PERFORMANCE MANAGEMENT SYSTEM DEFINITIONS

No	Term	Definition
1.	Annual Report	In relation to the Municipality means an annual report contemplated in section 121 of the Municipal Finance Management Act.
2.	BaseLine	The initial level of performance at which an organization, process, or function is operating upon which future performance will be measured.
3.	Current year	The financial year which has already commenced, but not yet ended.
4.	Evaluation	Evaluation is a time-bound and periodic exercise that seeks to provide credible and useful information to answer specific questions to guide decision-making by staff/managers and policy-makers. Evaluation may assess relevance, effectiveness, efficiency, impact and sustainability of the institution and officials.
5.	Key performance areas (KPA's)	KPA's are the areas in which the Municipality must excel in order to accomplish the vision and mission.
6.	KPI (key performance indicator)	A KPI is an indicator but is explicitly linked to a strategic objective which enables the organization to translate its strategy execution into quantifiable terms.
7.	Input Indicator:	Measures financial and human resources used to produce outputs and outcomes
8.	Impact Indicator	Measure the direct or indirect effects or consequences resulting from achieving program goals. An example of an impact is the comparison of actual program outcomes with estimates of the outcomes that would have occurred in the absence of the program.
9.	Lagging Indicator	Measures performance after the fact. Injury and illness measures such the Lost Workday Case Rate and the Total Recordable Case Rate are examples of lagging measures commonly used to measure environment, safety and health performance. Project cost performance is an example of a lagging indicator used to measure program performance.
10.	Leading Indicator	Indicator used for monitoring and predicting future performance and includes measures such as near misses, procedural violations, or estimated cost based on highly correlated factors
11.	Local Community or Community	In relation to a Municipality, means that body or persons comprising – <ol style="list-style-type: none"> 1. The residents of the Municipality 2. The ratepayers of the Municipality Any civic organisations and non-governmental, private sector or labour organisations or bodies which are involved in local affairs within the Municipality.
12.	MEC for Local Government	Means the MEC responsible for Local Government in a Province.
13.	Metric	A standard or unit of measure
14.	Measurement	The quantitative parameter used to ascertain the degree of performance
15.	Objective	A statement of the desired result to be achieved within a specified amount of time.
16.	Outcome Indicator	The expected, desired, or actual result to which outputs of activities of an agency have an intended effect. For example, the outcome of safety training might be improved safety performance as reflected in a reduced number of injuries and illnesses in the workforce.
17.	Output Indicator	A product or service produced by a program or process and delivered to customers (whether internal or external, e.g. of a training output would the number of people trained. Process Indicator: Used to understand the intermediate steps in producing a product or service. In the area of training for example, a process measure could be the number of training courses completed as scheduled.
18.	Performance-	A systematic approach to performance improvement through an ongoing process of

	Based Management	establishing strategic performance objectives; measuring performance; collecting, analyzing, reviewing, and reporting performance data ; and using that data to drive performance improvement.
19.	Performance Indicator	<ol style="list-style-type: none"> 1. A particular value or characteristic used to measure output or outcome. 2. A parameter useful for determining the degree to which an organization has achieved its goals. 3. A quantifiable parameter used to observe and track the status of a process.
20.	Performance targets	Whereas KPIs express what needs to be measured, say, number of houses built, the performance target quantifies the KPI by expressing how many houses must be built, to what standard they must be built and by when they must be completed. Performance targets therefore equal outputs.
21.	Performance Audit Committee	An independent committee appointed to assess the annual performance of the Municipality and report findings.
22.	Performance Agreement	Means an agreement as contemplated in Section 57 of the Municipal Systems Act.
23.	Performance Plan	Means a part of the Performance agreement which details with the Measurable objectives (Outputs), Performance Measures (KPI's), targets and activities that are aligned to the Scorecards.
24.	Political Office bearer	Means the Speaker, Executive Mayor, Mayor, Deputy Mayor or Member of the Executive Committee as referred to in the Municipal Structures Act.
25.	Quarters	Means any of the following periods in a financial year: <ol style="list-style-type: none"> (1) 1 July to 30 September; (2) 1 October to 31 December; (3) 1 January to 31 March; or (4) 1 April to 30 June.
26.	Scorecard	<p>Is a planning and evaluation device that specifies the criteria that stakeholders will use to rate performance in satisfying their requirements.</p> <p>Municipal Scorecard: Five (5) Year Scorecard.</p> <p>Organisation Scorecard: Annual (Year under review) Scorecard with quarterly Targets.</p> <p>Departmental Scorecard: Annual (Year under review) Scorecard with Quarterly Targets for Municipal Manager and Managers reporting to the Municipal Manager's, Departments/Votes.</p>
27.	Section 54/56 Employee	A person employed by a Municipality as a Municipal Manager or as a Manager directly accountable to a Municipal Manager and for which there is a Performance Agreement.
28.	Service Delivery and Budget Implementation	<p>Means a detailed plan approved by the Mayor of a Municipality in terms of section 53(1) (c) (ii) of the Municipal Finance Management Act for implementing the Municipality's delivery of municipal services and its annual budget, and which must indicate:</p>

	Plan	a) Projection for each month of – <ol style="list-style-type: none"> 1) Revenue to be collected, by source; and 2) Operational and capital expenditure, by vote; b) Service delivery targets and performance indicators for each quarter; and; c) Any other matters that may be prescribed, and includes any revisions of such plan by the Mayor in terms of section 54(1)(c) of the Municipal Finance Management Act.
29.	Types of Indicators	There are generally 5 types of measures namely: Input, Output, Process, Outcome and Impact. The actual definitions of the indicators are included in the definition list. Indicators are also classified as leading and lagging and are used in monitoring.
30.	Validation	An evaluation performed to determine whether planned actions, if implemented, will address specific issue(s) or objective(s).
31.	Verification	1. A determination that an improvement action has been implemented as designed. 2. The act of reviewing, inspecting, testing, checking, auditing.

PERFORMANCE MANAGEMENT SYSTEM INTRODUCTION

INTRODUCTION

A Municipality's Performance Management System (PMS) is the primary mechanism to monitor, review, and improve the implementation of its IDP and to gauge the progress made in achieving the objectives set out in the Integrated Development Plan (IDP). In addition, a Municipality's PMS must also facilitate increased accountability, learning, improvement, provide early warning signals and facilitate decision-making.

The performance management system monitors actual performance against set targets and contractual obligations. Effective service delivery relies upon the IDP, efficient utilisation of all resources and the performance management system being closely integrated across all functions at an organisational and individual level.

This documents sets out:

- The legislative mandates that the PMS needs to comply with;
- The definition of a PMS, its objectives and the principles that will inform its use and continuous improvement;
- The process proposed for reviewing and implementing organizational performance management ; and
- The process proposed for reviewing and rolling out individual performance management

The organizational and individual performance management are linked. Once organizational objectives and targets have been set for the municipality, municipal departments and business units. In turn, the individuals, business units and departments, by achieving their objectives and targets, contribute towards the Municipality achieving the objectives of the IDP.

