the short, medium and long term to pertinent issues impacting and affecting the District Municipality.

As we marched into 2013/2014 financial year, it was critical to review the approach since profound challenges of service delivery was and is most patent. Former Hon. Mayor Mrs VZ ka Magwaza Msibi highlighted the key issues and challenges which were to be addressed in the short and medium terms to improve Council's performance. Feasible solutions to the challenges were debated. Proposals and recommendations were adopted. These resulted in Water Indaba and Water Roadshows awareness campaigns and new water schemes were implemented.

For the first time outstanding water account for indigent within Zululand will be written off. The challenge of illegal water connections became one of the targets of the municipality and the solution for this in the ensuing financial year was clear and unambiguous; flow restrictions where possible. This strategy will collectively be discussed with sector departments and communities. Whilst it is the basic right for communities to access portable water, the habit of responsibility should also be inculcated. Water services management has critical implications for national water security, now, and in future the demand outpaces supply.

The 2003 Strategic Framework for water services outlined eradication of sanitation backlogs in formal and informal settlements. This has been almost achieved in the south and north will be beneficiary during the next financial year. Amid turbulence of economic crisis and unemployment rate soaring in the country, which of course becomes a high risk area for the municipality, LED programmes to assist widows and orphans became a major achievement in pushing the frontiers of poverty back. Whilst the municipality has enjoyed the comfort zone of unqualified audit report for 13 year. The collective Councillors and officials of the

municipality should remember that, that is not yet the driver's seat. The driver's seat is clean audit.

Under the guidance of former Mayor of the district municipality with high intellectual acumen, prospective students at tertiary institutions received registration fee grant bursaries. This is a lifetime contribution in the future of young bright students. Our district through guidance of the accounting officer and former mayor, staff and councillors pride itself in becoming number three (3) of the best run municipalities in the country, announced by the State President. This is an attribute of the best-run municipality.

We also appreciate assistance and guidance from traditional leaders which have been rendered throughout programmes implementation by the municipality.

Allow me in this report to extend our unconditional gratitude to Chairpersons of Portfolio Committees and respective Heads of Departments together with CFO, Chairperson of Local Labour Forum, former Honourable Mayor, former Speaker who is now the present Mayor, present Municipal Manager and staff, public participants who vibrantly participated during our public participation road shows.

Public participation has been key to our success. We also extend gratitude to business sector with contributions of up to where two (2) cars became prizes of marathon winners, sector departments and that of the Premier which largely contributed to the upgrade of our local Airport which is now famous contributor to students' air space knowledge.

I hope we will as a municipality face new challenges of climate changes and greening of our environment. As councillors, we remember that we are where we are by popular demand not by ourselves!!

BY PRESENT SPEAKER
CLLR V.O MBUYISA

1.2 MUNICIPAL MANAGER'S OVERVIEW

J.H de Klerk

I am proud to report that for the 14th consecutive year Zululand District obtained an unqualified Audit report from the office of the Auditor General. The 14th year was not just unqualified but a CLAN AUDIT was achieved. The district prides itself of this achievement. Zululand District Municipality (ZDM) is also proud that the municipality was mentioned in the State of the Nation address, by the President of South Africa, the Honourable Jacob Zuma as one of the top performing municipalities in South Africa.

Good working relations between Council, Executive committee, Management Committee, Mayor and Municipal manager filtered down to all staff members. This instilled a desire to work hard and diligently thereby ensuring that true to ZDM's motto services was delivered to the communities with integrity.

Water and Sanitation is still ZDM's core function. It is also unfortunately the area is where the largest backlog is. It is frustrating to know that to many residents still don't have access to basic water and sanitation. ZDM is doing everything possible to source more funding, but at the present forecasts for future funding, indicates that all residents will only be receiving these services in years to come. ZDM has over the years built up a reputation that all grants for infrastructure were spent in the financial year the funding was received.

Although we can boast with more accolades received, e.g. the 3rd best Integrated Development Plan (IDP) in Kwazulu-Natal, visits from municipalities of other provinces to learn from ZDM's systems etc. I don't think it would be fair to boast when there are still enormous challenges and shortcomings that need to be addressed.

There is no time to rest. We are in the service of the residents of Zululand and I commit myself and the Management team to do everything possible to ensure that they are served to the best of our ability and always with integrity.

Lastly, this was the year in which our then Mayor was elected to serve her Party, the NFP, in parliament. The fact that she was immediately appointed as Deputy Minister of Science and Technology proves her abilities. I worked with Ms Magwaza-Msibi for 19 years and I am not surprised that her potential was noted by the Honourable President. The relationship and the way we worked together is something that is surely going to be missed by myself. I wish her well in her political career.

However, I am pleased the newly appointed Mayor, Cllr MA Hlatshwayo, is well known by me. I know that we are joining hands for the sake of the community we serve. We also worked together for many years in the past. I have no hesitation in assuring all that together we are going to ensure that the good work done in the past will be improved on.

I want to re-iterate that ALL of the Zululand District Municipality team are ready to continue to work hard and make a difference to the residents of Zululand.

Mr J. H. de Klerk

Municipal Manager

1.3 MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

No.	Functions as per the Constitution of the Republic of South Africa; Municipal Structures Act	What has been done?
1.	Integrated development planning for the district municipality	Regional/Sectoral Planning, Spatial Planning Land Use Policy
2.	Bulk supply water	Provision and regulation
3.	Bulk sewage purification works and main sewage disposal	Provision
4.	Municipal (district) roads	Not yet defined
5.	Regulation of passenger transport services	planning of infrastructure Regulating (permits, control)
6.	Municipal airports (regional)	operation, management
7.	Municipal health services	Limited to Environmental health services and Includes regulation of Air and noise pollution, storm water management, water and sanitation, refuse and solid waste disposal
8.	Fire fighting services	Planning, coordinating and regulating Standardization of

		<p>infrastructure, vehicles and procedures</p> <p>Disaster Management Plan</p>
9.	The establishment, conduct and control of fresh produce markets and abattoirs serving the area of the district municipality	The need for a regional fresh produce market does not exist.
10.	The establishment, conduct and control of cemeteries and crematoria	The study revealed that there is no need for a regional cemeteries
11.	Promotion of local tourism for the area of the district municipality	Co-ordination, strategic planning
12.	Municipal public works relating to any of the above functions or any other functions assigned to the district municipality	construction and maintenance of public infrastructure and facilities
13.	The receipt, allocation and if applicable the distribution of grants made to the district municipality	The grants gazette for ZDM are received and spent according the grant conditions. ZDM does not distribute grants.

1.3.1 Key issues from the table above

Water and Sanitation

In terms of municipal service provision i.e. water and sanitation, the Zululand District Municipality is a water service authority. Most of the district population is indigent which throws a challenge towards long term, sustainable water service provision. Nonetheless, this does not prevent the municipality providing the entire population in the district free basic water and sanitation.

The municipality has also regularly spent its entire MIG allocation towards establishing a reliable and quality water service to its citizens.

Integrated Development Planning

Integrated Development Planning is constantly improving with the district refining its co-ordination role in so far as infrastructure, spatial, community and environmental planning is concerned. Several structures including portfolio committees and administrative have been meeting regularly within these sectors to ensure vertical and horizontal alignment of service delivery within the district.

1.3.2 VISION, MISSION, AND VALUES

The ZDM Council adopted the following long- term development vision.

“We are the ZULULAND region and proud of our heritage. We are mindful of the needs of the poor and we seek to reflect the aspirations of our communities. We are committed to responsible and accountable actions, tolerance and concern for racial harmony, the protection of our environment, and the strengthening of the role of woman and youth. We will strive to improve the quality of life in Zululand by providing sustainable infrastructure, promoting economic development and building capacity within our communities”

‘WE SERVE THE PEOPLE’

MISSION

To create an affluent district by:

- Provision of optimal delivery of essential services
- Supporting sustainable local economic development, and
- Community participation in services delivery.

Core values

- Transparency
- Commitment
- Innovation
- integrity
- Co-operation

The above vision strategic focus areas of the Zululand District Municipality are:

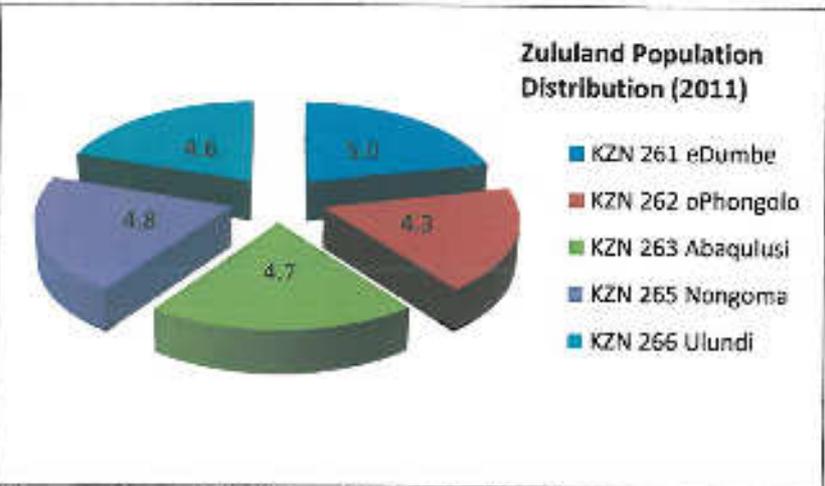

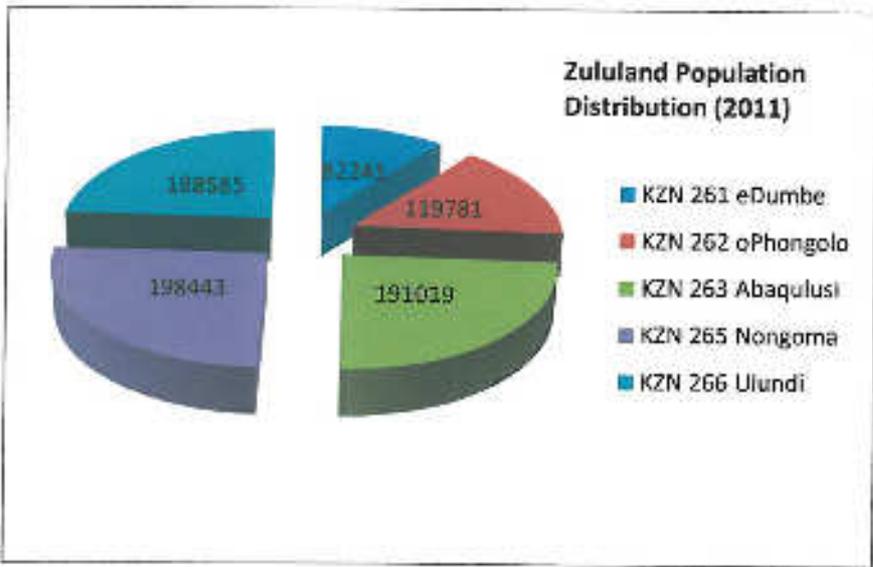

- To facilitate the delivery of sustainable infrastructure and services
- To promote economic development
- To promote social development

These focus areas are broken down to objectives and strategies, which is used to set KPI's for the measurement of the Municipality's performance, and progress with its service delivery mandate. It is important to note that the national KPAs as set that relate to community participation, good governance, municipal transformation and financial viability are considered as of a cross-cutting nature and therefore form an integral part of each of the strategic focus areas:

1.3.3 Population Profile

MDB Code	Municipality	Population	
		2001	2011
Year		2001	2011
KZN 261	eDumbe	82241	82053
KZN 262	oPhongolo	119781	127238
KZN 263	Abaqulusi	191019	211060

RSA	South Africa	44819777	51770561
	KwaZulu		
KZN	Natal	9584129	10267300

Source: Census 2011 Population Distribution Graph

Source: Census 2011 Population Distribution by Gender

MDB Code	Municipality	Sex Ratio	
		Males per 100 females	
Year		2001	2011
KZN 261	eDumbe	89.7	88.2
KZN 262	oPhongolo	88.3	88.5
KZN 263	Abaqulusi	91.4	90.9
KZN 265	Nongoma	80.2	83.2
KZN 266	Ulundi	81.4	82.4
DC 26	Zululand	85.4	86.3
RSA	South Africa	91.7	94.8
KZN	KwaZulu Natal	87.7	90.5

Source: Census 2011

Gender proportions in Zululand indicate that there is a higher proportion of females as compared to males. The highest number of females (131,599) is found in Nongoma and the majority of males are concentrated in Abaqulusi.

Gender proportions for each municipality and from the table demonstrate that there is significant variation among the municipalities. Abaqulusi (90.9%), oPhongolo (88.5%) and eDumbe (88.2%) have relatively high proportions of females in their respective populations.

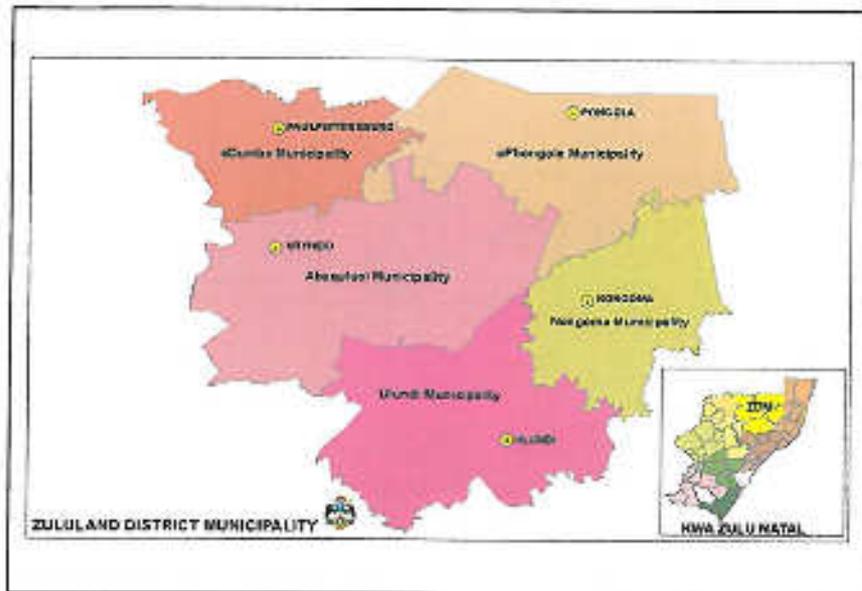

It is a known trend that women are classified under disadvantaged groups and with them being in the majority the municipality has devised several programmes and interventions to address the plight of women in the district.

Age dependency ratio

With the graph below it is evident that the Zululand District Municipality has one of the highest dependency ratios between children and adults respectively. This demonstrates a need to sustain social development programmes and support to communities by the municipality and its stakeholders (see strategic plan and budget).

