

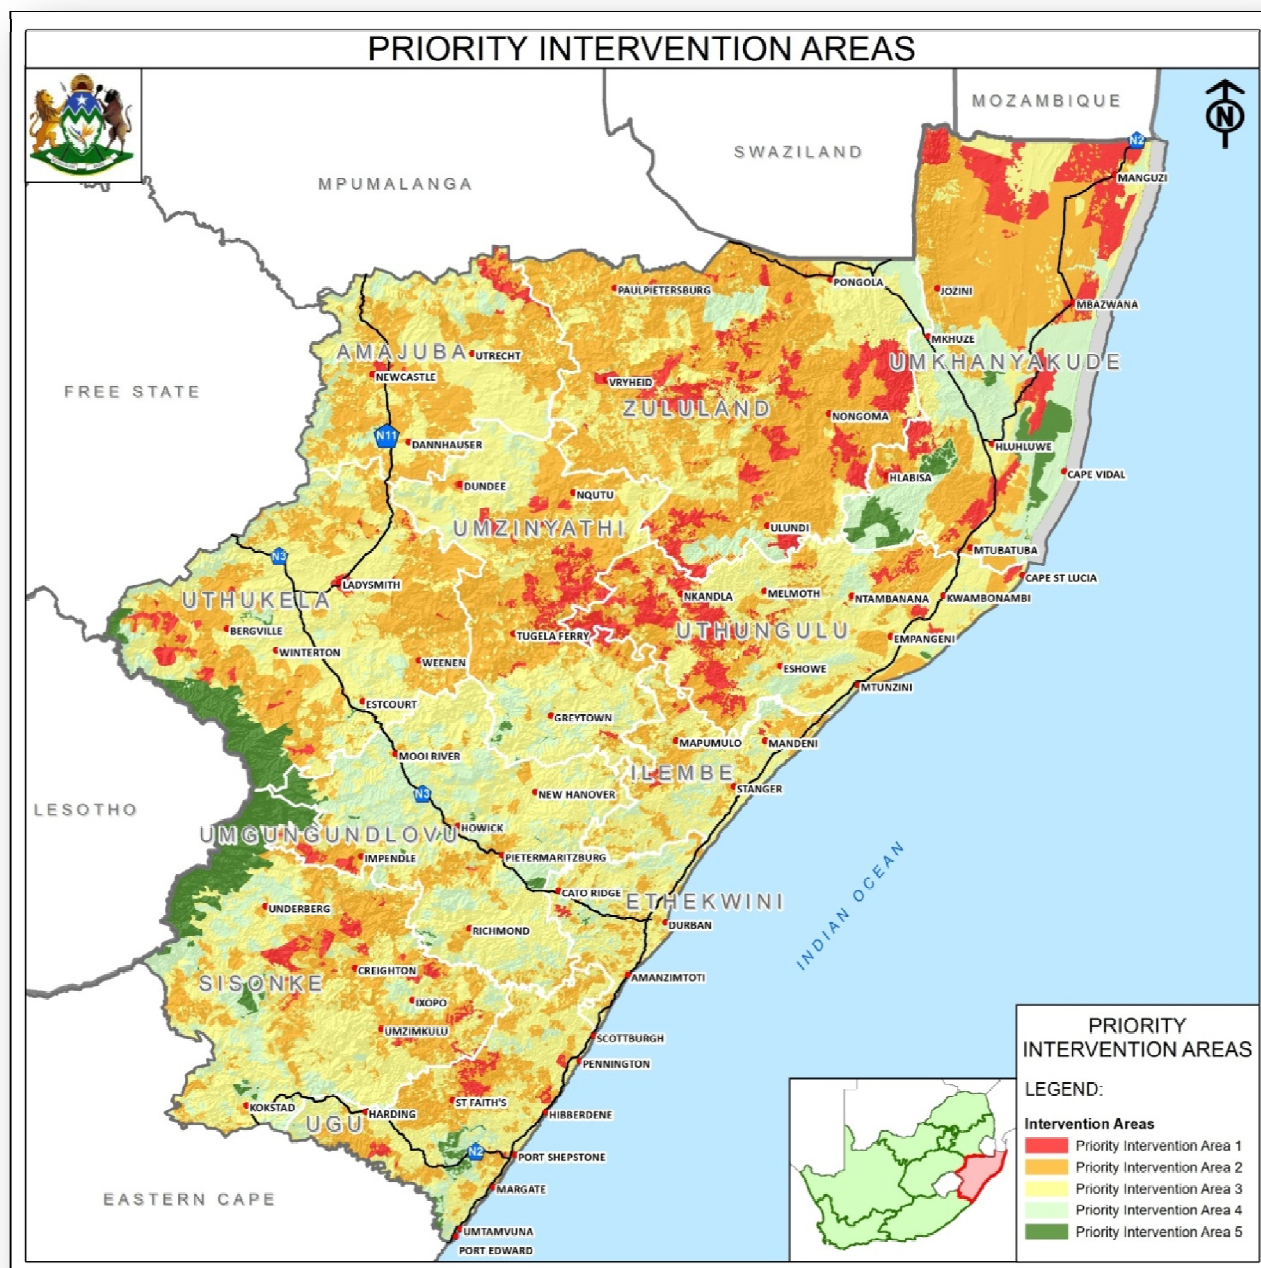

Map 4: KZN Priority Intervention Areas

Although the classification criteria used defines core areas, especially within the interior of the province, it should be noted that it is not the intention of the PGDS or the provincial spatial framework that only these core areas benefit from strategic interventions. Rather as a minimum, the Level 1 and Level 2 areas are identified as areas where urgent short term concentration and co-ordination of public interventions are required, with other intervention areas systematically being attended to. The type and extent the interventions which would be targeted at these areas, would be formulated jointly with the various district municipalities against the framework of the PGDS, its goals, objectives and envisaged interventions.

It should be noted that virtually the whole of the ZDM area is considered to be "Priority Intervention Area 1 & 2".