LEGISLATIVE MANDATES

The development and implementation of a performance management system at local government level is guided by various legislative provisions, prescripts and guidelines including:

The Constitution of the Republic of South Africa, Act 108 of 1996:

Section 152(1) of the Constitution prescribes that the objects of local government are:

- (a) To provide democratic and accountable government for local communities;
- (b) To ensure the provision of services to communities in a sustainable manner;
- (c) To promote social and economic development;
- (d) To promote a safe and healthy environment; and
- (e) To encourage the involvement of communities and community organizations in the matters of local government.

Section (152) (2) further states that:

"A municipality must strive, within its financial and administrative capacity, to achieve the objects set out in subsection (1)".

Municipal Systems Act (Act No 32 of 2000)

Chapter 6 of the Municipal Systems Act, and specifically Sections 38 to 49, deal with organisational performance management. These legislative mandates require of all municipalities to:

- Development of a performance management system;
- Monitoring and review of performance management system;
- Setting of key performance indicators and performance targets,
- Publish an annual report on performance for the benefit of the communities served by the Municipality;
- Incorporate and report on a set of general key performance indicators prescribed nationally by the Minister responsible for local government;
- Auditing of performance measurement both internally and externally;
- Annual reporting on performance.

Chapter 7 of the Municipal Systems Act deals with local public administration and human resources. In particular, section 57 of this Chapter requires that the Municipal Manager and those officials reporting directly to the Municipal Manager (i.e Section 57 employees) sign annual performance agreements. An individual performance plan must be attached to the performance agreement and it must include a set of performance measures that will enable actual performance of individuals to be assessed against planned performance.

Local Government: Municipal Planning and Performance Management Regulations, 2001

These Regulations were passed by the Minister responsible for local government in terms of Section 49 of the Municipal Systems Act. These Regulations spell out the performance management responsibilities of municipalities in more detail. They deal with:

- The nature of the PMS;
- The adoption of the PMS;
- The setting of key performance indicators;
- The general key performance indicators published by the Minister, which reflect the object of developmental local government;
- The review of key performance indicators;
- Setting of performance targets;
- Monitoring, measurement and review of performance;
- Internal auditing of performance measurements; and
- Community participation.

The regulations further instruct a municipality to ensure that its performance management system:

- Complies with the requirements of the Act;
- Demonstrates how the system will operate and be managed from the planning stage up to the stages of performance and reporting;
- Clarifies the roles and responsibilities of each role player, including the local community, in the functioning of the system;
- Determines the frequency of reporting and the lines of accountability for performance;
- Relates to the municipality's employee performance management processes;
- Provides for the procedure by which the system is linked to the municipality's Integrated Development Planning processes;
- A performance management system must be adopted before or at the same time as the commencement by the municipality of the process of setting key performance indicators and targets in accordance with its integrated development plan.

The implementation of the performance management framework should allow the municipality to collect, process, organize, analyse, audit, reflect and report on performance information. It should also allow the municipality to take practical steps to improve its performance.

Local Government: Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers, 2006:

These regulations prescribe how the performance of municipal managers and managers' directly accountable to municipal managers must be directed, monitored and improved. The regulations include the following:

- (i) Chapter 2: requirements and provisions of employment contracts;
- (ii) Chapter 3: performance agreements, including prescribed key performance areas (KPA's) and core competency requirements (CCR's);
- (iii) Chapter 4: the content of a job description for municipal managers.

The Municipal Finance Management Act 56 of 2003

The following provisions from the Municipal Finance Management Act (MFMA) relate largely to the PMS of the municipality:

- (i) Section 53(1)(c)(ii) of the Act requires that the municipality's Service Delivery and Budget Implementation Plan (SDBIP) is approved by the Mayor within 28 days after the approval of the budget;
- (ii) Section 53(1)(c)(iii) requires the Mayor to ensure that the performance agreements of Section 57 employees comply with the requirements of the MSA in that they promote sound financial management and that they are linked to measurable performance objectives approved with the budget and included in the SDBIP;
- (iii) Section 72 of the Act requires the accounting officer of the municipality to submit a mid-year budget and performance assessment by the 25 January each year. The assessment must include:
 - (a) The monthly budget statements, of the first 6 months of the financial year, as required in terms of Section 71 of the MFMA.
 - (b) The municipality's service delivery performance, for the first 6 months of the financial year, against targets and indicators as set out in the municipality's approved SDBIP.
 - (c) Progress on resolving problems identified in the past year's annual report;
 - (d) An assessment of the performance of every municipal entity taking into account reports in terms of Section 88 of the Act.
- (iv) Section 127(2) of the Act requires the Mayor to, within seven months after the end of the financial year, table in the municipal Council the annual report of the municipality and of any municipal entity under the municipality's sole or shared control;

- (v) Section 129 (1) requires the Council of a municipality to consider the annual report of the municipality and of any municipal entity under the municipality's sole or shared control, and by no later than two months from the date on which the annual report was tabled in the Council in terms of section 127, adopt an oversight report containing the council's comments on the annual report, which must include a statement whether the Council-
- (a) Has approved the annual report with or without reservations;*
 - (b) Has rejected the annual report; or*
 - (c) Has referred the annual report back for revision of those components that can be revised.*

DEFINITION AND OBJECTIVES OF PERFORMANCE MANAGEMENT (PMS)

DEFINITION OF PMS

Performance management is defined as: “a strategic approach to management, which equips leaders, managers, employees and stakeholders at different levels with a set of tools and techniques to regularly plan, continuously monitor, periodically measure and review performance of the organisation in terms of indicators and targets of efficiency, effectiveness and impact.”

1.1.1 OBJECTIVE OF PERFORMANCE MANAGEMENT

The objectives of performance management are, inter alia to:

Facilitate increased accountability

The PMS should provide a mechanism for ensuring increased accountability between:

- The citizens of the Local Municipality and the Municipal Council;
- The political and administrative components of the Municipality; and
- The Office of the Municipal Manager and each municipal department.

Facilitate learning and improvement

The PMS must also provide a platform for learning and improvement. It should enable the Municipality to assess which approaches and methods are having the desired impact and in this way enable the Municipality to make the necessary improvements that will lead to more effective service delivery. It should form the basis for monitoring implementation, evaluating and improving the IDP.

Provide early warning signals

The PMS should provide managers and supervisors at all levels, the Municipal Manager, Portfolio Committees and the Council with early warning of performance targets that are not going to be reached and thus adversely affecting the implementation of the IDP. It is important that the system informs decision makers of areas of delivery that are lagging behind so that they can intervene and take corrective action as required.

Facilitate decision making

The PMS should provide suitable management information that will allow for efficient, effective and informed decision making, particularly on the allocation of resources.

The objectives listed above are not exhaustive, but briefly summarize the intended benefits of the PMS that is to be reviewed and implemented. These intended objectives, together with other criteria, should be used to evaluate the PMS at the end of each financial year.

PRINCIPLES OF PERFORMANCE MANAGEMENT

The following principles are proposed to inform and guide the review and implementation of the Zululand District Municipality's PMS:

ZDM does not measure every metric or indicator that is produced by its functions and operations (see Table 1) because there would be a multitude of metrics making it impossible to focus on and manage.

It was also intentionally decided that the ZDM's performance management system:

1. Must not be a punitive measurement system i.e. it must not create a police-man like mentality. It assumes that the accountability structure of management and institutional arrangements are clearly understood and are operational.
2. Is not used to manage routine tasks and job descriptions.
3. The focus of the system is on improving performance and monitoring performance in key areas.
4. In designing the framework, it is critical that the system must not allow individuals to be side tracked by the system administration or on producing masses of data.
5. Must provide a structured approach to focusing on strategic performance objectives
6. Must provide an easy mechanism of linking budget, expenditure and service delivery.