MDB Code	Municipality	Dependency Ratio	
		per 100 (15-64)	
Year		2001	2011
KZN 261	eDumbe	87.0	81.7

1.4 FINANCIAL HEALTH OVERVIEW.

Audit Outcome

- The district has maintained its record of 13 consecutive unqualified audit outcomes since from the year 2000/2001 to 2012/2013. The 2013/2014 report is pending the finalization of the audit.

Billing

- The billing procedures have been improved to include the on-going scrutiny of variance reports prior to the finalisation of the billing process. The credit control policy implementation has resulted into the reduction of billed revenue primarily because some of the consumers are more than keen to live on free water. As a result, the planned billing did not materialise. This has had the effect of reduced billing and reduced water losses.
- While long outstanding debtors remain a challenge, credit control measures have been stepped up to ensure the realisation of billed revenue.
- The collection rate has also improved.

Cash Position

- The cash position has slightly deteriorated due to the fact that available cash resources at year-end were used to front-load MIG projects. This temporal cash setback will be corrected in July 2014. The district does not have an overdraft and there is only a

- book-overdraft as per the Annual Financial Statements.

Supply Chain Management

- The Supply Chain Management system is functioning properly including the committee system.

Net Asset

- Net assets of the municipality amounts to R1.9 billion which indicates the level of both infrastructure and other liquid assets.

1.5 AUDITOR GENERAL REPORT

REPORT OF THE AUDITOR-GENERAL TO THE KWAZULU-NATAL PROVINCIAL LEGISLATURE AND COUNCIL ON ZULULAND DISTRICT MUNICIPALITY

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the financial statements of the Zululand District Municipality set out on pages x to x, which comprise, the statement of financial position as at 30 June 2014, the statement of financial performance, statement of changes in net assets, the cash flow statement and the statement of comparison of budget information with actual information for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Local Government: Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003)(MFMA) and the Division of Revenue Act of South Africa, 2013 (Act No. 2 of 2013)(DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on the financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the general notice issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Zululand District Municipality as at 30 June 2014, and its financial performance and cash flows for the year then ended in accordance with SA standards of GRAP and the requirements of the MFMA and DoRA.

Additional matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited supplementary schedules

8. The supplementary schedules set out on pages xx to xx do not form part of the financial statements and is presented as additional schedules. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

Unaudited disclosure notes

9. In terms of section 125(2)(e) of the MFMA, the Zululand District Municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and accordingly I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

10. In accordance with the PAA and the general notice issued in terms thereof, I report the following findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report, non-compliance with legislation as well as internal control. The objective of my tests was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

11. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected development priorities presented in the annual performance report of the municipality for the year ended 30 June 2014:
 - Development priority 1: Infrastructure and services on pages x to x
 - Development priority 2: Economic, agriculture and tourism on pages x to x
 - Development priority 3: Social development and food security on pages x to x
12. I evaluated the reported performance information against the overall criteria of usefulness and reliability.

13. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned development priorities. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's *Framework for managing programme performance information*.
14. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
15. I did not raise any material findings on the usefulness and reliability of the reported performance information for the selected development priorities.

Additional matters

16. Although no material findings concerning the usefulness and reliability of the performance information were identified in the annual performance report, I draw attention to the following matters below:

Achievement of planned targets

17. Refer to the annual performance report on pages x to x and x to x for information on the achievement of the planned targets for the year.

Material adjustments to the annual performance report

18. I identified material misstatements in the annual performance report submitted for auditing on the reported performance information for infrastructure and services; economic, agriculture and tourism; and social development and food security. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

Unaudited supplementary information

19. The supplementary information set out on pages x to x do not form part of the annual performance report and is presented as additional information. I have not audited this information and accordingly, I do not express a conclusion thereon.

Compliance with legislation

20. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

Internal control

21. I did not identify any deficiencies in internal control which I considered sufficiently significant for inclusion in this report.

OTHER REPORTS

Investigation

22. The municipality appointed an independent consulting firm to perform an investigation into alleged misappropriation of the municipal assets, covering the period 23 January 2012 to 31 July 2014. The investigation was concluded on 31 October 2014 and resulted in disciplinary proceedings being instituted against two employees. These proceedings are currently in progress.

POLITICAL DECISION TAKING

• Items are submitted through the relevant Portfolio Committee who then make recommendations to the Executive Committee which takes final decisions for implementation on matters delegated to them, and those not delegated are recommended to the Full Council for consideration. 100% of Council Resolutions were implemented in terms of decisions taken.

POLITICAL DECISION TAKING

• Items are submitted through the relevant Portfolio Committee who then make recommendations to the Executive Committee which takes final decisions for implementation on matters delegated to them, and those not delegated are recommended to the Full Council for consideration. 100% of Council Resolutions were implemented in terms of decisions taken.

2.4 ADMINISTRATIVE GOVERNANCE

2.5 CORPORATE SERVICES

Mr M Shandu

Headed by Mr Michael Shandu, Corporate Services Department's core function is to provide support to all the Departments within the Zululand District Municipality to ensure efficient and effective delivery. It consists of divisions, namely Management Services, Auxilliary Services, Disaster Management and Airport Services.

2.5.1 MANAGEMENT SERVICES

The responsibility of the Management Division include the following:

- **Human Resources** – this section provides the necessary human capital for the municipality by recruiting and selecting employees, Employee Assistance Programme as well as the management of staff benefits.
- **Labour Relations** - has aided the municipality to improve the levels of discipline and productivity of employees
- **Customer Care** – receiving, recording and assigning customer queries for implementation and action by the relevant department until finalization of issue by continuous follow up to ensure customer satisfaction.
- **Skills Development and Training** – is responsible for conducting Skills Audit on all employees within the Municipality, advancing the skills of the employees of the Municipality through Training and facilitating awarding of Tuition Assistance and financial assistance to learners.
- **Committee Management** – is responsible for minute taking for all Council meetings i.e Executive Committee, Council, Portfolio Committees and Sub-Committees. Efficient Secretariat Support to the Municipal Council and its committees
- **Interpretation** – providing interpretation services during council meetings and interpretation of documents

Part of the responsibilities of this functional area is to ensure that Council policies are observed including the standing rules of order, and providing general administrative support to the municipality.

2.5.2 AUXILLIARY SERVICES

The responsibility of the Auxiliary Services Division include the following:

- **Records** – ensuring the receipt, distribution and safekeeping of all official documentation of the municipality. The municipality's Electronic Records Management System (EDMS) has resulted in quick and easy cross-referencing and improved service delivery and transparency when it comes to information management, accessing important documents as well as the benefit of having fast workflow distribution to all relevant departments, sharing and searching for information and finally providing feedback rapidly and effectively. In an attempt of going green, one of the main benefits of this system is the minimization of paper copies and the provision of an audit trail on all documents and correspondence.
- **Switchboard** – ensuring that phone calls are directed efficiently and that customers are assisted upon entry to the municipality's offices
- **Transport** – manages the maintenance and operations of all council vehicles. The Zululand District Municipality has a total of 106 vehicles, the bulk of these vehicles are allocated to Technical Services. The Municipality also has 10 tractors- 5 of which are used for assisting the community gardening projects whilst the remainder are used for various municipal duties.
- **Printing and messenger services** – providing printing and messenger services to the municipality by ensuring that all units have access to printing documents, collating all council agenda's by maintaining stock levels adequate to meet the demands of the municipality and associated daily printing.

2.5.3 DISASTER MANAGEMENT DIVISION

The core function of Disaster Management Division is to address the following issues, namely:

- Conducting Disaster Awareness throughout the district
- Attending to all disaster incidents in the district,

The most common disasters in the Zululand District Municipality are the natural disasters such as the lightning, storms and strong winds. The municipality attempts to assist victims in conjunction with the Provincial Disaster Management Centre by providing disaster relief equipment such as tents, plastic sheeting

and food parcels for the victims. The centre boasts its own Fire Engines and vehicles to attend to disasters.

Zululand District Municipality managed to assist all local municipalities during the 2013/2014 financial year. The ZDM team assessed all the reported incidents on time and responded to all fires reported by dispatching units accordingly.

Relief material was provided per local municipalities to assist the victims as follows:-

Blankets	Tents	Plastic Sheets
120 per Local Municipality	40 per Local Municipality	40 per Local Municipality
Total 600	Total 200	Total 200

Disaster awareness campaigns were conducted successful at schools and the local tribal authorities. Advisory Forums meetings, Disaster Management Health and Safety Portfolio Committee meetings and ZDM Practitioners meeting were also conducted successfully. The municipality is prepared for the management of disasters within the district.

2.5.4 PROVISION OF AIRPORT SERVICES

Airport Services consist of Airport Operations that include Admin Support, Rescue and Fire Fighting compliant to all relevant SACAA Regulations including pertinent ICAO and SA-CATS requirements for limited Category 4 operation, airport infrastructure required to operate the facility in its designated category of operation in a safe and legal manner as per ICAO Annex 14, SA CAA Regulations / CATS, Refuelling Services and flight operations by Federal Air.

The District has managed to make the airport a gateway to Zululand through Federal Air that is operating scheduled chartered flights connecting the District to the business hubs i.e. Durban, Pietermaritzburg and the recently added Johannesburg route. This has led to the signing of a lease agreement between the Zululand District Municipality and a renowned car rental company to cater for passengers coming into the District.

Rehabilitation of this state of the art facility (especially flight related infrastructure) has increased the frequency of Red Cross flights in and out of Ulundi. These normally bring relief doctors in the morning to assist in nearby hospitals each day and are flown out in the afternoon, which is a big plus in rural hospitals that mostly run with a bare minimum number of Doctors that are mostly overworked. The same institution also assists this part of the

Province with efficient emergency services when patients need to be flown to institutions that are equipped for advanced medical interventions.

The Airport continues to receive publicity through two yearly spectacular events i.e. the Air Show and the Air Race, with the recent Air Show being the last one since the contract was to run for three years. These events are also intended to serve as a tool to introduce young South Africans to the career opportunities available in the aviation industry through learners programs run by the Air Show Organizers in collaboration with the Zululand District Municipality and Federal Air. This year 63 learners from rural schools who had never experienced flying, were flown around in Federal

Air's Caravan for the first time.

The Zululand District is rich in Heritage, Zulu Historical sites as well as Natural Tourists attractions and these are being vigorously marketed with an aim of attracting domestic and international tourists. The Airport has been advertised in an international magazine, the Global Aviator and also has the FLY ZULULAND Facebook Page that is continually updated with new developments especially flight related matters.

2.6 INTRODUCTION TO CO-OPERATIVE GOVERNANCE AND INTERGOVERNMENTAL RELATIONS

There are effective structures in place which support the co-operative governance and Intergovernmental relations concept; however some challenges are being experienced in terms of the lack of knowledge of the aforementioned concepts from both provincial and local municipal structures.

IDP Participation and Alignment Criteria*	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	No
Do the IDP KPIs align to the Section 57 Managers	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes
* Section 26 Municipal Systems Act 2000	
T2.5.1	

2.11 CORPORATE GOVERNANCE

1 RISK MANAGEMENT

As required by MFMA 562 (i) (c), Zululand District Municipality has maintained an effective system of risk management. Through assistance from KZN Provincial Treasury ZDM conducted Risk Assessment annually. The Risk Assessment exercise consists of both business and financial risks where all service departments participated to identify risks within their respective unit. Audit and Performance Management Committee (APMC) was established to advise on matters relating to risks management. The Municipality maintains an effective (out-sourced) Internal Audit whose performance is evaluated annually by the APMC.

In September 2013, risk assessment for 2013/14 financial year was conducted and the following were the top five (5) risks identified as per their inherent nature;

- Ineffective expenditure management
- Non compliance with Supply Chain Management and delays in acquiring goods and services.
- Non reviewal of policies and by-laws.
- Ineffective fleet management.
- Failure to ensure capacity and development of skills within the organization.

2.11.2 ANTI-CORRUPTION AND FRAUD

FRAUD AND ANTI-CORRUPTION STRATEGY

Zululand District Municipality maintains Fraud Prevention Strategy which has been reviewed with no amendments during the current financial year. Emanated from the Fraud Prevention Strategy which has been communicated to all staff members, management has the following strategies to detect fraud;

1. The vigilance on the part of employees, including line management.
2. The Internal Audit function
3. Ad hoc management review.
4. Anonymous reports.
5. The application of detection techniques.

Segregation of duties, Risk Management and Internal controls have been identified as key controls in the prevention of corruption and fraud.

The municipality has an outsourced internal Audit function.

2.11.3 SUPPLY CHAIN MANAGEMENT

The implementation of the Supply chain Management is progressing well. The SCM policy was amended on 29 May 2013 to include the Preferential Policy Framework Act (PPPEA) regulations and the Bid appeals Tribunal that was approved in conjunction with the KZN Provincial government.

The amended policy was effective during the 2014 financial year. In the past years, ZDM incurred irregular expenditure as a result of appointing service providers whose members are in the service of the state. However, the SCM systems have been improved by procuring a credit bureau system that enables ZDM to check the status prior to the appointment.

The Deviations register has now been mechanised. The problems associated with the loss/disappearance of the deviation register have been resolved. Moreover, this is a web based system. Therefore the Accounting officer can approve at any place if there is an internet connection. The deviations are on a regular basis.

The quotations register was re-designed and quotations as reported in sequence in the finance report to ensure completeness. The same procedure is applicable to bids.

Council approved the post of Chief Accountant SCM in the 2014/2015 budget to assist with the resolution of weakness identified by KZN Provincial Treasury.

The SCM unit is housed under the direct control of the budget and Treasury office, headed by the CFO. Most SCM officials have undergone minimum competency training some have met the requirements and others are about to complete the training. Councillors are not members of Bid committees.

Municipalities are, of course encouraged to use their websites more extensively than this to keep their community and stakeholders abreast of service delivery arrangements and municipal developments.</i></p>		

T 2.10.1

COMPONENT A: BASIC SERVICES

3.1 INTRODUCTION TO BASIC SERVICES

Whilst it is acknowledged that Zululand District Municipality has been hurdled by various service delivery unrests during the previous fiscal year, but remains at the helm as one of the most rapidly developing and service delivery proficient municipalities in KZN Infrastructural, with a slow paced advance currently estimated at 80% of the district being rural and still quite under developed. Particular focus is aimed at Water and Sanitation Services which are provided through the implementation of Regional Water Supply Schemes Programme (RWSS), Rudimentary Water Supply Schemes (Interim) and Sanitation (VIP Toilet) Programme.

