SECTION E.1: STRATEGIC MAPPING

Map 43: ZDM Poverty Index

Large areas of the Zululand District Municipality are very deprived in terms of income levels, services, education and social needs. These areas are depicted on the map above.

Map 44: Environmental Informants

Map 45: Social Informants

Map 47: Population Density in Relation to Poverty

It is important to focus efforts on those areas within the Municipal Area where there are relatively denser settlement (in this instance those areas where there are 100 more than persons per km²) and also where the greatest needs are in terms of the poverty index.

Map 48: Agricultural Potential

Map 49: Areas of Greatest Poverty in relation to Areas of Greatest Agricultural Potential

It is also important to focus agricultural development efforts in where those areas there is good agricultural potential in relation to areas where poverty is the greatest. Some such evident areas are within the ZDM Area, albeit at small scale.

Map 50: Areas of Highest Population in relation to Areas of Environmental Resources

Figure 35: Composition of SDF based on Informant Maps

Fortunately within the Zululand District Municipal Area, areas of highest population density fall generally outside of environmental sensitive areas. Care also needs to be taken that where denser settled areas are in close proximity to such sensitive environmental areas.

Map 51: Final ZDM SDF