Over and above these ZDM principles, following principles are also proposed to inform and guide the review and implementation of the Zululand District Municipality's PMS:

Simplicity

The system must be a simple user friendly system that enables the Municipality to operate it with its existing resources with the involvement of external stakeholders.

Politically driven

The legislation requires the PMS to promote a culture of performance management in the political structures. It further states that Council must manage the development of the PMS and assign responsibility in this regard to the Municipal Manager. Once developed, Council must adopt the PMS. This means that Council is the owner of the system and must therefore oversee the implementation and improvement of the system and in the process inculcate a culture of performance improvement as is required by the Municipal Systems Act.

Incremental implementation

One of the most important lessons learnt by municipalities that have developed and implemented successful PMSs is that it is an incremental process. They point out that the most important thing to do is to start measuring and reporting performance and not to carry on developing the "best" system – start with a basic system, implement it and then improve it incrementally. It is not possible to transform overnight from close to non-compliance to international best practice. In practice it is only possible to move gradually towards a high performance organisation.

Transparency and accountability

The process of managing performance should be inclusive, open and transparent. Citizens should know how departments within the municipality are run, how resources are spent, and who is in charge of particular services. Similarly all information on the performance of departments should be available for other managers, employees, the public and interest groups.

Integration

The PMS should be integrated into other management processes in the municipality, such that it becomes tool for more efficient and effective management rather than an additional reporting burden. It should be seen as a central tool for managing the affairs of the Municipality.

Objectivity

Performance management must be founded on objectivity and credibility. Both the process of managing performance and the information on which it relies need to be objective and credible.

Overview:

A municipality's PMS is the primary mechanism to monitor, review and improve the implementation of its IDP and to gauge the progress made in achieving the objectives set out in the IDP. In addition, a municipality's PMS must also facilitate increased accountability, learning, improvement, provide early warning signals and facilitate decision-making.

The PMS monitors actual performance against set targets and contractual obligations. Effective service delivery relies upon the IDP, efficient utilization of all resources and the PMS being closely integrated across all functions at an organizational and individual level.

The most valuable reason for measuring performance is that what gets measured gets done.

The IDP outlines how the challenges of sustainable development in a municipality are to be met through strategic interventions and service delivery over the five year period. The IDP is developed by the Municipality in conjunction with the community and a credible IDP must be supported by a realistic budget.

Once performance planning, the IDP, has been completed and departmental SDBIP's are in place, they need to be implemented by executing the work in accordance with these plans. As the work is executed, it needs to be continuously monitored and periodically measured and reported on. Reporting requires that the municipality takes the priorities of the organization, its performance objectives, indicators, targets, measurements and analysis, and present this information in a simple and accessible format, relevant and useful to the specific target group, whilst meeting the legal prescripts for reporting.

The PMS Cycle can be illustrated as follows:

- Draft Budget & IDP
- Approved Budget & IDP with 5 yr Municipal Scorecard & 1 yr organizational scorecard as Annexures.
- Service Delivery and Budget Implementation Plan/Departmental Scorecards.
- Annual Performance Agreements & Plans
- Portfolios of Evidence Files & Index

- SDBIP Reporting & POE.
- SDBIP Reporting
- Mid-Year Performance Assessment
- Annual Performance Report
- Assessments of the Municipal Manager and the other S54/56 Managers by Evaluation Panels

- Performance Audits: Internal Audit
- Performance Audits: Auditor General
- Customer Satisfaction Survey
- Quality of Life surveys

Planning is the first phase of an organizational performance management system (OPMS) and the key output is the development of the Integrated Development Plan (IDP). The municipality must develop an IDP which is utilized to plan future developments in the municipal area to meet the needs of the community.

The IDP assists the municipality as follows:

- It is a planning process that involves the entire municipality and its citizens in finding the best solutions to achieve long-term development.
- It assists in the coordination of the work of local government and other spheres of government to improve the quality of life for all people living in an area.
- It considers the existing conditions and problems and resources available for development.
- It considers the economic and social development needs for the area.
- It sets a framework for land use, infrastructure, services, and the protection of the environment.

The IDP has a lifespan of 5 years that is linked directly to the term of office for Councillors. The municipality is required to draft a 5 year IDP which is then broken down into short term goals that can be achieved in 1 year. Prior to the setting of the annual targets, the IDP is reviewed and the necessary changes are made. It should take 6 to 9 months to develop an IDP. During this period, service delivery and development continues.

Planning involves 4 main tasks:

(i) Pre-planning:

- Development and adoption of the IDP Process Plan;
- Data collection, analysis and storage;
- Identify, collect and review relevant inputs for the IDP and develop a prioritization model.

(ii) Public Participation:

- Schedule and host Public Participation Meetings;
- Update the draft IDP.

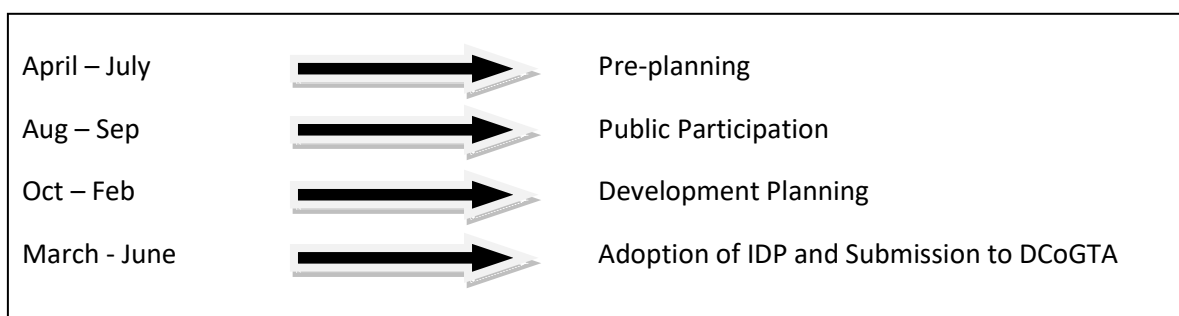

(iii) Development Planning:

- Coordinate and host organizational and departmental strategic planning workshops;
- Complete IDP.

(iv) Adoption of the IDP and submission to the Department of Cooperative Governance and Traditional Affairs (DCoGTA):

- Present IDP to Council for adoption;
- Submit adopted IDP and Council resolution to DCoGTA.

The municipality should start the planning process at least 15 months prior to the start of the financial year where implementation takes place in order to ensure that all stakeholders are involved in the planning processes for transparency and accountability. This is depicted in the following illustration:

In addition to the IDP Process Plan, the IDP office is responsible for the development of a procedure and implementation manual that will give effect to steps (i) – (iv) annually.

Implementation:

The actual implementation of the IDP over a single financial year is given effect through the Service Delivery and Budget Implementation Plan (SDBIP), scorecards, performance contracts of the Municipal Manager and other S57 Managers.

The SDBIP is the implementation tool used to align the budget to the IDP. The focus of the SDBIP is both financial and non-financial measurable performance objectives in the form of service delivery targets and other performance indicators.