The RWSS programme provides the services to consumers by installing the yard taps as a long term plan for the District whereas the Interim Programme is deemed to comprise a combination of communal standpipes within 800m walking distances to fetch water and provision is also made for Sanitation services in form of a VIP Toilet Programme.

Resemblance is drawn with RWSS but the principle of interim services initiative acknowledges a fact that there are large numbers of communal settlements that would have had to wait years to be addressed with basic services, but given their location in relations to socio and economic opportunities, Zululand District Municipality continues to provide them with interim services so that they are immediately addressed, and they should by no means be interpreted as a substitute for the Regional Development Plan for the District.

A table below reflects a notable comparative reduction in the percentage backlogs reduction, estimated at 2,5% in water and 2-3% in sanitation per annum.

Basic Services	Existing Backlog (Households) as at 30 June 2013	Existing Backlog (Households) as at 30 June 2014
Water	38 706	58559
Sanitation	56 757	56757

Out of a total of 39 Water and Waste Water Treatment Works (W/WWTW), Ulundi WTW is the largest with a design capacity of 25Mℓ/Day. This treatment plant has been compromised by repeated power outages from ESKOM on an average of two whole day(s) per week, and as this is still continuing, it has led to severely intermittent water supply challenges, massively. In this regard, Zululand District Municipality has made yet another remarkable intervention by acquiring a fuel operated stand by engine that will cover a whole Water Works during these ESKOM outages. The entire implementation budget cost allocated for this project was in an excess of R 8 Million which was co-funded with, by the Department of Water & Sanitation formerly known as DWA to assist and secure its full execution.

Zululand District Municipality is also elated by the imminent commissioning of a 54 Mℓ Klipfontein Water Treatment Plant, with a project cost of R 85 Million. This remarkable water treatment facility is expected to improve water supply massively and will cover a whole of Mondlo and some larger parts of Abaqulusi Local Municipality.

Further to that, Zululand District Municipality implements its own internally funded CAPEX Projects Programme. As alluded to previously, a large number of settlements within ZDM are located to extremely out skirted rural areas, which makes access to basic education difficult and to a larger extent impossible, due to lack of basic and pre-educational and facilities to these areas.

It is for this reason that ZDM identified a need to build crèches and some classes extensions where necessary, implemented under this programme which is monitored through the Municipality's CAPEX and WATER PROVISION PORTFOLIO COMMITTEE that receives quarterly feedback on progress of projects and its ultimate aim is to achieve 100% capital spend and to assess if any carry overs and budget relocations. This has proved to be an effective strategy to improve capital budget spend and thereby meeting the Government on its educational goals.

3.2 WATER PROVISION

In this Annual Report, ZDM would like to share its vision and goal to become top three Municipalities in the Blue and Green Drop Assessments, come the near future.

These assessments bring about an opportunity for all our basic service delivery initiatives to be bench marked and examined towards achieving a common goal that is proficient, efficient and effective delivery of basic services. These assessments also involve audits for the management of Wastewater and the scope of work entailed in the treatment of waste waters before discharging back to our rivers.

Blue Drop/Green Drop Assessment Report for the 2013 Assessment Year showed a highly concerning decline from previous years but this has yielded an opportunity for the municipality to regroup and be on course on common determination to improve the effectiveness of the management of the Water & Sanitation supply services, for the benefit of the people that we serve.

We are also impelled by this achievement goal that we are determined to effect improvements on other operational areas such as Non-Revenue and Unaccounted for Water.

3.3 WATER LOSS PROGRAMME

Zululand District Municipality implemented an UAW Programme during the 2012/2013 Financial year which has achieved some stable results which were stabilised by dealing directly with a large scope of physical ground work and equipment required to collect data for analysis purposes, and which is currently being undertaken.

The following on-going interventions are currently being instituted to reach a target of 30% water losses by the 2013/2014 Financial Year:-

- Introduction of lowered pressure standards from an average of 600Kpa to 300Kpa subsequent to relevant water balancing initiatives currently being undertaken.
- Replace domestic and non-domestic meters in line with Municipality's Asset Management Plan.
- Ensure every bulk water consumers and business consumers are metered and meters read and billed monthly.

Below, is a table illustrating implementation of the above and to reaffirm that the above will assist Zululand District Municipality fulfill its mandate efficiently in order to provide utmost acceptable services to the people that we serve.

YEAR	WATER PRODUCED (Mℓ)	ESTIMATED UAW VOL (%)

3.5 FREE BASIC SERVICES AND INDIGENT SUPPORT

Approximately 80% of citizens in Zululand are estimated to be indigent. The culture of non-payment which is being tackled at a political level both have negative effects on the sustainable provision of basic services. Funding is mainly in the form of grants such as MIG and DWA.

The fact that the municipality has a limited rates base means that sources of income are limited. A Revenue Enhancement Strategy has been budgeted for in the 2012/13 Financial Year which will analyse the financial position of the municipality and suggest options for alternative means of generating income for the

A R20M KLIPFONTEIN RISING MAIN PROJECT

FINE FINISH OF A R34M KLIPFONTEIN WTW CIVIL WORKS

COMPONENT B-ROAD TRANSPORT

This component includes: roads; transport; and waste water (storm water drainage).

3.6 ROADS

Road Infrastructure

Pending the completion of the Road Classification Programme (RISFSA) and other parallel programmes, the district is unable to perform this function.

Rural Roads Asset Management System

National Department of Transport via DORA has allocated more than R1.688, 000.00 to identified district municipalities to develop a rural road asset management system in line with the municipal finance management act. This grant will be issued every financial year for the next 3/4 years. The Zululand District Municipality is also covered under this multi year programme expected whose expected completion is 2014/2015.

There is an estimated 3000 kilometres of road within the district. Further data on the accurate length and condition of roads will be captured within the process of developing a rural roads asset management system.

3.7 TRANSPORT (INCLUDING VEHICLE LICENSING & PUBLIC BUS OPERATION)

In 2008, the Zululand District Municipality reviewed its Current Public Transport Record to develop a Public Transport Plan.

A Multi-Year plan was developed to respond to key issues identified in the analysis of the state of public transport in the district. The table below is a summary of costs for implementation of interventions over a 5 year period.

SUMMARY OF COST FOR ZDM FOR A FIVE YEAR PERIOD

Item	Estimated Cost
Operating Licence Strategy related projects	R39 150 000
Rationalisation Strategy	R660 000
Public Transport Plan	R 56 410 000
Total	R 96 140 000

Even if the plans implemented in phases, the municipality does not have these funds and will continue to engage with its partners in government and private sector to source resources for implementation of interventions identified in the plan.

CHAPTER 4

COMPONENT C: PLANNING AND DEVELOPMENT

PLANNING AND DEVELOPMENT

Stefan Landman: Head of Department: Planning

4.1 PLANNING AND DEVELOPMENT

In 2011-2012 financial year an allocation of R 227 million was received from MIG and was successfully spent 100% by the end of June 2012. Further R 55 million was received from DWA as a conditional grant.

The largest percentage of MIG funds was spent as follows: 79% was spent on water, 20% was spent on sanitation and 1% on sporting facilities. The large amount of money is currently spent in the development of bulk infrastructure and as the bulk line passes communities, reticulation networks are installed. The bulk infrastructure comprises of the terminal reservoirs, water treatment works, rising mains as well as secondary reservoirs whereas reticulation comprises of distribution main and households meter installations.

DWA funding only focuses on the bulk infrastructure.

4.1.1 Water Service Authority

DWA funding only focuses on the bulk infrastructure 2013/14.

Regional Water Supply Scheme	MIG	DWA	Project scope
Usuthu RWSS	R 21,617,121	R 74,000,000	Reservoirs,reticulation,risingmains,bulk line
Nkonjani RWSS	R 25,602,121		Reservoirs,reticulation,ri

			singmains, bulk line
Mandlakazi RWSS	R 16,455,434	R 35,000,000	Bulk line and terminal reservoirs
Rudimentary	R 22,162,200		Drilling of boreholes, testing, equipping and small schemes
Rural Sanitation	R 44,324,400		Supply of VIP units and installation

Consultation and Participation

The table below shows community engagement of various stakeholders on the IDP/Budget/Performance and LED process:

Phase/Activity	Proposed Completion Timeframe
Situational Analysis	30 Aug 2013
Development Strategies	30 Sept 2013
Projects	30 Sept 2013
Integration	30 Oct 2013
Draft Approval	28 Feb 2014
Final Approval	30 May 2014

Water Service Authority

The section consists of 3 civil engineers and secretary in the planning and management of the Water Service Authority function.

The profile of the staff in terms of cost to employer is as follows:

Personnel	Total	Cost to Employer
Professional	3	R 1 250 500.00
Field (Supervisors/Foreman)	1	R 365 000.00
Office (Clerical/Administration)	1	R 195 502.00

The responsibility of a Water Services Authority (WSA) is to ensure that water is adequately provided to every single individual households falling within its area of jurisdiction. The provision of water to consumers should be in accordance with the minimum quality and quantity standards set by The Department of Water Affairs (DWA). The Water provision should be sustainable, affordable and efficient.

Services Authority has the following Duties:

Duty to provide access to water services

This duty is subject to-

The availability of resources;

The need for an equitable allocation of resources to all consumers and potential consumers within the authority's area of jurisdiction;

The need to regulate access to water services in an equitable way, with any prescribed norms and standards for tariffs for water services;

The duty of consumers to pay reasonable charges, which must be in accordance with any prescribed norms and standards for tariffs for water services;

The duty to conserve water resources;

The nature, topography, zoning and situation of the land in question; and

The right of relevant water services authority to limit or discontinue the provision of water services if there is failure to comply with reasonable conditions set for provision of such service.

In ensuring access to water services, a water services authority must take into account among other factors-
alternative ways of providing access to water services;

The need for regional efficiency;

The need to achieve the benefit of scale;

The need for low costs;

The requirements of equity and

The availability of resources from neighboring water services authorities.

The above is in accordance with the Water Services Act No. 108 of 1997.

4.1.1 Duty to prepare draft Water Services Development Plan (WSDP)

4.1.2 Water Services Development Plan (WSDP)

Every Water Services Authority must, within one year after the commencement of this Act-

as part of the process of preparing any integrated development plan in terms of Local Government Transition Act, 1993 (Act No. 209 of 1993); or

separately, if no process contemplated in paragraph a) has been initiated, prepare

a draft water service development plan for its area of jurisdiction and,

a summary of a plan

The Content of draft Water Services Development Plan (WSDP)

The annual WSDP contains the following details:

the physical attributes of the area to which it applies;

the size and the distribution of population within the area;

the time frame for the plan, including the implementation programme for the following five years;

the existing water within the area of jurisdiction;

the total number of backlogs both on water and sanitation within the area expressed as a number of households figures as well as a percentage compared to the entire area where services are provided;

the operations; maintenance; repair and replacement of existing and future infrastructure

the WSDP must display the number and location of persons to whom water services cannot be provided within the next five years setting out-

the reason thereof;

the time frame within which the it may be reasonably be expected that

a basic sanitation will be provided to those people, and

of existing and proposed water conservation, recycling and environmental protection measures.

4.1.2.1 Water Service Development Plan Process

The Zululand District Municipality WSDP for 2013/2014 was completed and approved by council on 31 May 2013.

The following key issues were addressed by the 2013/2014 WSDP:

Eradication of water backlogs through Regional schemes rollout and Rudimentary programme.

Eradication of sanitation backlogs.

Water supply to schools and clinics.

Refurbishment requirements of water and sanitation infrastructure

There are three types of water service delivery

1. Regional Water Supply schemes
2. Rudimentary Water Supply scheme
3. Stand alone scheme

Water Services Development Plan (WSDP)

The WSDP is a multi-year sectoral plan addressing water and sanitation backlogs and infrastructure. Backlogs below are extracted from the 2013/14 WSDP;

WATER	TOTAL HOUSEHOLDS	BACKLOGS	% BACKLOGS	% OF TOTAL BACKLOGS
AbeQulusi LM	40 302	8 276	23.01%	16.40%
eDumbe LM	16 890	3 923	23.24%	6.84%
Nongoma LM	38 171	23 818	82.40%	42.11%
Ulundi LM	37 365	12 183	32.83%	21.56%
uPhongolo LM	25 136	7 350	29.24%	13.00%
Total	157 854	56 550	35.83%	100.00%

SANITATION	TOTAL HOUSEHOLDS	BACKLOGS	% BACKLOGS	% OF TOTAL BACKLOGS
AbeQulusi LM	40 302	14 440	35.83%	25.44%
eDumbe LM	16 890	607	3.60%	1.07%
Nongoma LM	38 171	18 242	42.55%	29.82%
Ulundi LM	37 365	14 548	38.83%	25.80%
uPhongolo LM	25 136	10 920	43.44%	19.24%
Total	157 854	56 757	35.88%	100.00%

Spatial Development Framework

As part of the IDP Process, the Spatial Development Framework will be developed in line with the Municipal Systems Act No 32 of 2000. The SDF which is a spatial manifestation of municipal strategies and roll out of municipal services will be linked with National and Provincial principles so that it is implementable. Zululand District Municipality has reviewed its Spatial Development Framework which was incorporated and adopted on the 29th May 2014 along with the IDP.

A Comprehensive Infrastructure Plan was developed by the municipality to properly quantify all sectoral backlogs and the cross-cutting impact, the plan was completed in May 2014.

Rural Roads Asset Management System

Please refer to early chapters in the report.

Development Planning Shared Services

In response to the new statutory function allocated to municipalities in terms of the new Planning and Development Act, a new unit called Development Planning Shared Services (DPSS) was established to capacitate and support municipalities in the Zululand area in terms of Development Planning and Geographic Information Systems. Funding contribution are staggered over a 3 year period with financial support from Co-Operative Governance and Traditional Affairs. Thereafter, the Shared Services will be funded in total by the Zululand Family of Municipalities.

Divided into two Directorates of Planning and GIS, the section consists of 8 staff including Planners, Geographic Information Systems Officials, Administrators and Secretary.

In terms of an arrangement between the Zululand Family of Municipalities, the Planning Directorate is placed at Abaqulusi Local Municipality owing to its central location.

The key objective of the Planning Directorate is to assist and capacitate local municipality planners in terms of the new Planning and Development Act, Statutory and Strategic Planning. The key objective of the GIS Directorate is to assist local municipalities and the district to manage and upgrade technical GIS capacity.

Spatial Planning

Municipalities who are contributing financially to the administration of the DPSS have already begun reaping the benefits in terms of assistance in dealing with current and new development applications. In terms of the Planning and Development Act, municipalities have taken over the balance of planning functions that were previously carried out at a Provincial level, and has helped improve and fast-track development application processes. Development Planning Shared Services has and continues to guide Zululand municipalities through this process.

There are various support functions that were performed by Development Planning Shared Services including:

Delegations

Municipalities are not in a position to authorise development applications without having delegations approved by council and the MEC in place in terms of the Planning and Development Act. Delegations in all of the local municipalities have been adopted.

Training and capacity building of Planning Officials

Conditions in the Planning and Development Act are new to municipalities. Therefore monthly workshops are held in partnership with Co-Operative Governance to improve levels of understanding of planning procedures and standards of Planners in Zululand.

Training of Municipal Councillors and Traditional Authorities

Allocation of land involves different stakeholders and custodians of land including traditional authorities. Councillors also play a role in the approval process of development applications.

Training for councillors and traditional authorities to understand their roles and responsibilities of the Planning and Development Act happens on a continuous basis especially with the pending implementation of the new Spatial Planning & Land Use Management Act (SPLUMA).

Assessment of Building Plans

In order to improve capacity of municipalities to deal with building plan approval, a position for a Building Inspector has been created within the development Planning Shared Services to support all municipalities in Zululand.

In the interim, Development Planning Shared Services continue to support municipalities in Zululand to fulfill this role.

Assessment of Development Applications

In order to sign off on approved development applications, Municipal Planners must be registered with the South African Council of Planners. Development Planning Shared Services are supporting Municipal Planners in Zululand to ensure that they are all registered.

Further to, Development Planning Shared Services have been supporting municipalities to assess more than 27 development applications in line with the new Planning and Development Act.

Review of Spatial Development Framework

Nongoma Local Municipality and Edumbe Local Municipalities have reviewed their Spatial Development Frameworks and Land Use Management Systems respectively. Nongoma council must now approve the framework.

Ulundi Local Municipality is reviewing its Town Planning Scheme and is finalising development of its Spatial Development Framework.

Zululand District Municipality will commence with the review of its Spatial Development Framework and Land Use Management Framework in this financial year.

Integrated Development Planning Support

Development Planning Shared Services have also supported local municipalities with their Integrated Development Plans, most notably Nongoma Local Municipality.

Development Applications received during the period under review (2013/14)

PDA Application: Status	Local Municipality					Total
	Ulundi	Nongoma	uPhongola	eDumbe	Abaqulusi	
Subdivision	1	2	2	3	2	10
Subdivision, Consolidation & Rezoning	0	0	0	1	0	1

Rezoning	0	0	0	2	2	4
Development of Land	0	0	0	0	1	1
Development situated the area of a scheme	4	0	0	0	0	4
						23

4.2 GEOGRAPHICAL INFORMATION SYSTEMS

Zululand District Municipality (ZDM) has advertised and is in the process of appointing a GIS Technician who will be responsible for attending to specific GIS needs of the District.

The Development Planning Shared Services (DPSS) GIS Unit team is there to provide GIS support to the GIS Technician that will be appointed by ZDM. The mandate of DPSS is also to provide

GIS support to the local municipalities within the district. Where municipalities do not have GIS capacity to fulfill their mandates, DPSS serves as that capacity.

DPSS is in the process of developing and improving Geographic Information Systems capacity of the Zululand Municipalities.

The GIS Unit with the Development Planning Shared Services has now been operational for 4 years. Tremendous progress has been made in ensuring that the Zululand family of municipalities has an effective district-wide geographical information platform which can support decision-making especially around the area of development planning, as per the original mandate.

Strides have also been made in providing GIS support not only to planning departments in Municipalities but also to other departments like Finance and Technical Services.

4.3 KEY PROJECTS:

MPRA MAPPING PROJECTS.

One key project initiatives that is being driven by the GIS Unit with Finance departments in Local Municipalities is the Municipal Public Rates Act (MPRA) mapping project. It is a key project. The main purpose of this initiative is to provide GIS support which seeks to assist Local Municipalities in complying with provisions of the MPRA act which give the Municipalities the right to impose rates on property owners and recover this revenue. The contribution of GIS in this endeavor is to map the spatial distribution of rate paying customers and identify the geographical locations of where people are not paying rates or complying with the act so that the Municipalities can take necessary action. At this stage, property valuation rolls of all the Local Municipalities have been mapped. The next phase of the project is to link the spatial data with billing information so that municipalities can see where people where customers who are not paying rates are geographically located.

4.4 ArcREADER DEVELOPMENT INITIATIVE

The main purpose of this project was and still is, to bring geographical information closer to the people that need to use it i.e. decision-makers. In other words make it more accessible. The secondary aim was use access to geographical information as a means of aiding the improvement of the quality of the information so that the system can be more relevant. Over 100 people were provided with GIS training in all Zululand Municipalities from Municipal Manager's to HOD to senior managers. ArcReader GIS software was installed on their computers and training manuals on how to use the GIS software was also provides. This initiative is currently being duplicated in other Municipalities in KZN as GIS best practice initiative which seeks to make Municipal staff more geographically literate about the areas in which they work and enable them to make better evidence based-decisions.

4.5 SHARED SERVICES GIS STRATEGIC PLAN

The GIS Unit has completed a GIS Strategic Plan for the 2014/15 financial year. This purpose of this plan is to present the strategic Geographical Information System (GIS) needs of municipalities in Zululand and develop a strategic direction and action plan which will enable the delivery of effective GIS support to municipalities. All Municipalities will be engaged so that needs can be identified for an implementation plan to be set in motion.

The following challenges with Geographic Information Systems were identified for Zululand Municipalities;

- a. Outdated hardware and software equipment
- b. Data sitting with consultants not handed over to the municipalities
- c. Limited knowledge capacity

Outdated software and hardware still remains a challenge in some municipalities. This is a challenge because it limits our ability to share GIS information with Municipalities especially those that have some internal GIS capacity.

The issue of data sitting with consultants and not being handed over to municipalities is also a challenge because it forces Municipalities to be dependent on consultants for information which they should have the intellectual property rights to, since they paid the consultants to produce such information. To try and address this GIS Unit has drafted a GIS Data Specifications policy document to all Municipalities for adoption. This specification is a brief technical document that sets the standard for the supply of digital spatial data sets by Consultants/Professional Service Providers undertaking studies and/or projects for Municipalities to incorporate them into their corporate Geographic Information System (GIS).

Most Municipalities have chosen ESRI ArcView as its corporate GIS software platform, and thus this specification has been formulated to ensure that work carried out for the municipality is delivered in a format and to a standard that is acceptable to their GIS requirements. Due to staff and budget constraints, the exercise of converting, "cleaning" and correcting of spatial data by the municipal GIS staff must be eliminated. The policy document calls for Consultants/Professional Service Providers to be required to deliver spatial data sets in accordance with this technical specification, and must ensure that the final project datasets supplied to the municipality are free from ambiguities. We hope that the inclusion of this policy as an addendum to the appointment letters of professional service providers in Municipalities will enable Municipalities to have control over their geographical information.

GIS Capacity is yet another challenge. Although strides have been made to provide basic GIS training to staff, more needs to be done. The Geomatics Profession Act 19 of 2013 was assented to by the President and *gazetted* into law on the 10th December 2013. The Act, "provides for different categories of registered persons". Section 13 of the Bill, outlines the categories under which a person may be registered for them to practice. Sub-section 2 (a) states that a person may not perform any work which is reserved for any of the categories unless they work under the supervision of a registered person and such registered person assumes responsibility for any work performed. Most, if not all provincial and national

government departments are currently complying with the provisions of the Bill. It is important and recommended that municipalities also comply with the Bill so that they are not left wanting when it is enacted.

The DPSS GIS specialist is an accredited Mentor and is assisting GIS practitioners in local municipalities to be registered with The South African Council for Professional & Technical Surveyors (PLATO), the main proponents of the Geomatics Profession Act. To date the GIS Officer in Nongoma municipality has successfully been registered by PLATO as a GISc Technician. Although DPSS is in the process of mentoring other GIS practitioners in the district, local municipalities are yet to be compliant with the provisions of the Geomatics Profession Act

4.6 OTHER GIS INITIATIVES

Other GIS initiatives which have been identified for roll out are the following:

1. Undertaking IDP / capital investment (MIG) mapping, data analysis and presentation to municipal management.
2. Undertaking illegal development mapping. Illegal development poses a risk on the ability of the municipality to collect revenue from rates and taxes. It also disrupts the well thought out planning roll outs for human settlements and places a huge strain on already planned for existing resources. It is important for the municipality to know where illegal development is taking place and what the extent of the illegal development is so that suitable strategies can be developed to address it.
3. Mapping of all municipal development plans.
4. Providing support to Municipal Planners w.r.t. compilation, mapping and analysing municipal SDFs, schemes, LUMS and development applications. The purpose of this exercise is to compile or provide support to consultants appointed by municipalities with the preparation of SDFs, Schemes and LUMS.

5. Mapping of customer complaints & termination of municipal services. The purpose of this task is to provide the municipality with a spatial representation of complaints by municipal ratepayers so that the municipality can more effectively be made aware of service delivery challenges.

These projects have been identified in the GIS strategic plan and will require support from municipal management for them to be successfully implemented.

The Strategic Direction of the municipality is guided by 5 key performance areas namely:

Basic Service Delivery

Social and Economic Development

Good Governance and Public Participation

Democracy

Municipal Institutional Transformation

This component includes: planning; and local economic development.

PERFORMANCE MANAGEMENT SYSTEM

1.1 Introduction

The Performance Management System (PMS) is generally defined as a strategic approach to management which equips leaders, managers, employees and stakeholders at different levels, with a set of tools and techniques to regularly plan, continuously monitor and periodically measure and review performance of the municipality in terms of indicators and targets for efficiency, effectiveness and impact.

Performance Management entails the development of priorities aligned to the municipal strategy as well as the development of Key Performance Areas, Key Performance Indicators, targets and measures. This enables proper planning, measuring, monitoring, reviewing and reporting on performance in the organisation. Performance management ensures the harnessing and maximum performance of all available resources within the organisation. Communities are involved in the development of performance measures to ensure that they have insight into and are involved in decision-making regarding the services delivered to them by the municipality.

The implementation of a performance management system framework should allow the municipality to collect, process, organise, analyse, audit, reflect and report on performance information. It should also allow the municipality to take practical steps to improve its performance.

Upon the compilation of the municipal annual report, a performance report should be developed and form part of the annual report. This document is therefore intended to report on the performance targets as set for 12/13 financial year. This report is intended to reflect on the performance framework of the municipality and the targets that were set for the 12/13 period.

1.2 The legislative framework

The legislative framework of the PMS includes the Constitution of the country, The white paper on Local government, the Municipal Systems Act, the Municipal Finance Management Act, Municipal Planning and Performance Management Regulations. For the purposes of this document the following pieces of legislation will be considered and briefly outline their provisions.

- Municipal systems Act
- Municipal planning and performance management regulations
- Batho Pele
- White paper on local government

1.2.1 Municipal systems Act

Chapter 6 of the Municipal Systems Act, (Act 32 of 2000) requires that all Municipalities must establish a PMS that is in line with its resources, best suited for its dynamics and that is in line with its priorities, objectives, indicators and targets as contained in the IDP. The municipality is also required by the Act to promote a culture of performance among its political structures, political office bearers and councillors and in its administration; and administer its affairs in an economical, effective, efficient and accountable manner.

It is this same Act which provides that the municipality must establish mechanisms for monitoring and reviewing its performance management system. The law requires a PMS to have the following core components:

- Set appropriate key performance indicators
- Set measurable performance targets
- Develop the monitoring framework
- Performance measurement and review mechanisms
- Establish a process of regular reporting

The Act also requires the council to ensure the community involvement in the development and review of the municipality's PMS.

According to section 46 of the Municipal Systems Act, a municipality must prepare for each financial year an annual report that also consists of a performance report. That performance report must reflect:

1. The municipality's, and any service provider's, performance during that financial year, also in comparison with targets of and with performance in the previous financial year;
2. The development and service delivery priorities and the performance targets set by the municipality for the following financial year; and
3. Measures that were or are to be taken to improve performance;

1.2.2 *The Municipal Planning and Performance Management Regulations, 2001.*

This piece legislation further instructs each municipality to ensure that its performance management system:

- Complies with the requirements of the Act.
- Demonstrates how the system will operate and be managed from the planning stage up to the stages of performance and reporting.
- Clarifies the roles and responsibilities of each role player, including the local community, in the functioning of the system.
- Determines the frequency of reporting and the lines of accountability for performance.
- Relates to the municipality's employee performance management processes.
- Provides for the procedure by which the system is linked to the municipality's integrated development planning processes.
- Is adopted before or at the same time as the commencement of by the municipality of the process of setting key performance indicators and targets in accordance with its integrated development plan.

It is in terms of this regulation that the council's PMS must be adopted by the council at the same time as the identification of the key performance areas by the municipality. This regulation also presents the prescribed general key performance indicators that should be aligned to those identified by the municipality.

1.2.3 The Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Municipal Manager, 2006: -

This piece of legislation seeks to set out how the performance of municipal managers will be uniformly directed, monitored and improved. It also addresses both the Employment Contract of a municipal manager and managers directly accountable to municipal managers, as well as the Performance Agreement that is entered into between respective municipalities, municipal managers and managers directly accountable to municipal managers. According to this piece of legislation the KPAs for Municipal Managers and Managers directly accountable to the Municipal Manager are stipulated in the Regulations, 2006 as follows:

- Basic Service Delivery
- Municipal Institutional Development and Transformation
- Local Economic development (LED)
- Municipal Financial Viability and Management
- Good Governance and Public Participation

1.2.4 The batho pele principles

Batho Pele principles note that the development of a service-oriented culture needs an active and informed participation of the wider community. Municipality must therefore receive a constant feedback from its customers in order to improve their service delivery mechanisms. The PMS is an important tool for ensuring that the council delivers on its mandate hence the communities should also be involved in its development and review.

1.2.5 The white paper on local government

This paper proposed the introduction of the performance management system to local government as a tool to ensure the envisaged developmental local government. As such it states that the IDP, budget and PMS are powerful tools that can assist municipalities to develop an integrated perspective on development in their area. It enables them to focus on priorities within an increasingly complex and diverse set of demands and enables them to direct resource allocations and institutional systems to a new set of development objectives

PERFORMANCE OF EXTERNAL SERVICE PROVIDERS

The monitoring of the service provider performance is ensured through the signing of the Service Level Agreement. It is currently being done by user department levels. The end user department is providing monthly reports to the SCM unit as well. Service providers who fail to perform are reported to SCM and the necessary action is taken including the termination of the contract or cancellation of an order.

4 Municipal Performance Measures

This section demonstrates the Municipal Performance Measures which are pillars of the Municipal Strategic Plan and Service Delivery and Budget Implementation Plan.

The table further demonstrates the link between National, Provincial, as well as Local Government priorities in terms of the Municipal Systems Act.