The SDBIP is essentially the management and implementation tool which sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services and the inputs and financial resources to be used.

The key performance areas and indicators of performance contained in the organizational scorecard are cascaded into departmental scorecards, and further into individual scorecards which ensure the appropriate alignment between organizational and individual performance.

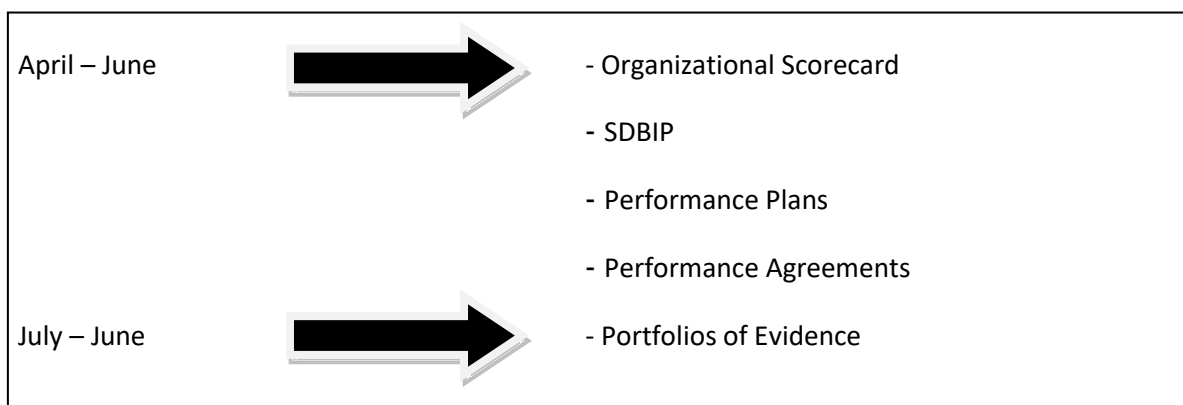

The performance measures that will be used to measure organizational performance need to be developed. In doing so, it is necessary to take into account the funding and staff requirements, availability of the necessary skills and time constraints.

Projects need not only consist of capital projects such as water schemes and housing developments. They can also consist of softer, internal issues such as, “Review the Workplace Skills Plan.” This indicates all work done in the municipality, whether it is services to communities or internal processes.

Implementation involves 4 main tasks:

- (i) Developing the organizational scorecard;
- (ii) Preparing the Service Delivery and Budget Implementation Plan;
- (iii) Preparation of the Annual Performance Plans, Performance Agreements and Personal Development Plans for the Municipal Manager and Section 57 Managers.
- (iv) Compilation of Portfolios of Evidence (PoE’s).

Steps (i) – (iii) must be completed prior to the start of the financial year where implementation takes place to ensure that data collection for PoE’s and reporting is accumulated throughout the period under review. This is depicted in the following illustration:

The Organizational Performance Management Unit must develop a procedure manual, including the relevant templates, for the implementation of steps (i) – (iv) above annually prior to the beginning of the financial year during which implementation is to take place. Annexure A to this policy is the Systems and Procedures including templates.

Monitoring:

Monitoring continuously tracks performance against what was planned by collecting and analyzing data on the indicators established for monitoring and evaluation purposes. It provides continuous information on whether progress is being made towards achieving results (outputs, outcomes, and goals) through record keeping and regular reporting systems. Monitoring looks at both programme processes and changes in conditions of target groups and institutions brought about by programme activities. It also identifies strengths and weaknesses in a programme. The performance information generated from monitoring enhances learning from experience and improves decision-making. Management and programme implementers typically conduct monitoring.

The monitoring framework must:

- Identify the roles of the different role players in monitoring and measuring the municipality's performance;
- Allocate specific tasks to the gathering of data and submission of reports;
- Determine the data that must be collected in order to assess performance, how that data is to be collected, stored, verified and analyzed and how reports on that data are to be compiled;
- Provide for reporting to Council at least quarterly;
- Be designed in a manner that enables the municipality to detect early indications of under-performance;
- Provide for corrective measures where under-performance has been identified; and
- Compare current performance with performance during the previous financial year and baseline indicators.

Whilst the budget sets yearly service delivery and budget targets (revenue and expenditure per vote), it is imperative that in-year mechanisms are able to measure performance and progress on a continuous basis. Hence, the end-of-year targets must be based on quarterly and monthly targets, and the Municipal Manager must ensure that the budget is built around quarterly and monthly information. Being a star-of-year planning and target tool, the SDBIP gives meaning to both in-year reporting and end-of-year annual reports.

Monitoring involves 3 main tasks:

- (i) Measuring Performance;
- (ii) Compilation of Quarterly Performance Reports at a Business Unit Level;
- (iii) Compilation of Consolidated Quarterly, Half-yearly and Annual Performance reports at an Organizational/Municipal Level.

The Organizational Performance Management Unit must develop a procedure manual, including the relevant templates, for the implementation of steps (i) – (iii) above annually prior to the beginning of the financial year during which implementation is to take place.

Review:

Municipality in meeting key performance indicators, performance targets and general key performance indicators. It also measures the economy, efficiency, effectiveness in the utilization of resources and impact in so far as performance indicators and targets set by the municipality are concerned. Performance improvement and adjustment is based on review. The municipality should ensure that the community participates in the review process.

FUNCTIONS THAT KPI'S MEASURE

The following table indicates the current functions that ZDM is legislated to deliver (as per the Municipal Structures Act). These functions are performed in addition to the operational functions that ZDM have to perform as a municipality (refer to Appendix 1 for ZDM's organogram).

Table 1: Legislated Functions that ZDM delivers as per Municipal Structures Act

No.	Functions as per Municipal Structures Act	Additional Details
1.	Integrated development planning for the district municipality as a whole including a framework for integrated development plans for the local municipalities within the area of the district	IDP alignment, Planning
2.	Bulk supply water	Provision and regulation
3.	Bulk supply of electricity	Not applicable Pending REDS
4.	Bulk sewage purification works and main sewage disposal	Provision
5.	Solid waste	policy, and regulation Note: local municipalities are responsible for cleansing, refuse removal, dumps and solid waste disposal.
6.	Municipal (district) roads	Not applicable
7.	Regulation of passenger transport services	planning of infrastructure Regulating (permits, control)
8.	Municipal airports	operation, management
9.	Municipal health services	Limited to Environmental health services Includes regulation of Air and noise pollution, storm water management, water and sanitation, refuse and solid waste disposal
10.	Fire fighting services	Planning, coordinating and regulating Standardization of infrastructure, vehicles and procedures Disaster Management Plan

11.	The establishment, conduct and control of fresh produce markets and abattoirs serving the area of the district municipality	Not applicable
12.	The establishment, conduct and control of cemeteries and crematoria	Provide funds for pauper burials
13.	Promotion of local tourism for the area of the district municipality	Co-ordination, strategic planning
14.	Municipal public works relating to any of the above functions or any other functions assigned to the district municipality	construction and maintenance of public infrastructure and facilities
15.	The receipt, allocation and if applicable the distribution of grants made to the district municipality	

The system therefore measures performance/delivery of services and functions that are selected from the legislated functions and operations (refer to appendix 1) that ZDM fulfill.