National KPA	Focus Areas or CSF	Key Objective	Objective	KPI No	KPI Name
Basic Service Delivery	Water and Sanitation	To progressively provide a cost effective, reliable water service at a good quality to all potential consumers in the district	To review and facilitate the WSDP	1	Approved WSDP plan
			Provide free basic water	2	Percentage of households with access to basic level of water (HH 142 543)
			Improve access to free water	3	Percentage of households earning less than R1100 pm with access to free water (Note: Rudimentary LOS included)

			Improve water quality	4	Number of water quality tests
			To provide free basic sanitation services	5	Percentage of households with access to basic level of sanitation
			Improve access to free sanitation	6	Percentage of households earning less than R1100 pm with access to free basic sanitation
	To deliver and regulate water services in a structured manner		To ensure that legislated water policies are reviewed and updated	7	Approved policies and bylaws
			Effectively monitor WSP's	8	Number of WSP reports submitted
			Implement effective Customer Care	9	Average time of notification to community prior to planned interruptions
			Effectively utilise MIG allocation	10	% of MIG grant funds spent on approved projects

				Maximise the implementation of IDP identified projects	11	100% capital budget actually spent on IDP projects identified
	Disaster Management	To deal with Disasters efficiently & effectively in the district		Effective coordination of DM plan implementation	12	4 Disaster management forum meetings
				Create awareness of hazards and disasters	13	12 Disaster Management awareness campaigns
				Review and facilitate the district Disaster Management plan	14	Approved Disaster management Plan
	Municipal Airport	To viably establish, operate and maintain a Regional Airport that contributes to the growth and development of the district		Review and facilitate airport services	15	Approved airport plan
				Review and facilitate airport services	16	Implement airport plan
Municipal Financial viability and management	Sound Financial Management	To promote good financial practices		Improve revenue collection	17	Outstanding service debtors recovery rate to revenue
				Improve supply chain application	18	0 Successful appeals
				Process payments in time	19	30 days processing time of invoices
				Complete and submit accurate annual financial	20	Review and submit Financial Statements

statements								
Complete and submit accurate annual financial statements within the specified time period	21							Unqualified (u.q) audit opinion
Budget for ZDM annually	22							Approved final budget
Have an effective Auditing Function	23							4 audit committee meetings
	24							75% of audit queries addressed from the AG report
Develop a Financial Plan (i.e. Budget Process and Time Table)	25							Approved financial plan
Increase the cost coverage ratio	26							Cost Coverage ratio
Increase the dept coverage ration	27							Debt Coverage Ratio
Increase the dept coverage ration	28							96% operating budget funded from cash
Report timely and accurately	29							Approved annual report
Produce accurate statements	30							% of account adjustments effected

				Keep minimum cash balance to cover average monthly expenditure	31	60 days with excessive funds in current account in relation to strategy
				Align Capital programme and IDP	32	% of capital projects budgeted for in accordance with the IDP
Local Economic Development	District Tourism	To promote Tourism in the District		Co-Ordinated and Integrated Regional Economic Development	33	Approved LED Strategy
				Co-Ordinated and Integrated Regional Economic Development	34	Number of tourism awareness and training workshops held
		To improve the economy of the district, through the creation of job opportunities and additional economic activities		Co-Ordinated and Integrated Regional Economic Development	35	Number of jobs created through LED initiatives and capital projects
				Increase implementation capacity	36	8 approved LED Business plans
				Effectively co-ordinate LED in the District	37	8 LED Forums/Sub-Forums meetings held
				Effectively co-ordinate LED in the District	38	Number of LED projects implemented

	HIV/AIDS	To reduce the impact of HIV/AIDS	Plan and implement institutional measures that would reduce the impact of HIV/AIDS	39	Approved HIV/AIDS Strategy
			Create HIV/AIDS awareness and education	40	12 awareness campaigns held
	Youth & Gender	To develop and empower Youth & Gender	Access sufficient resources to implement Youth and Gender Programmes	41	4 approved Youth & Gender related Business Plans submitted for funding
			Access sufficient resources to implement Youth and Gender Programmes	42	Approved youth and gender strategy
			Enable participation and create awareness of Councils Youth and Gender Programmes	43	4 District Youth & Gender Councils Meetings held
	Community Development	The social upliftment of the communities in ZDM	Reduce poverty by implementing Community Development Projects	44	500 people participating in ZDM Community Capacity Building Programmes
			Reduce poverty by implementing Community Development	45	12 food production site inspection reports

			Projects			
			Enhance mortuary compliance			46
			Implement food production compliance			47
Good Governance			Improve community and stakeholder participation	To promote good governance, accountability & transparency		48
			Spend grant funding			49
			Improve governance			50
			Manage performance effectively			51
			Maintain Institutional Capacity to render Municipal Services			52
			Mitigate risks			53
Municipal transformation and institutional development		Integrated & Co-ordinated Development	Encourage participation in IDP process, ensure alignment with local municipalities	To promote integrated and co-ordinated development within the District		54

				Encourage participation in IDP process, ensure alignment with Local municipalities	55	Date of submission of IDP framework plan to council for adoption
				Effective spatial development	56	Date of submission of reviewed spatial development framework to council
					57	Adopted Intergrated Development Plan
				Report timely and accurately	58	Number of SDBIP reports
				Application of Policies & bylaws	59	Approved Employee Assistance Programme
					60	Approved corporate service policies (Records, HR and Fleet)
				Implement and Manage Employment Equity	61	Number of people from employment equity target groups employed in three highest levels of Management
				Maintain Institutional Capacity to render Municipal Services	62	Submit workplace skills plan
					63	95% Municipal Budget spent on Skills Development Plan

									64	Implemented Workplace skills plan

CHAPTER 5

COMMUNITY & SOCIAL SERVICES

5.1 INTRODUCTION TO ECONOMIC DEVELOPMENT

The Zululand District Municipality's location in the Province in as far as transport routes and its distance from major centre's is concerned, is relatively isolated from the national economy hubs. Further to this, access to basic factors of production such as raw materials, skilled labour and infrastructure is generally limited. Raw materials available in the area relate to coal mining and agricultural activities including maize, beef, and timber and sugar production. Local beneficiation of raw materials is limited.

The area reflects the disparity in access to resources evident in all areas of KwaZulu-Natal where poverty stricken traditional authority areas border on well-established commercial farming areas. The five municipal centres, or key towns, are the focus of economic activity in each of the local municipalities and here the resource split between urban and rural areas are evident.

Despite the above the area has unique characteristics offering a range of opportunities for economic development. Most importantly the area of the Zululand District Municipality is viewed as the symbolic core, also referred to as the "warm heart", and of the wider area referred to as Zululand. This represents specific marketing opportunities. The district is home to a rich cultural diversity and

numerous sites of historical significance, specifically relating to the Zulu nation. It has historically been and is still the home of the Zulu monarch.

Our Objectives

Within the context of our vision and mission the key basic objects of the social and economic development in the Zululand District Municipality are:

- a) **Reduce income leakages**
 - Encouraging local manufacturing
 - Increase local / external tourism market
- b) **Increase investment – both local & external**
 - DM is relatively isolated & capital investment is limited
 - Investment in tourism, agriculture business is to be prioritised
- c) **Promote local business development & business interaction**
 - Interaction between business will contribute to countering income leakage & establishment of a new vibrancy in the economy
- d) **Increase entrepreneurial opportunities and employment**
 - All the above objectives needs to be supported by a strong focus on entrepreneurial dev.
- e) **Reduce poverty through capacity building and provision of entrepreneurship opportunities for ZDM communities through skills development.**

5.1.1 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

The success of the strategies identified and developed in this report should be measured against the extent to which the objectives are being achieved.

Economic Activity by Sector				
Sector	R. mil			2013/14

T 3.11.3				

In certain areas of the District substantial work has been done to develop the tourism sector and its assets, however, much still remains to be done for the benefits of the sector to impact significantly on the socio-economic conditions of the communities of Zululand. The area, however, faces major challenges in achieving this. Some of the key challenges include the distance of Zululand from major centers, the ceasing of regular flights to the Ulundi airport, the quality of road infrastructure in the District, the lack of coordination in tourism marketing and other.

5.2 CHILDCARE; AGED CARE; SOCIAL PROGRAMMES

INTRODUCTION TO CHILD CARE; AGED CARE; SOCIAL PROGRAMMES

SOCIAL PROGRAMMES

Improving the quality of life for Communities of Zululand District Municipality is the core function of the Social Development Unit of the Municipality.

To achieve this goal a number of programmes are coordinated from this section, namely:

- Gender programmes,
- Disability Programmes
- Arts and Culture Programmes
- Senior Citizens programmes
- Youth Development Programmes
- School Uniforms supporting programmes
- Youth Driver's Licences programme
- Sport Programmes
- HIV/AIDS Programmes

Provide brief introductory comments .Set out your top 3 service delivery priorities and the impact you have had on them during the year. Explain the measures taken to improve performance and the major efficiencies achieved by your service during the year. Refer to support given to those communities that are living in poverty.

T3.56.1

5.2.1 GENDER PROGRAMMES

Women's Summit

The aim of the summit is to empower women citizens through developmental information dissemination by ZDM and other development external organisations. The summit is mostly attended by women leaders such as female councillors, female Amakhosi (and wives of Amakhosi-oNdlunkulu), representatives of government departments, female izinduna, professional women and women in business. These leaders then go back to their communities and convene meetings to share the information and/or invite the municipality to address their fellow women. This is a platform where women share information and enter into dialogues on issues regarding development opportunities which covers topics like business opportunities, self-help programmes/projects, education, social ills, women' health, HIV/AIDS and local economic development initiatives, etc. Women are assisted with information how these opportunities can be accessed.

These annual summits have a great impact in improving the quality of lives of the women of the District. Various opportunities in the municipality, private sector and other organisations are exposed and assistance to access these opportunities is rendered to them. In this manner the municipality realises the goal of alleviating poverty.

Women's Celebration

This is an annual event which takes place a day after the women's summit which is aimed at commemoration of the Women's Day which is in line with the National Women's Celebration Day. This is to remind both young and older women of hard earned freedom that their fellow women fought during the great march of 1956 to the Union Building in Pretoria in protest against legislation aimed at tightening the apartheid government's control over the movement of black women in urban areas.

Women's Day Celebration

5.2.2 DISABILITY

This is the day to observe the International day for people living with disabilities that takes place annually. On this day the Mayor ensures that all people with disabilities converge at one centre and an expert who works with them facilitates discussions on issues pertaining to them holistically. The Mayor also distributing equipment or aids to them which assist to improve the quality of their life.

5.3 YOUTH DEVELOPMENT.

ZDM has coordinated the formation of the youth council which is the youth body that assists the municipality to design youth programmes and implementation thereof. Subsequent to the formation of the council, establishment of Youth Development Committee that further has sub-committees that specialise on different development areas were formed. They meet bimonthly to give progress report to the main committee and the municipality.

5.3.1 Youth Summit

Youth Forums from all five municipalities are invited to a summit to discuss challenges and the ways of improving their lives economically, educationally and work opportunities which are available to the ZDM young communities. ZDM invites facilitators/ presenters from different sectors to come and do presentations on opportunities available for the youth in their businesses.

5.3.2 YOUTH DAY CELEBRATION

This event is happening after the youth summit where all five municipalities under the District attend a day to celebrate the National Youth Day and this is also the annual event where there is entertainment and community leaders speak to the youth with the Mayor being the speaker of the day.

5.3.3 SCHOOL UNIFORMS

The School Uniforms programme was started eight years ago as an intervention initiative to respond to learners' needs particularly those who are single parented, heading their households and those that are under the care of grandparents. The Department of Education circuit offices and the municipality identify ten learners per school from each local municipality as recipients, i.e. 500 learners in the District.

Learners from one of the recipient schools

5.3.4

DRIVERS LICENCES PROJECT

This is an annually project aimed at capacitating youth who are underprivileged by giving them some of the requirements by the job market. ZDM identifies 10 young people per local municipality who are taken through learners licence until they obtain drivers licences.

5.4 SPORT PROGRAMMES/MARATHON

Marathon was started in 2005 and runs between Ulundi and Nongoma. It engages stakeholders namely; Nongoma and Ulundi Athletic Clubs at planning level but open to everyone for participation, with Zululand as a lead urgent. This race is a Comrade Marathon qualifier.

5.4.1 MAYORAL CUP

ZDM mobilises youth to participate through their Local Municipalities; where they have selection games on 15 different sport codes and the teams selected they have an opportunity to represent the district at a provincial level (SALGA Games).

5.4.2 INDONSA ARTS AND CRAFTS CENTRE

The Centre is situated at Ulundi and has been named the best performing community arts centre in KZN, it provides skills training programmes in Fashion Design, Visual Arts and Music (instruments) free of charge. Umbele Wethu Cultural Competition is an annual event organised by the Centre during schools winter holidays aimed at discovering new talent and also to encourage young people to capitalise in those talents and make them careers. In the 18 competition categories of performing and non performing art, winners of the District Finals receive prize money and a chance to record their music (if they competed in music) in a fully equipped professional recording studio at the Centre.

Zayoni music category competitors

5.5 CENTRE ACHIEVEMENTS

- Four young people have been afforded a chance to be part of the production that is going to tour UK for 18 weeks under the banner of 'The mighty Zulu Nation' Theatre company between July 2013 and December 2014.
- **Bingelela** former Indonsa Music Class student has released an album under KZN Music house and is featuring in the top 20 chart of Igagasi FM. All songs in her afro soul album were composed and recorded at Indonsa
- Indonsa contract employees are now permanently employed by the Zululand District Municipality
- Between July and December 2013 indonsa managed to record and master 27 artists whose work is in marketing in the following genres: 07 gospel; 02 Hip Hop; 01 House; 02 Kwaito; 05 Amazayoni; 08 Maskandi; 01 Afro Jazz and 01 Isicathamiya.

5.5.1 HIV AND AIDS PROGRAMMES

PRINCESS MANDISA HEALTH CARE CENTRE

Princess Mandisi Health Care Centre is the brain child of the former Mayor Cllr VZ KaMagwaza-Msibi, it was established to respond to a number of health and social ills affecting Zululand communities, particularly to the scourge of HIV and AIDS. This formed part of her commitment in ensuring that all communities of Zululand upholds and lead health lifestyle.

The municipality through the Health Centre has forged partnerships with a number of stakeholders in ensuring sound response to HIV & AIDS, STIs and TB (HAST). Some of the programmes/services offered are as follows;

- Health Education on various programmes
- HIV Counselling and Testing (HCT)
- Support for Community Based Organization working of HIV & AIDS
- Establishment of Support Groups
- Trainings & Workshops on Health Programmes

ZDM also have a long lasting partnership with LOVE LIFE who has seconded peer educators who visits schools for health education on teenage learner pregnancy, drugs and substance abuse.