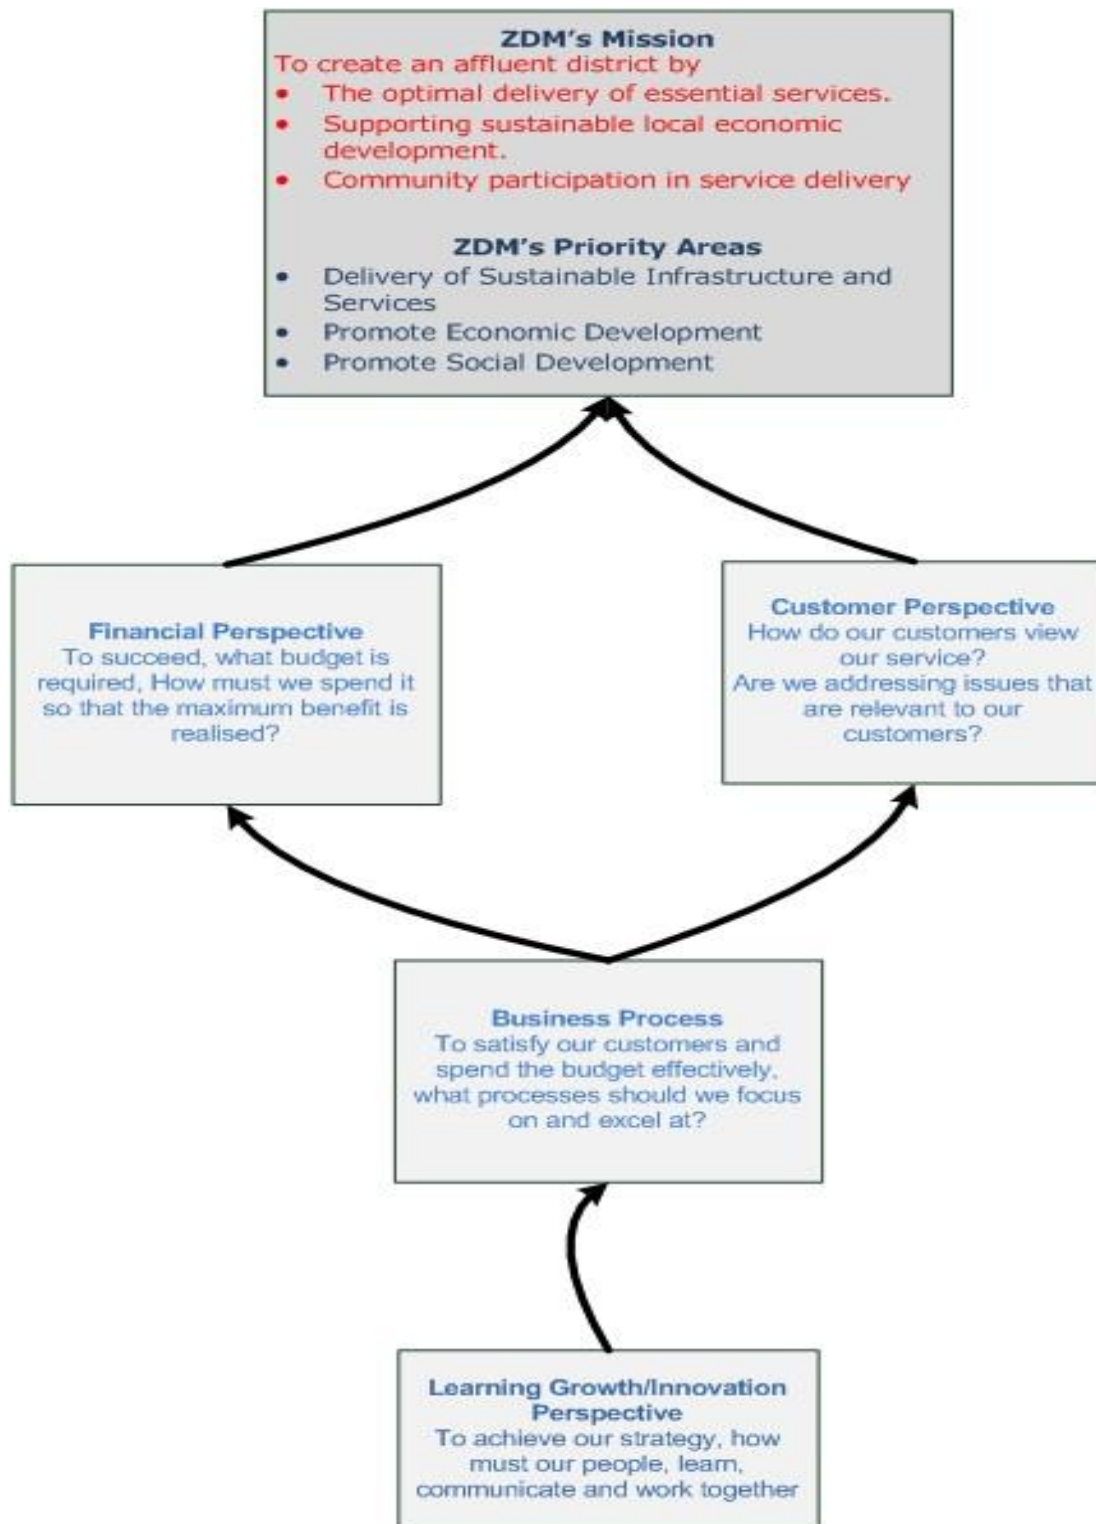

KPI SELECTION

ZDM's PMS system will only focus on selected KPI's (key performance indicators). The KPI's will facilitate measurement and monitoring of progress that is made by implementing specific projects/initiatives, in prioritized strategic areas (illustrated in Figure1). Since there are numerous KPI's, KPI's are selected and finalized using the Balanced Score Card technique so that all of the four perspectives are represented.

The four perspectives are:

- **Financial perspective which addresses budget, spending and Return on investment: E.g.** operating margins, Budget Spent on capital expenditure and infrastructure
- **Customer perspective, which addresses customer satisfaction, relationships and customer demand: E.g.** Customer satisfaction, Customer response time to queries,
- **Business process perspective, which addresses quality, timeliness and cost: E.g.** Plant down times, processing cost, water quality levels
- **Learning & Growth/Innovation Perspective, which addresses technologies, training, competencies, culture :E.g.** Investments in people, information technology and organizational procedures to prepare the organization for success in the future

Figure 1: Balanced Score Card Perspectives used at ZDM

KPI OVERVIEW

1. All KPI's are associated with a key performance area. Currently there are five national key performance areas namely, Basic Service Delivery, Local Economic Development, Good Governance and Public Participation, Financial Viability and management and Institutional Development and Transformation.
2. Each KPI must be linked to a strategic objective that has one or more strategic outcomes.
3. A KPI must have an objective. The KPI measures the successful implementation of the objective that is associated with the strategic objective.
4. The KPI's also includes legislated KPI's that all municipalities must report on.
5. A KPI is implemented via one or more strategies/interventions/tasks.
6. Each KPI must have a target that indicates the level of performance that would be achieved within a specified time period e.g. actual annual expenditure within 2% of the budget.
7. Each KPI has a unit of measure, and a baseline measurement.
8. The KPI's are generally annual indicators (i.e. are fully achieved at end of the year), however there may be some KPI's that are achieved prior to year end.
9. A KPI's targets and indicators must be:
 - **Approved in the budget** as an annual indicator with projections for at least two outer years based on the strategic priorities.
 - The budget resolution must approve measurable performance objectives for each vote (and for key sub-functions as may be prescribed) including service delivery targets and other performance indicators so that council can be judged on service delivery as well as revenue and expenditure.
 - **Split into quarterly projections** for the forthcoming budget in the SDBIP
 - The SDBIP would then break the annual targets and indicators into quarterly projections to assist with implementation. Quarterly reviews would compare targets with actual and revise future targets as necessary.
 - **Contained in annual performance agreements** of the municipal manager and senior managers. The quarterly projections in the SDBIP must be consistent with the annual performance agreements of the municipal manager and senior managers so that they can be held accountable for performance in line with the SDBIP, budget and IDP.
 - **Reported on** for in-year reporting (quarterly and mid-year) and the annual report

KPI SCORING

1. Performance of the KPI's is reviewed on quarterly basis.
2. KPI Performance is rated using a rating that ranges between 1 and 5.
Where the rating is as follows:

Table: Scoring suggested by the Regulations (2006)

LEVEL	TERMINOLOGY	DESCRIPTION
5	Outstanding performance	Performance far exceeds the standard expected of an employee at this level. The appraisal indicates that the Employee has achieved above fully effective results against all performance criteria and indicators as specified in the PA and Performance plan and maintained this in all areas of responsibility throughout the year.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the Employee has achieved above fully effective results against more than half of the performance criteria and indicators and fully achieved all others throughout the

		year.
3	Fully effective	Performance fully meets the standards expected in all areas of the job. The appraisal indicates that the Employee has fully achieved effective results against all significant performance criteria and indicators as specified in the PA and Performance Plan.
2	Performance not fully effective	Performance is below the standard required for the job in key areas. Performance meets some of the standards expected for the job. The review/assessment indicates that the employee has achieved below fully effective results against more than half the key performance criteria and indicators as specified in the PA and Performance Plan.
1	Unacceptable performance	Performance does not meet the standard expected for the job. The review/assessment indicates that the employee has achieved below fully effective results against almost all of the performance criteria and indicators as specified in the PA and Performance Plan. The employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.

LEGISLATED PERFORMANCE FRAMEWORK AND TIMELINES

IDP AND SDBIP OVERVIEW

Municipalities must consult and engage communities to develop the strategic plan, which is known as the Integrated Development Plan (IDP) (refer to Figure 2). The IDP outlines the organisation's priority areas, objectives and strategies, and has multi year targets. It also ensures that the municipality's priority areas are aligned to the National and Provincial performance areas and initiatives.

Each year the municipality reviews the IDP and develops a Service Delivery Budget Implementation Plan (i.e. SDBIP) which is a plan that outlines how the objectives in the IDP are to be achieved. The SDBIP is a high level summary of the component SDBIP's that are developed for each department that are known as DSDBIP's.

The SDBIP acts as a "contract" between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that must be implemented by the administration in the following twelve months. Therefore the SDBIP provides the basis for:

- Measuring performance in service delivery against targets and
- Implementing the budget.

The SDBIP facilitates accountability, i.e. it enables the:

- municipal manager to monitor the performance of senior managers,
- the mayor to monitor the performance of the municipal manager, and for
- The community to monitor the performance of the municipality.

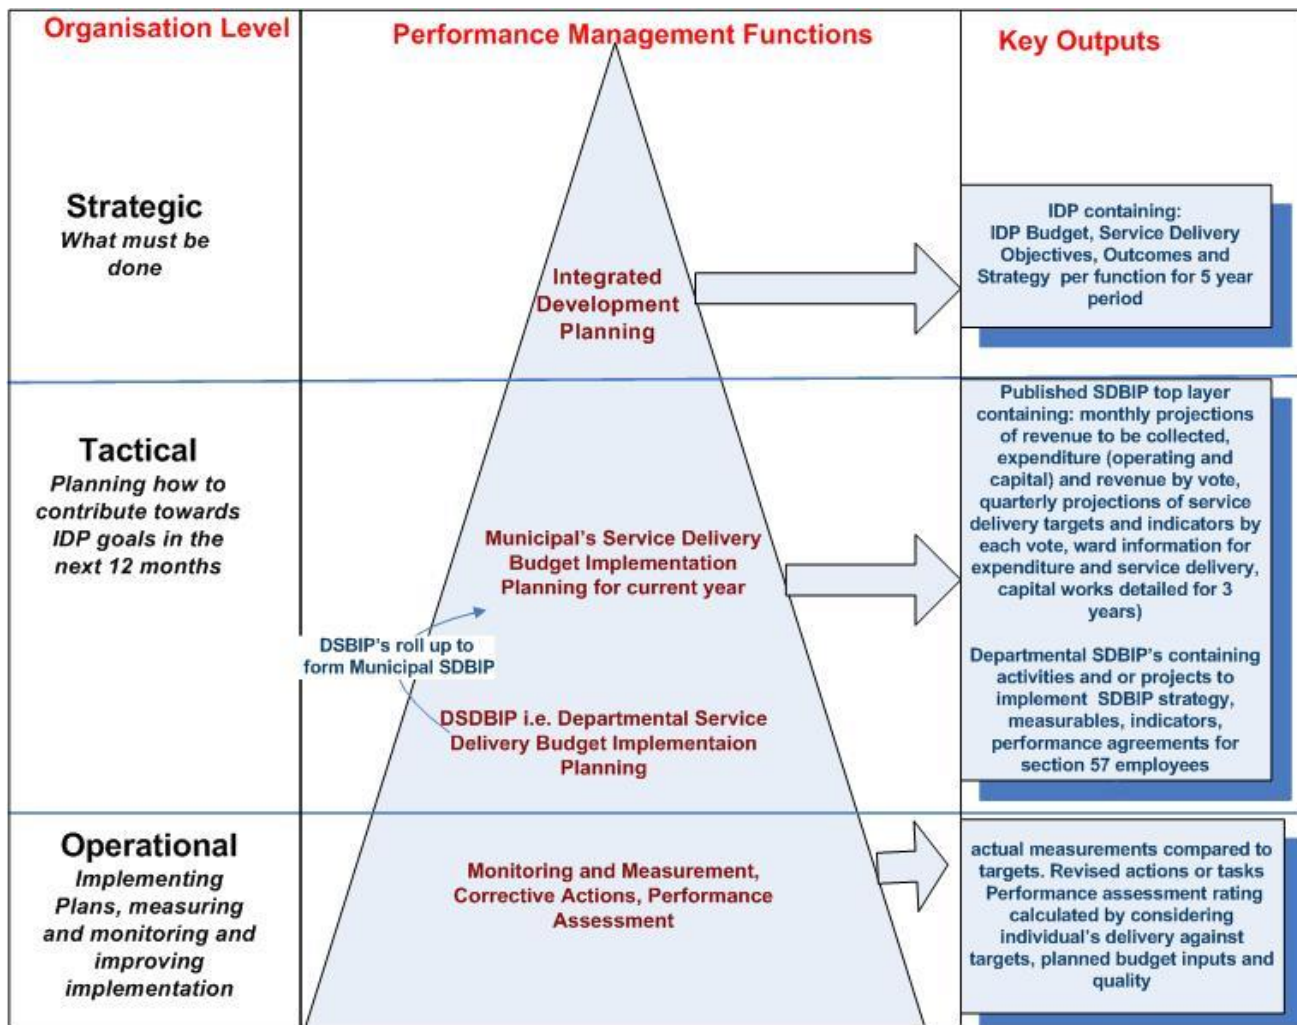

Figure 2: Illustrates the interaction and alignment between the different levels of management in a municipality. It also indicates the core performance management functions and their key outputs