This social programmes unit is also responsible for coordination and administration of AIDS Councils which further cascades to the support of Local AIDS Councils and Ward AIDS Councils.

Zululand in partnership with the Sexual HIV Prevention Programme (SHIPP) has funded 10 local CBOs working on prevention of HIV with an amount of R2million each.

5.6 HEALTH INSPECTION; FOOD AND ABBATOIR LICENSING AND INSPECTION; ETC

INTRODUCTION TO HEALTH INSPECTIONS; FOOD AND ABBATOIR LICENSING AND INSPECTIONS, ETC

Primary Health Care is the first line of defence in the diseases pattern, all South African should promote it. Environmental Health Practitioners are trained to monitor and enforce compliance with National Health Act, 2003 (Act No.61 of 2003). A Health Officer may enter any premises, excluding a private dwelling, at any reasonable time and:

Inspect premises in order to ensure compliance with the abovementioned Act and our achievement to this effect has been the health education of 83 food caterers on food handling.

Constant monitoring of food premises promotes the cleanliness and customers benefit in buying safe food.

In ensuring that the meat that is sold by our butcheries is wholesome we conduct meat inspections in our local abattoirs.

T3.64.1

Food Monitoring (Mass Functions)

Environmental Health Practitioners are also involved in monitoring food caterers during mass functions. We all know that when the cold chain is not observed during storage up until serving, a lot of people may fall sick or even die from food poisoning. In all mass functions organized by the Zululand District Municipality, local municipalities and government departments, we monitor food in order to ascertain its palatability health compliance. Food is monitored by looking, testing, and taking samples. Since we started with the monitoring, no food poisoning incidences have been reported.

5.6.1 Disposal of the Dead

The Zululand District Municipality policy on pauper burial has been helpful in terms of giving the unknown a decent/proper burial and also assisting the forensic mortuaries in the District as a whole. The following is the number of pauper burial done per local municipality:

No	LOCAL MUNICIPALITY	No. OF BODIES BURIED
1	Ulundi Local Municipality	00
2	Nongoma Local Municipality	00
3	Pongola Local Municipality	00
4	Abaqulusi Local Municipality	10
5	eDumbe Local Municipality	00
	Total	10

The table below reflects all the duties performed by Environmental Health Practitioners within the Zululand District Municipal Area.

No.	Work Items	No. of Inspections/Attendance	Action
1	Food caterers' kitchens Inspected	326	Health Education conducted on food handling
2	Food Caterers Issued with Certificate of Acceptability (COA)	223	Health Education conducted on food handling
3	Formal Food Premises Inspected	98	Health Education conducted on food handling & Management
4	Formal Food Premises Issued with COA	15	COA certificates issued
5	Education on food handling and safety	98	Reports were written to all those premises
6	Complaints received	10	All attended to, and some premises were Issued with notice

Mr. S.B NKOSI

ZULULAND DISTRICT MUNICIPALITY
ANNUAL FINANCIAL STATEMENTS
for the year ended 30 June 2014

REPORT OF THE CHIEF FINANCIAL OFFICER

1. INTRODUCTION

It gives me great pleasure to present the Annual Financial Statements of Zululand District Municipality at 30 June 2014.

These Annual Financial Statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The Statement of Financial Position at 30 June 2014 indicates an increase in Net Assets and an increase in Current Liabilities.

The increase in Net Assets is ascribed primarily to the allocated Grant funding for the installation of infrastructure. The increase in Current Liabilities is primarily as a result of the increase in Trade and Other Payables and bank overdraft.

2. KEY FINANCIAL INDICATORS

The following indicators are self-explanatory. The percentages of expenditure categories are well within acceptable norms and indicate good governance of the funds of the municipality.

2.1 Financial Statement Ratios:

INDICATOR	2014	2013
Surplus / (Deficit) before Appropriations	188 840 109	233 016 279
Surplus / (Deficit) at the end of the Year	-	-
Expenditure Categories as a percentage of Total Expenses:		
Employee Related Costs	24.64%	24.79%
Remuneration of Councillors	1.19%	1.33%
Contribution to Doubtful debts	1.23%	0.55%
Depreciation and Amortisation	5.69%	6.60%
Repairs and Maintenance	9.02%	8.39%
Interest Paid	0.00%	0.00%
Bulk Purchases	14.57%	14.72%
Contracted Services	2.57%	2.35%
Grants and Subsidies Paid	0.35%	0.23%
General Expenses	40.73%	41.03%
Current Ratio:	0	1
Trade Creditors Days		
Debtors from Exchange Transactions Days	-	-

2 OPERATING RESULTS

Details of the operating results per segmental classification of expenditure are included in Appendix "D".

Details of the operating results per segmental classification of expenditure are included in Appendix "D", whilst operational results are included in Appendices "E (1), E (2) and E (3)".

The services offered by Zululand District Municipality can generally be classified as Trading Services and are discussed in more detail below.

The overall operating results for the year ended 30 June 2014 are as follows:

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income:					
Opening surplus / (deficit)	1 792 772 214	1 565 432 214	14.52	1 886 140 484	(4.95)
Operating income for the year	188 840 109	227 340 000	(16.93)	28 397 402	564.99
Appropriations for the year	-	-	-	-	-
	1 981 612 322	1 792 772 214	10.53	1 914 537 885	3.50
Expenditure:					
Operating expenditure for the year	521 790 966	455 774 144	14.48	452 427 018	15.33
Sundry transfers	-	-	-	-	-
Closing surplus / (deficit)	188 840 109	233 016 279	(18.96)	1 462 110 867	(87.08)
	710 631 075	688 790 422	3.17	1 914 537 885	(62.88)
	1 270 981 248	1 103 981 791			

3.1 Water Services:

Water is purified in bulk and distributed to the consumers by the municipality. Sewerage is removed from households and treated at sewer treatment plants but only for those households who are connected to the water-borne sewer system. The cost of bulk water purification and sewer treatment to the municipality was R76 016 153 (2013: R67 096 498). Tariffs levied for water are subject to administered adjustments.

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Income	26 369 005	23 914 694	10.26	34 574 042	(23.73)
Expenditure	43 301 094	37 996 890	13.96	45 559 258	(4.96)
Surplus / (Deficit)	(16 932 089)	(14 082 195)	20.24	(10 985 216)	(18.78)
Surplus / (Deficit) as % of total income	(64.21)% (316 018 769)	(58.89)% (214 351 948)		(31.77)% (413 044 401)	

4. FINANCING OF CAPITAL EXPENDITURE

The expenditure on Assets during the year amounted to R323 461 861 (2012/13: R299 199 297). Full details of Assets are disclosed in Notes 8, 9, 10, and Appendices "B, C and E (4)" to the Annual Financial Statements.

The capital expenditure of R323 461 861.25 was financed as follows:

DETAILS	Actual 2013/14 R	Actual 2012/13 R	Percentage Variance %	Budgeted 2013/14 R	Variance actual/ budgeted %
Capital Replacement Reserve	-	-	-	-	-
External Loans	-	-	-	-	-
Finance Leases	-	-	-	-	-
Grants and Subsidies	316 378 874	294 258 418	7.52	359 031 000	(11.88)
Public Contributions	-	-	-	-	-
Own Funds (Accumulated Surplus)	7 082 987	4 940 879	43.35	28 397 401	(75.06)
	323 461 861	299 199 297	8.11	387 428 401	(16.51)
	323 461 861.25	299 199 296.85		387 428 401.48	

Source of funding as a percentage of Total Capital Expenditure:

DETAILS	2014	2013
Capital Replacement Reserve	-	-
External Loans	-	-
Grants and Subsidies	97.81%	98.35%
Public Contributions	-	-
Own Funds (Accumulated Surplus)	2.19%	1.65%
	100.00%	100.00%

Capital Assets are funded to a great extent from grants and subsidies as the municipality does not have the financial resources to finance infrastructure capital expenditure from its own funds.

5. RECONCILIATION OF BUDGET TO ACTUAL

5.1 Operating Budget:

	2014	2013
DETAILS		
<i>Variance per Category:</i>		
Budgeted surplus before appropriations	-	-

Electricity	-	-	-	-	-
Other	-	-	-	-	-

	223 461 861	299 199 297	24 262 564	393 803 238	(70 341 378)
	323 461 861	299 199 297		393 803 238	(70 341 378)

Details of the results per segmental classification of capital expenditure are included in Appendix "C" and in Appendix "E (4)".

6. ACCUMULATED SURPLUS

The balance of the Accumulated Surplus as at 30 June 2014 amounted to R0 (30 June 2013: R0) and is made up as follows:

Capital Replacement Reserve	-
Capitalisation Reserve	-
Donations and Public Contributions Reserve	-
Government Grants Reserve	-
Accumulated Surplus	1 981 498 003
	<u>1 981 498 003</u>

The municipality, in conjunction with its own capital requirements and external funds (external loans and grants) is able to finance its annual infrastructure capital programme.

Refer to Note 32 and the Statement of Change in Net Assets for more detail.

These provisions are made in order to enable the municipality to be in a position to fulfill its known legal obligations when they become due and payable.

10. CURRENT LIABILITIES

Current Liabilities amounted R95 749 070 as at 30 June 2014 (30 June 2013: R93 947 385) and is made up as follows:

Consumer Deposits	Note 12	3 227 865
Provisions	Note 14	5 869 455
Payables from Exchange Transactions	Note 11	80 719 908
Payables from Non-exchange Transactions	Note 15,	562 815
Unspent Conditional Grants and Receipts		-
VAT Payable		-
Short-term Loans		-
Operating Lease Liabilities		-
Bank Overdraft	Note 2	5 499 352
Current Portion of Long-term Liabilities		-
		<u>95 879 395</u>

Current Liabilities are those liabilities of the municipality due and payable in the short-term (less than 12 months). There is no known reason as to why the municipality will not be able to meet its obligations.

Refer to the indicated Notes for more detail.

11. PROPERTY, PLANT AND EQUIPMENT

The net value of Property, Plant and Equipment was R2 052 991 773 as at 30 June 2014 (30 June 2013: R1 760 005 088).

Refer to Note 8

12. INTANGIBLE ASSETS

The net value of Intangible Assets were R383 745 as at 30 June 2014 (30 June 2013: R378 216).

Intangible Assets are assets which cannot physically be identified and verified and are in respect of computer software obtained by the municipality in order to be able to fulfil its duties as far as service delivery is concerned.

Refer to Note 10 for more detail.

14. HERITAGE ASSETS

The net value of Heritage Assets were R1 151 452 as at 30 June 2014 (30 June 2013: R988 478).

Heritage Assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

Refer to Note 9 for more detail.

17. CURRENT ASSETS

Current Assets amounted R32 125 0510 as at 30 June 2014 (30 June 2013: R 128 333 7990) and is made up as follows:

Inventories	3 365 745
Note 5	

Non-current Assets Held-for-Sale		
Receivables from Exchange Transactions	Note 3.1 & 3.2	3 823 100
Receivables from Non-exchange Transactions	Note 4.38	4 146 093
VAT Receivable	Note 13	6 641 538
Cash and Cash Equivalents	Note 2	-
Prepayments	Note 6	1 754 390
Current Portion of Finance Lease Receivables		-
Current Portion of Long-term Debtors		-
		<u>19 730 865</u>

The decrease in the amount for Current Assets is mainly due to the decreased amount held in Bank and Cash Equivalents.

18. INTER-GOVERNMENTAL GRANTS

The municipality is dependent on financial aid from other government spheres to finance its annual capital programme. Operating grants are utilised to finance indigent assistance and provision of free basic services.

20. EXPRESSION OF APPRECIATION

We are grateful to the Mayor, members of the Executive Committee, Councillors, the Municipal Manager and Heads of Departments for the support extended during the financial year. A special word of thanks to all staff in the Finance Department, for without their assistance these Annual Financial Statements would not have been possible.

CHIEF FINANCIAL OFFICER
31 August 2014

CHAPTER 6 – AUDITOR GENERAL AUDIT FINDINGS

COMPONENT A: AUDITOR GENERAL OPINION OF FINANCIAL STATEMENTS 2013/14

REPORT OF THE AUDITOR-GENERAL TO THE KWAZULU-NATAL PROVINCIAL LEGISLATURE AND COUNCIL ON ZULULAND DISTRICT MUNICIPALITY

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the financial statements of the Zululand District Municipality set out on pages x to x, which comprise, the statement of financial position as at 30 June 2014, the statement of financial performance, statement of changes in net assets, the cash flow statement and the statement of comparison of budget information with actual information for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Local Government: Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003)(MFMA) and the Division of Revenue Act of South Africa, 2013 (Act No. 2 of 2013)(DeRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on the financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA); the general notice issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Zululand District Municipality as at 30 June 2014, and its financial performance and cash flows for the year then ended in accordance with SA standards of GRAP and the requirements of the MFMA and DoRA.

Additional matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited supplementary schedules

8. The supplementary schedules set out on pages xx to xx do not form part of the financial statements and is presented as additional schedules. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

Unaudited disclosure notes

9. In terms of section 125(2)(e) of the MFMA, the Zululand District Municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and accordingly I do not express an opinion thereon.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

10. In accordance with the PAA and the general notice issued in terms thereof, I report the following findings on the reported performance information against predetermined objectives for selected development priorities presented in the annual performance report, non-compliance with legislation as well as internal control. The objective of my tests was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

11. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected development priorities presented in the annual performance report of this municipality for the year ended 30 June 2014:
 - Development priority 1: Infrastructure and services on pages x to x
 - Development priority 2: Economic, agriculture and tourism on pages x to x

13. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned development priorities. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for managing programme performance information.

14. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

15. I did not raise any material findings on the usefulness and reliability of the reported performance information for the selected development priorities.

Additional matters

16. Although no material findings concerning the usefulness and reliability of the performance information were identified in the annual performance report, I draw attention to the following matters below:

Achievement of planned targets

17. Refer to the annual performance report on pages x to x and x to x for information on the achievement of the planned targets for the year.

Material adjustments to the annual performance report

18. I identified material misstatements in the annual performance report submitted for auditing on the reported performance information for infrastructure and services; economic, agriculture and tourism; and social development and food security. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

Unaudited supplementary information

19. The supplementary information set out on pages x to x do not form part of the annual performance report and is presented as additional information. I have not audited this information and accordingly, I do not express a conclusion thereon.

Compliance with legislation

20. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

OTHER REPORTS

Investigation

22. The municipality appointed an independent consulting firm to perform an investigation into alleged misappropriation of the municipal assets, covering the period 23 January 2012 to 31 July 2014. The investigation was concluded on 31 October 2014 and resulted in disciplinary proceedings being instituted against two employees. These proceedings are currently in progress.

AUDITOR-GENERAL
SOUTH AFRICA

Auditing to build public confidence

Audit Committee Report to the Council of Zululand District Municipality

Background

Audit Committee mandate

The Zululand District Municipality has established an Audit and Audit Performance Management Committee in accordance with section 166 of the Municipal Finance Management Act, Act no 56 of 2003 (MFMA) and section 14(2)(c) of the Local Government Municipal Planning and Performance Regulations, 2001 (Regulations). Consideration has also been given to section 14(2)(c) of the Regulations and MFMA Circular No. 65 issued by the National Treasury in November 2012 as well as the recommendations contained in the King Report on Governance for South Africa 2009 (King III).

Role of the Audit Committee

The role of the Audit Committee is to assist the Zululand District Municipality in achieving its strategic goals and objectives, by helping to maintain effective internal controls, risk management, accurate financial reporting and corporate governance principles, and other such duties as may be directed by the Council and Accounting Officer.

The Audit Committee must review and assess the qualitative aspects of financial reporting, the municipality's processes to manage business and financial risk, governance processes and compliance with applicable legal, ethical and regulatory requirements.

Audit Committee members

The Audit and Performance Management Committee, consisting of independent, external members listed below, is required to meet at least 4 times per annum as per the Audit Committee Charter, although additional meetings may be called as the need arises. The Audit Committee has met more than 4 times for the financial year 2013-2014.

We present our report for the year-end 30 June 2014

Audit Committee members and attendance:

Details	Qualifications	Meetings	Status
Mr. P Mramambo – AC Chair	Bcompt	8/8	Active
Mr. M.C. Ndwardwe	Bcom	8/8	Active
Mr. M.Ngcobo	NDIP-Town & Regional Planning	5/8	Active

The Council of Zululand District Municipality has appointed its Audit Committee to assist the municipality in advising:

- Municipal Council, the political office-bearers, the accounting officers and the management staff of the municipality, accounting officer and the management staff of the municipal entity, on matters relating to:

1. Internal financial control and internal audits;
2. Risk management
3. Accounting Policies
4. The adequacy, reliability and accuracy of financial reporting and information
5. Performance management
6. Effective governance
7. Compliance with this Act, DORA and any other applicable legislation (MFMA 56 of 2005, Section 166(2)(e)(i-ix)

In order for the audit committee to be effective and able to advise according we rely on the reports prepared by internal audit, information obtained from the management and accounting officers.

The Effectiveness of Internal Control

The systems of internal control are the responsibility of the management and are designed to provide effective assurance that assets are safeguarded and that liabilities and working capital are efficiently managed. In line with the requirements of the MFMA and the principles of the King III Report on Corporate Governance, the Internal Audit Function provides the audit and performance committee and the S management with assurance that the systems of internal controls are appropriate and effective. This is achieved by means of the risk management process, as well as the identification of corrective actions and suggested enhancements to the controls and processes. From the various reports of the Internal Auditors, and the Report and Management Letter of the Auditor-General on the Annual Financial Statements.

Audit of Performance Information

The audit committee has reviewed the performance information on a quarterly basis and was satisfied with performance of the HOD's. It is evident that the management has given this a special attention on a quarterly basis.

Effective Governance

The Audit Committee is responsible for ensuring that the Municipality's internal audit function is independent and has the necessary resources, standing and authority within the Municipality to enable it to discharge its duties. The Internal Audit Unit has audited all sections as per the audit plan. This has an unacceptable impact on the risk environment of the municipality and Council should take appropriate action as a matter of urgency.

The Audit Committee oversees cooperation between the internal and external auditors, and serves as a link between the Council and these functions. The internal and external auditors have unlimited direct access to the Audit Committee, primarily through its chairperson.

The Mayor of the Municipality, the Chairperson of the Municipal Public Accounts Committee, and representatives from COGTA, National & Provincial Treasury & the office of the Auditor General were invited to the Audit Committee meetings.

Compliance with Legislation and Ethics

Areas of non compliance have been brought to the attention of management. A compliance checklist has been developed to address the shortcomings.

An Ethics policy has been developed. However, the Audit Committee expressed concern at the lack of an implementation and communication/awareness plan.

Annual Report 2013/2014

The Audit Committee has reviewed the annual report which was subject to changes being enacted before submitted to Council.
Final Auditor-General Report

The audit committee has concurred with the final Audit Report from Auditor-General that our municipality has achieved cleaned audit during 2013/2014 financial. The audit committee will ensure that the clean audit is maintained for 2014/2015 financial year.

Recommendations

1. Council should ensure that clear, relevant and time bound commitments are recorded on the Auditor-General's quarterly dash board report and should thereafter monitor the progress on a monthly basis. This will improve compliance with key internal controls and contribute to clean administration. In this regard it is imperative that the accounting officer provide the required resources such as staff and space to establish an efficient and effective registry to ensure proper document management.
2. The accounting officer should monitor progress made with management's action plan to address the Auditor-General's audit findings on a monthly basis. Council should monitor progress quarterly in conjunction with the dash board report.
3. The accounting officer should set clear timelines and procedures for organizational as well as individual performance evaluations. Council should monitor compliance with these timelines and procedures and should take the necessary action against senior employees who do not respond appropriately and on a timely basis.

4. Council should ensure that adequate financial and staffing resources are made available on an urgent basis for the Internal Audit function to be efficient and effective. This will contribute to the Internal Audit Unit submitting reports on a timely basis to the Audit Committee to fulfil its mandate.
5. Council should ensure that it has sufficient and appropriate manpower resources and processes to be able to fully utilize grants within the prescribed time frames. .
6. The accounting officer should attend to the internal audit report on tenders and contracts as a matter of urgency and report back to the Audit Committee at its next meeting. We would also recommend that this matter be referred to MPAC for investigation.
7. Council should ensure awareness of the policies on Ethics, Whistleblowing and Fraud and Corruption by means of workshops with the relevant stakeholders and roll out to staff.
8. Council should ensure that the Risk Management Committee is functioning effectively to facilitate the execution of the risk management processes as a key enabler to achieving the business objectives and programme goals of the Municipality. In this regard a Risk Officer should be appointed as a matter of urgency to assist the Audit Committee in fulfilling its oversight role on risk management.

Conclusion

The Audit Committee confirms its commitment to assist Council to make significant progress towards clean administration. The Audit Committee also wishes to thank Council and management for its support and the teams from internal and external audit for their contributions.

On behalf of the Audit and Performance Committee

GLOSSARY

Accessibility indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability documents	Documents used by executive authorities to give "full and regular" reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe "what we do".
Adequacy Indicators	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.

Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.
Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.

Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	<ul style="list-style-type: none"> • Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1 ACCOUNTING POLICIES

1.1 BASIS OF ACCOUNTING

1.1.1 BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board in accordance with Section 120(3) of the Municipal Finance Management Act (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP Standards have been developed in accordance with paragraphs 7, 11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (SA GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

A summary of the significant accounting policies, which have been consistently applied except where a transitional provision has been granted are disclosed below.

1.1.2 SIGNIFICANT JUDGEMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

1.1.2.1 PROVISIONS

Management determine an estimate for provisions raised based on the information available.

1.1.2.2 USEFUL LIVES OF PROPERTY, PLANT AND EQUIPMENT

As described in accounting policy 1.3 and 1.4 the municipality capitalises and amortises its property, plant and equipment and intangible assets over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the asset become available for use. The useful lives and residual values of the assets are based on industry knowledge and reviewed annually.

1.1.2.3 DEFINED BENEFIT PLAN LIABILITIES

As described in accounting policy 1.8, the municipality obtains actuarial valuations of its defined benefit plan liabilities. The defined benefit obligation of the municipality that were identified are pension and health benefit obligations. The estimated liabilities are recorded in accordance with the requirements of IAS 19. Details of the liabilities and the key assumptions made by the actuary in estimating the liabilities are provided in note 5 of the financial statements.

1.1.2.4 REVENUE RECOGNITION

Accounting policy 1.10 on Revenue from Exchange Transactions and the accounting policy 1.11 on Revenue from Non-Exchange Transactions describes the conditions under which revenue is recorded by the management of the municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as set out in GRAP 9, Revenue from Exchange Transactions and GRAP 23 Revenue from Non-Exchange Transactions and in particular, when services are rendered, whether the services has been rendered. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

1.1.2.5 FINANCIAL ASSETS AND LIABILITIES

The classification of financial assets and liabilities, into categories, is based on management's educated judgement.

1.1.2.6 IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT

The impairment of property, plant and equipment is based on the input provided by the municipality's technical advisors including those in management. This input includes the condition assessment of the assets after physical verification.

1.1.2.7 EFFECTIVE INTEREST RATE

The municipality used the most relevant contractual risk rate applicable to each category of assets and liabilities to discount future cashflows. Where none exists the prime rate is used to discount future cash flows.

1.1.2.8 IMPAIRMENT ALLOWANCE

Management currently determines an impairment allowance for accounts receivables based on collection trends. This basis is subject to review after the receivable database has been updated.

1.2 PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.3 GOING CONCERN ASSUMPTION

ZULULANE DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

for the year ending 30 June 2014

These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.4 COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

The following standards, amendments to standards and interpretations have been issued but are not yet effective and have not been early adopted by the municipality:

The presentation and classification of items in the current year is consistent with prior periods.

1.5 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following Standards of GRAP have been issued by the Accounting Standards Board but have not been given an effective date by the Minister of Finance. The entity has not early-adopted any of these new Standards or amendments thereto, but has referred to them for guidance in the development of accounting policies in accordance with GRAP 3 as read with Directive 5.

Standard number	Standard name	Effective date (if applicable)
GRAP 18	Segment Reporting	No effective date
GRAP 20	Related Party Disclosures	No effective date
GRAP 22	Service Concessions Arrangement Grants	No effective date
GRAP 105	Transfer of Functions Between Entities Under Common Control	No effective date
GRAP 106	Transfer of Functions Between Entities Not Under Common Control	No effective date
GRAP 107	Mergers	No effective date
GRAP 108	Statutory Receivables	No effective date

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

GRAP 18: SEGMENT REPORTING

Segments are identified by the way in which information is reported to management, both for purposes of assessing performance and making decisions about how future resources will be allocated to the various activities undertaken by the municipality. The major classifications of activities identified in budget documentation will usually reflect the segments for which a municipality reports information to management.

Segment information is either presented based on service or geographical segments. Service segments relate to a distinguishable component of a municipality that provides specific outputs or achieves particular operating objectives that are in line with the municipality's overall mission. Geographical segments relate to specific outputs generated, or particular objectives achieved, by a municipality within a particular region.

The adoption of this standard is not expected to impact on the results of the municipality, but may result in more disclosure than is currently provided in the financial statements.

GRAP 20: RELATED PARTY DISCLOSURES

The objective of this Standard of GRAP is to ensure that a municipality's financial statements contain the disclosures necessary to draw attention to the possibility that its financial position and results or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

It is unlikely that the standard will have a material impact on the municipality's financial statements.

For the year under review, the municipality has applied IPSAS 20.

GRAP 25: EMPLOYEE BENEFITS

The objective of this standard is to prescribe the accounting and disclosure for employee benefits. The major difference between this Standard of GRAP and IAS 19 is with regards to the treatment of actuarial gains and losses and past service costs. This Standard of GRAP requires a municipality to recognise all actuarial gains and losses and past service costs immediately in the statement of financial performance once incurred.

The effective date of the standard is for years beginning on or after 01 April 2013. The municipality expects to adopt the standard for the first time in the 2014 financial statements.

It is unlikely that the standard will have a material impact on the municipality's financial statements.

GRAP 31: INTANGIBLE ASSETS

This Standard of GRAP replaces the previous Standard of GRAP on Intangible Assets (GRAP 102) due to the IPSASB that has issued an IPSAS on Intangible Assets (IPSAS 31).

The effective date of the standard is for years beginning on or after 01 April 2013.

There is no impact of the standard on adoption.

GRAP 105: TRANSFERS OF FUNCTIONS BETWEEN ENTITIES UNDER COMMON CONTROL

The objective of this Standard of GRAP is to establish accounting principles for the acquirer and transferee in a transfer of functions between municipalities under common control.

The municipality expects to adopt the standard for the first time once it becomes effective.

It is unlikely that the standard will have a material impact on the municipality's financial statements.

GRAP 106: TRANSFERS OF FUNCTIONS BETWEEN ENTITIES NOT UNDER COMMON CONTROL

The objective of this Standard of GRAP is to establish accounting principles for the acquirer and transferee in a transfer of functions between municipalities not under common control.

The municipality expects to adopt the standard once it becomes effective.

The impact of this amendment is currently being assessed.

GRAP 107: MERGERS

The objective of this Standard of GRAP is to establish accounting principles for the combined municipality and combining municipalities in a merger.

The municipality expects to adopt the standard once it becomes effective.

The impact of this standard is currently being assessed.

Impact on the municipality's financial statements once implemented.

ZULLAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.6 PROPERTY, PLANT AND EQUIPMENT

1.6.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. The major components are depreciated separately over their useful lives.

When an asset is acquired by the municipality for no consideration (ie a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

When an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost), if the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if its major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

1.6.2 SUBSEQUENT MEASUREMENT - COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

When the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

1.6.3 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. Depreciation on new acquisitions is charged to the statement of financial performance in the financial year in which the asset is available for use after taking into account the asset's residual value where applicable.

The annual depreciation rates are based on the following estimated average asset lives:

Infrastructure	
Water	15-70 years
Sewerage	15-70 years
Community	
Buildings	30 years
Recreational Facilities	20-30 years
Finance lease assets	
Office equipment	5 years
Other	
Buildings	30 years
Specialist vehicles	7 years
Other vehicles	7 years
Office equipment	3-7 years
Furniture and fittings	7 years
Emergency equipment	10 years
Computer equipment	5 years

The residual value, the useful life of an asset and the depreciation method is reviewed annually and adjusted where necessary. Any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

Land is not depreciated as it is deemed to have an indefinite life.

1.6.4 DERECOGNITION

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

1.7 HERITAGE ASSETS

1.7.1 INITIAL RECOGNITION

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held and preserved indefinitely for the benefit of present and future generations. A heritage asset is recognized as an asset if, and only if, it is probable that future economic benefits or service potential associated with the asset will flow to the entity, and the cost or fair value of the asset can be measured reliably.

1.7.2 MEASUREMENT AT RECOGNITION

Heritage asset is initially measured at cost at the date of acquisition or in the case where a heritage asset is acquired through a non-exchange transaction (i.e. donation or grant) at deemed cost, being the fair value of the asset at acquisition cost.