PERFORMANCE PROCESS OVERVIEW

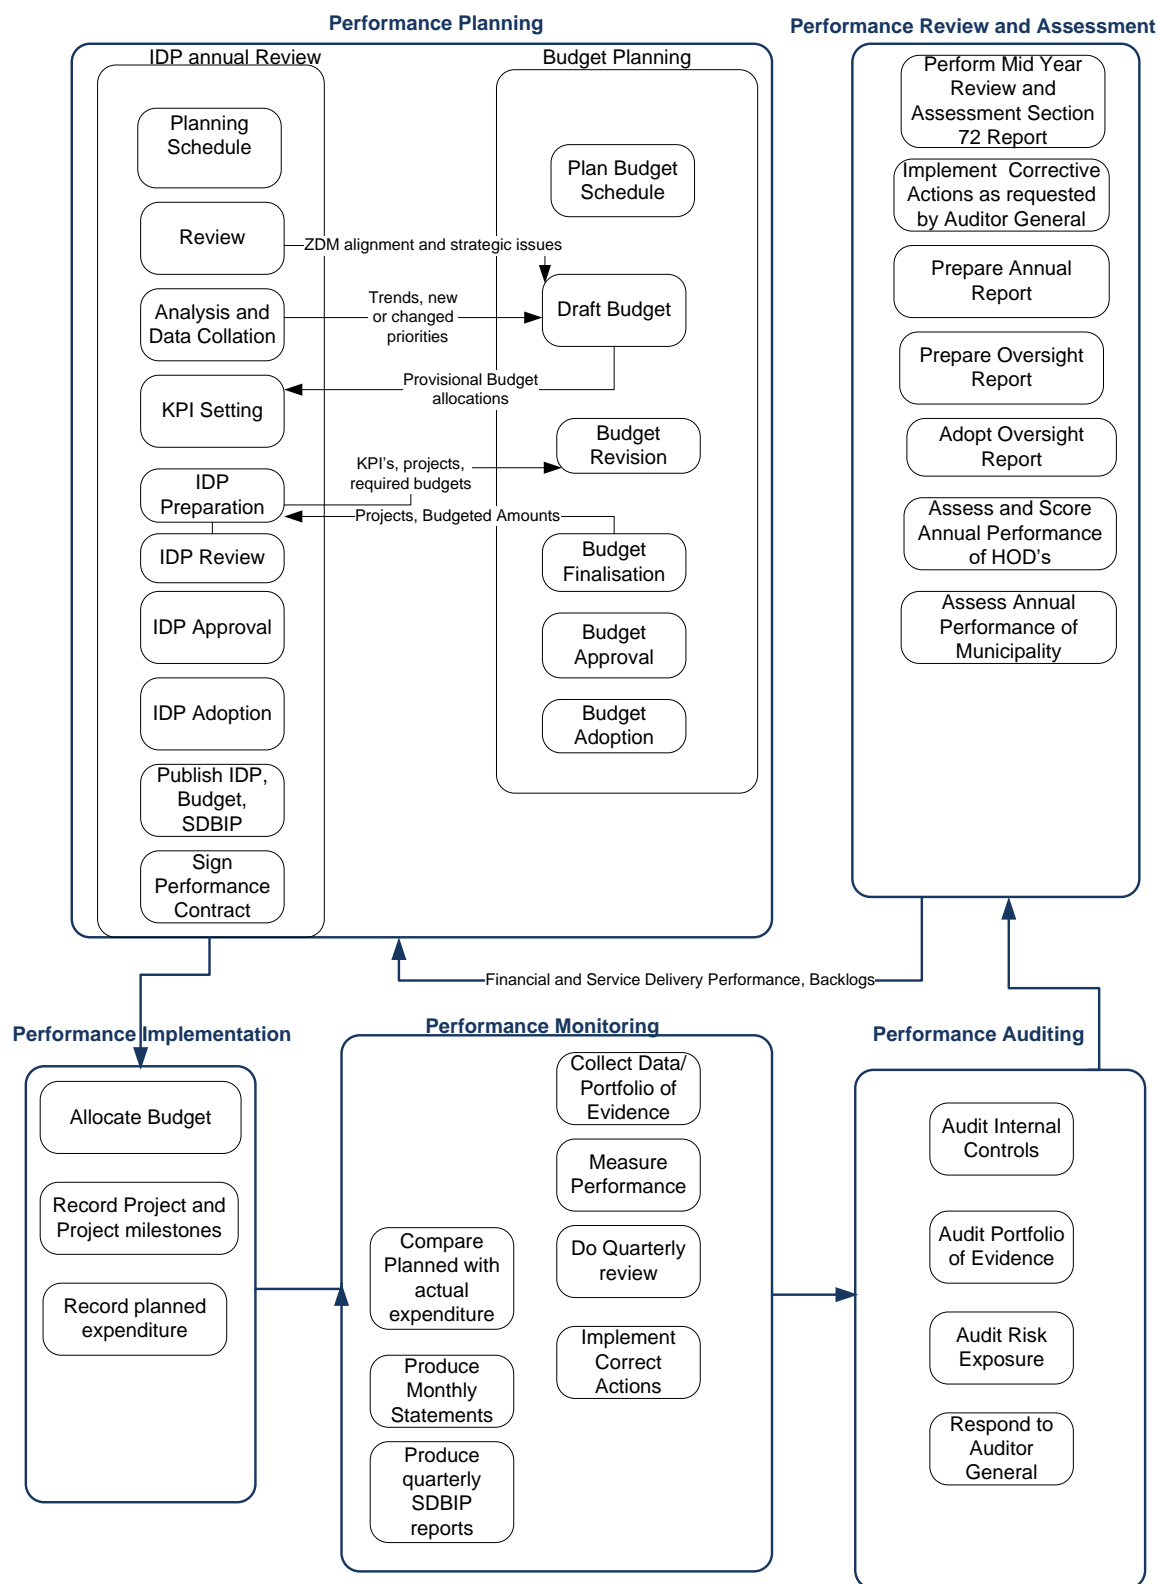

Figure 3: Conceptual view of performance related functions

WHEN DOES PERFORMANCE MANAGEMENT START?

Performance planning commences with the development or review of the Integrated Development Plan, at the beginning of the term of council or as part of the annual review of the IDP. The IDP in fact constitutes an important part of the PMS and it is important to integrate the work done during the review of the IDP into the PMS and to ensure that the PMS is an extension of the IDP – it is the tool that is used for monitoring the implementation of the IDP.

The municipal council will, as prescribed in its IDP process plan, adopt:

- The PMS framework;
- The municipal strategic balanced scorecard which outlines IDP priorities and objectives;
- Service Delivery and Budget Implementation Plans (SDBIPs) which outlines municipal initiatives, programmes, projects, services, key performance indicators, performance targets and budget summaries.