The cost of a heritage asset is a purchase price and other costs directly attributable to bring the heritage asset to the location and condition necessary for it to be capable of operating in the manner intended by management of the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes attributable costs of dismantling and removing the asset and restoring the site on which the asset is located.

When there is no evidence to determine the market value of an item of heritage asset in an active market, a valuation technique is used to determine the fair value.

1.7.3 SUBSEQUENT MEASUREMENT

The municipality uses either cost model or revaluation model to value each class of heritage asset. Subsequent expenditure relating to heritage assets is capitalised if that expenditure meets all the requirements of heritage asset and can be measured reliably. Subsequent expenditure is only capitalised when that expenditure increases the level of benefit from present and future generation.

If the municipality re-values heritage asset, the entire class of heritage assets to which that asset belongs is re-valued. The surplus or deficit realised during revaluation is either credited or debited against the revaluation surplus account.

Heritage assets are not depreciated, however the municipality assesses impairment to all heritage assets at each reporting date.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.7.4 DE-RECOGNITION OF HERITAGE ASSETS

The carrying amount of an item of heritage asset is de-recognised on disposal or when no future economic benefit or service potential or for the benefit of present and future generations.

The gains or losses derived from de-recognition is recognised in the surplus or deficit when the heritage asset is de-recognised.

Gains and losses are determined as the difference between the carrying amount (cost less accumulated impairment losses) and the disposal proceeds and included in the statement of financial performance.

1.7.5 TRANSITIONAL PROVISIONS

The municipality utilizes the transitional provisions under Chapter 4, which allows three (3) years for the measurement of heritage assets.

1.8 INTANGIBLE ASSETS

1.8.1 INITIAL RECOGNITION

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licenses, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential.

Intangible assets are initially recognised at cost.

When an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset at the date acquired.

When an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

1.8.2 SUBSEQUENT MEASUREMENT - COST MODEL

Intangible assets are subsequently carried at cost less accumulated amortisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

1.8.3 AMORTISATION AND IMPAIRMENT

Amortisation is charged so as to write off the cost or variation of intangible assets over their estimated useful lives using the straight line method.

The annual amortisation rates are based on the following estimated average asset lives:

Computer software 5-7 years

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.8.4 DERECOGNITION

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.9 INVENTORIES

1.9.1 INITIAL RECOGNITION

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

1.9.2 SUBSEQUENT MEASUREMENT

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arise. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

In general, the basis of allocating cost to inventory items is the first-in, first-out method (FIFO).

1.10 NON-CURRENT ASSETS HELD FOR SALE

1.10.1 INITIAL RECOGNITION

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

1.10.2 MEASUREMENT

Non-current assets held for sale (or disposal group) are measured at the lower of carrying amount and fair value less costs to sell. A non-current asset is not depreciated (or amortised) while it is classified as held for sale or while it is part of a disposal group classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in surplus or deficit.

1.10.3 DERECOGNITION

Non-current assets and disposal groups held for sale are derecognised upon disposal of the item or where no further economic benefits or service potential is expected to flow from the asset or disposal group. Gains/loss that result from the derecognition of non-current assets or disposal groups held for sale are recognised in surplus/deficit in the period of the derecognition.

1.11 INVESTMENT PROPERTY

1.11.1 INITIAL RECOGNITION AND MEASUREMENT

Investment property includes property held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services or the sale of an asset in the ordinary course of operations. Investment Property is initially recognised when future economic benefits or service potential are probable and the cost or fair value can be determined reliably. At initial recognition, the entity measures investment property at cost including transaction costs once it meets the definition of investment property. Where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property (property, plant and equipment), the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the entity accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use. The cost of day to day servicing of investment property is recognised in the Statement of Financial Performance as incurred.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.11.2 SUBSEQUENT MEASUREMENT - COST MODEL

Investment property is measured using the cost model. Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on cost using the straight-line method over the useful life of the property, which is estimated at 20 - 30 years. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately.

The gain or loss arising on the disposal of an investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.11.3 IMPAIRMENTS

The entity tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an investment property is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

1.11.4 DERECOGNITION

An Investment Property is derecognised when there is a disposal or no future economic benefits or service potential are to be derived from the property. All gains or losses, which result from the derecognition, are recognised in the Statement of Financial Performance.

1.12 BIOLOGICAL ASSETS

1.12.1 RECOGNITION

Biological assets that are not managed as part of an agricultural activity are accounted for as property, plant and equipment where they are expected to be used for longer than 12 months (refer to accounting policy for property, plant and equipment).

Biological assets that are managed as part of an agricultural activity, and agricultural produce are recognised when:

- a. The entity controls the asset; and
- b. Future economic benefits or service potential from the asset is probable; and
- c. The fair value or cost of the asset can be determined.

1.12.2 MEASUREMENT

Biological assets are measured at fair value less estimated point-of-sale costs at initial recognition as well for subsequent reporting periods. Agricultural produce (as harvested from biological assets) are recognised at the point of harvest. Accordingly, agricultural produce is measured at fair value less point-of-sale costs at the point of harvest. When the agricultural produce is transferred to inventory (for the purpose of consumption or resale), the fair value less point-of-sale costs, becomes the cost of the agricultural produce inventory.

Where there is no active market for biological assets and it is not possible to determine the fair value of the biological assets reliably through the use of other valuation techniques, the biological assets are measured at cost less accumulated depreciation and accumulated impairment losses. Should the fair value of the biological asset become available or reliably determinable in subsequent periods, the biological asset will be measured at its fair value less point-of-sale costs.

When measuring the biological asset at fair value less point-of-sale costs at initial recognition a gain arises on that asset. This gain is recognised in surplus or deficit for the period during which the biological asset was initially recognised. Any subsequent changes to the fair value less point-of-sale costs (which arise as a result of re-measurements at subsequent reporting dates) are also recognised in the surplus or deficit for the period.

The gain or loss that arises on the initial recognition of agricultural produce at fair value less point-of-sale costs is also recognised in surplus or deficit in the period that it arises.

1.12.3 DERECOGNITION

Agricultural produce is derecognised at the point of reclassification to inventory. As the fair value less point-of-sale costs becomes the cost of the inventory, no gain or loss is derecognised at the point of reclassification.

Biological assets are derecognised when the entity disposes thereof or when it is no longer probable that future economic benefits or service potential will be generated from the biological asset. Any gain or loss that arises at the point of derecognition is recognised in surplus or deficit at the point of derecognition.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.13 FINANCIAL INSTRUMENTS

1.13.1 INITIAL RECOGNITION

The municipality has various types of financial instruments and these can be broadly categorised as either financial assets, financial liabilities or residual interests in accordance with the substance of the contractual agreement. The municipality only recognises a financial instrument when it becomes a party to the contractual provisions of the instrument. Financial instruments are initially recognised at fair value.

The Entity does not offset a financial asset and a financial liability unless a legally enforceable right to set off the recognised amounts currently exist, and the entity intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Financial instruments are evaluated, based on their terms, to determine if those instruments contain both liability and residual interest components (i.e. to assess if the instruments are compound financial instruments). To the extent that an instrument is in fact a compound instrument, the components are classified separately as financial liabilities and residual interests as the case may be.

The municipality has the following types of financial assets as reflected on the face of the Statement of Financial Position or in its notes therein:

Type of Financial Asset	Classification in terms of GRAP 104
Short-term Investment Deposits – Call	Financial asset at amortised cost
Bank Balances and Cash	Financial asset at amortised cost
Long-term Receivables	Financial asset at amortised cost
Consumer Debtors	Financial asset at amortised cost
Other Debtors	Financial asset at amortised cost

1.13.2 MEASUREMENT

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to-maturity, loans and receivables, or available for sale. Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on its categorisation and, in the absence of an approved GRAP 104 Standard on Financial Instruments, is in accordance with IAS 39.

Subsequent to initial recognition, financial assets and financial liabilities are measured at fair value, amortised cost or cost.

1.13.3 IMPAIRMENTS

All financial assets measured at amortised cost, or cost, are subject to an impairment review. The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

The entity does not offset financial assets and financial liabilities in the Statement of Financial Position unless a legal right of set-off exists and the parties intend to settle on a net basis.

1.13.4 RECOGNITION

A financial asset is derecognised at trade date, when:

The cash flows from the asset expire, are settled or waived;

a) Significant risks and rewards are transferred to another party; or

b) Despite having retained significant risks and rewards, the entity has transferred control of the asset to another entity.

A financial liability is derecognised when the obligation is extinguished. Exchanges of debt instruments between a borrower and a lender are treated as the extinguishment of an existing liability and the recognition of a new financial liability. Where the terms of an existing financial liability are modified, this also treated as the extinguishment of an existing liability and the recognition of a new liability.

1.8 INVESTMENTS

Investments, which include short-term deposits invested in registered commercial banks, are categorised as either held-to-maturity where the criteria for that categorisation are met, or as loans and receivables, and are measured at amortised cost. Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period for the impairment is identified. Impairments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows flowing from the instrument. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.10 TRADE AND OTHER RECEIVABLES

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 100 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

1.11 TRADE PAYABLES AND BORROWINGS

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest.

1.12 CASH AND CASH EQUIVALENTS

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with regulated banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilized. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

1.13 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and when recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.14 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2004), the Public Office Boards Act (Act No. 20 of 1995) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and when recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.15 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.16 LEASES

1.16.1 MUNICIPALITY AS LESSEE

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment, or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to recognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease.

1.16.2 MUNICIPALITY AS A LESSOR

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

1.17 PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the remediation of land).

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

1.18 REVENUE

1.18.1 REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrues to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Service charges relating to sewerage and sanitation are based on the number of sewerage connections on each developed property using the tariffs approved by the council on an annual monthly basis.

Service charges relating to water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly by the system if the reading was not obtained. The provisional estimates of consumption are recognised as revenue when invoiced. The system automatically reverse the provisional readings when the reading has been captured on the system.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of fixtures and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods is passed to the consumer.

Revenue for agency services is recognised on a monthly basis once the revenue collected on behalf of agents has been quantified and once the terms of the agency agreement have been complied with.

ZULULAND DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
for the year ending 30 June 2014

1.15.2 REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Fines constitute both spot fines in the form of meter tampering fines. Fines are recognised when payment is received.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the municipality. Where public contributions have been received but the municipality has not met the related conditions, a deferred income liability is recognised.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment, qualifies for recognition and become available for use by the municipality.

Revenue from the recovery of unauthorised, regular, fuel fees and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 68 of 2003) and is recognised when the recovery thereof from the responsible councilors or officials is virtually certain.

1.18.3 GRANTS, TRANSFERS AND DONATIONS

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset or expense is recognised.

1.19 BORROWING COSTS

Borrowing cost are recognised as an expense in Statement of Financial Performance in the period they become due and payable.

1.20 EMPLOYEE BENEFITS

Short-term Employee Benefits

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accrualizing bonuses, which are only recognised when the specific event occurs.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as a creditor in the Statement of Financial Position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

Defined Contribution Plans

A defined contribution plan is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid.

Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Pension obligations

The Municipality's personnel are members of either the Government Employees Pension Fund (GEPF) or one of the Natal Joint Municipal Pension (NJMPF) retirement funds, namely the Superannuation, Retirement and Provident Funds. Except for the NJMPF Provident fund, the aforementioned funds are defined benefit funds. As these defined benefit funds are multi-employer funds, the allocation of any surplus/deficit to individual municipalities cannot be determined. Furthermore disclosure of further details such as actuarial assumptions, cannot be attributed to any specific employer and is of no relevance to users of the municipality's financial statements. As the required disclosure information cannot be obtained the funds are all treated as defined contribution funds.

ZULULANG DISTRICT MUNICIPALITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
For the year ending 30 June 2014

Municipal Councilors

Councilors belong to the Councilors Pension Fund which is a defined contribution fund and employers have no legal or constructive obligation for any shortfall in valuation of the Fund.

Other post-employment benefit obligations

The municipality does not provide post-retirement health care benefits to any of its employees and therefore has no liability for such benefits. Except for one staff member who was transferred from another local municipality.

1.21 VAT

VAT is accounted for on the payment basis i.e. VAT is paid over to SARS only once payment is received from debtors and/or when actual payment is made to creditors.

1.22 BUDGET INFORMATION

The annual budget figures have been prepared in accordance with the GRAP 24. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts.

Explanatory comments on material differences are provided in a separate budget statement in the annual financial statements giving firstly reasons for overall growth or decline in the budget and secondly indicators for over- or under-spending on line items. The changes between the approved and final budget are a consequence of reallocations within the approved budget by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan.

The budget is approved on an annual basis by nature classification. The approved budget covers the reporting period from 1 July 2013 to 30 June 2014.

1.23 CAPITAL COMMITMENTS

Capital commitments are future expenditure to which the municipality is committed and that will result in the outflow of resources. Commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance, but are included in the disclosure Notes.

Commitments are disclosed for:

Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at its reporting date.

Approved but not yet contracted commitments, where the expenditure has been approved and the contract has yet to be awarded or is awaiting finalisation at the reporting date. Items are classified as commitments where the municipality commits itself to future transactions that will inevitably result in the outflow of resources.

Commitments are disclosed excluding VAT.

TABLE 6.1 - Financial Summary
 Notes to the Financial Statements
 for the year ended 30 June 2014

	2014	2013
	R	A
25.6	Accumulated depreciation of PPE, net of impairment	
	6 546 228	5 408 726

Impairment losses are calculated as the difference between the carrying amount and the recoverable amount. The recoverable amount is the maximum of the fair value less costs of disposal and the value in use. The value in use is the present value of the estimated future cash flows expected to be received from the asset or cash-generating unit.

	2014	2013
25.7	Impairment losses	
Reversal of impairment losses		
During the year	12 822 248	16 877 583
Impairment losses in earlier financial years	80 756	1 443 241
Reversal of impairment losses	-	11 352 270
Impairment losses recognized in earlier financial years	(17 662 861)	-
Impairment losses in earlier financial years	29 750	28 673 094
Impairment losses in earlier financial years (2013)	-	(2 477 811)
Reversal of impairment losses in earlier financial years	-	(11 352 270)
Reversal of impairment losses in earlier financial years	80 756	12 873 013

Impairment losses are calculated as the difference between the carrying amount and the recoverable amount. The recoverable amount is the maximum of the fair value less costs of disposal and the value in use. The value in use is the present value of the estimated future cash flows expected to be received from the asset or cash-generating unit. The value in use is calculated using the cash flow projections developed by management and discounted at the weighted average cost of capital. The cash flow projections are based on the approved budget and other relevant information available to management at the reporting date.

	2014	2013
25.8	Deferred tax liabilities