The municipality must involve the community in the development of the performance management system, setting of KPIs and performance targets in accordance with section 9 and 15 of the Local Government: Municipal Planning and Performance Management Regulations, 2001.

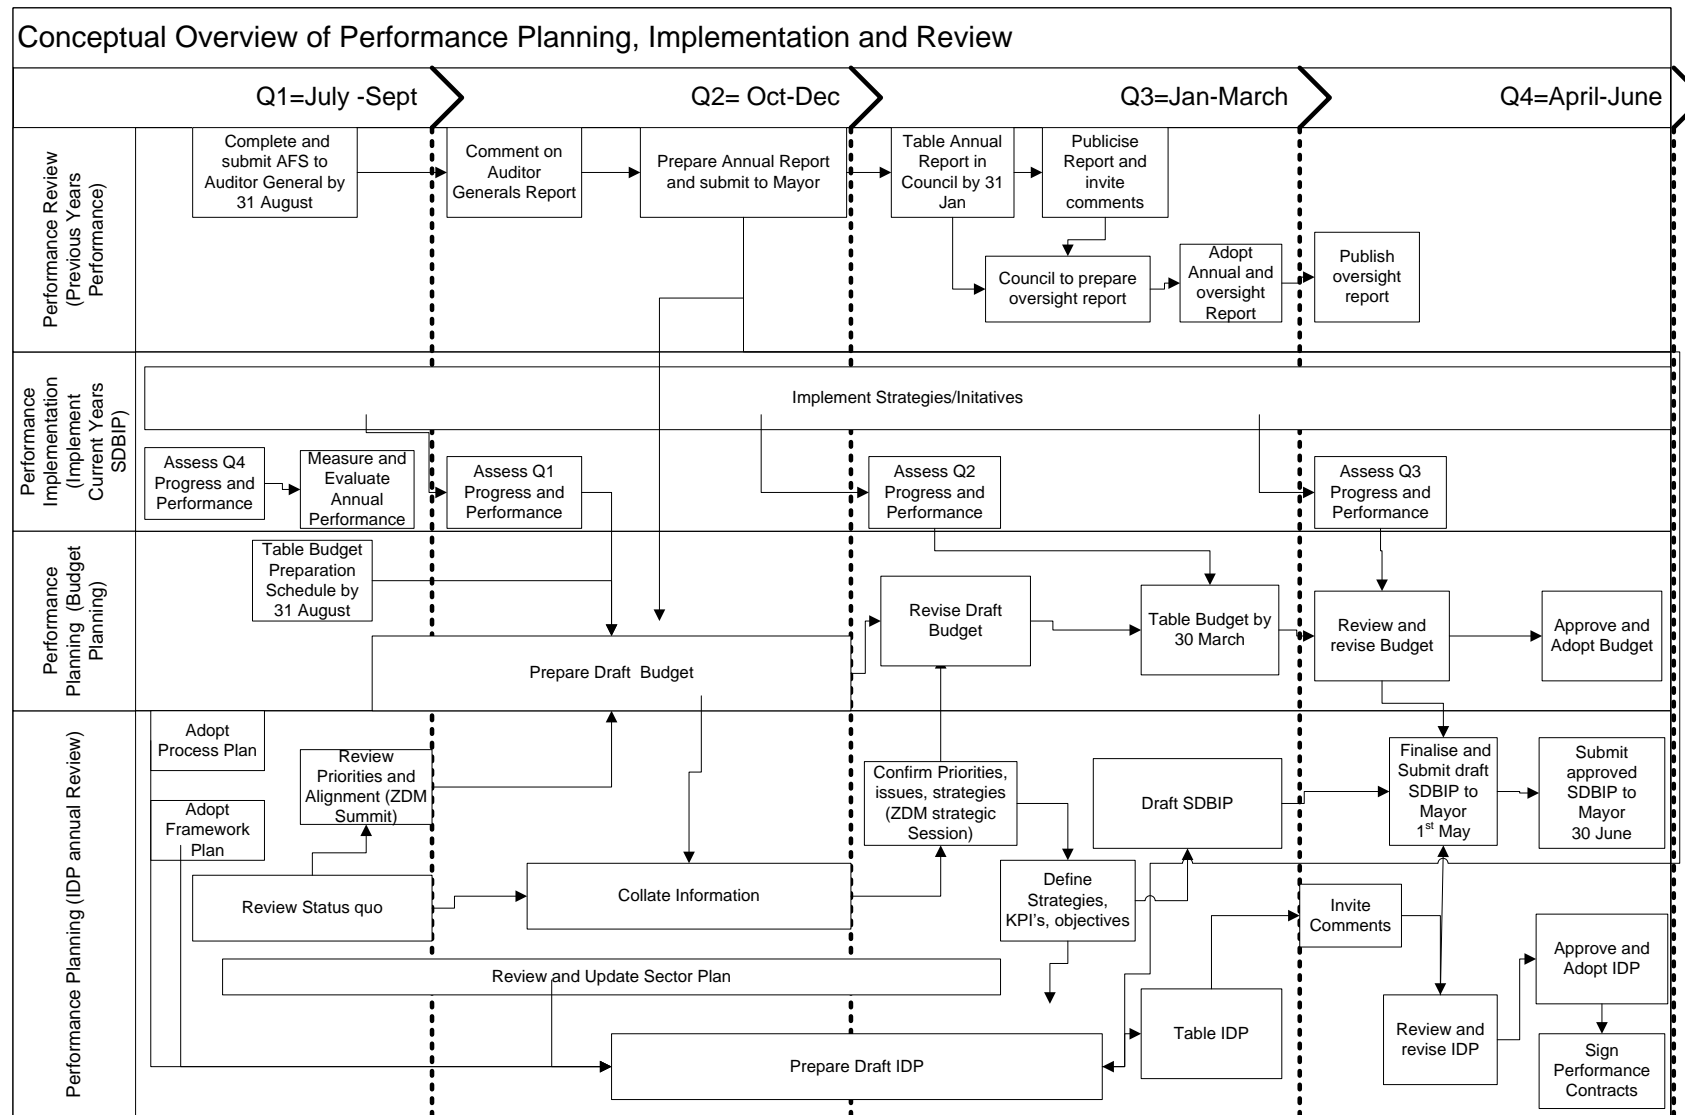

Figure 4: High level Conceptual diagram illustrating the Concurrent Performance Management Processes.

ACCOUNTABILITY AND INSTITUTIONAL STRUCTURES

ACCOUNTABILITY DEFINED

Accountability differs from responsibility in that accountability implies authority to perform specific actions without seeking approval and in being liable for performance and actions. The implications of accountability are summarized below:

Accountability is a relationship

The relationship/contract is between a person with assigned authority namely the Municipal Manager and the head of department. The Municipal Manager is responsible for providing adequate direction, guidance, and resources as well as removing barriers to performance. The head of department is responsible for fulfilling his/her responsibilities.

Accountability is results-oriented

Accountability for results asks if you have done everything possible with your resources towards affecting the achievement of intended results and if you have learned from past experience what works and doesn't work. It means you are accountable for what you can influence as well as what you can directly control.

Accountability requires reporting

Reporting is the "backbone" of accountability. Reporting, as used in this context, means providing an account of actions and results, i.e., here is what we did and here is what happened. Secondly, it means providing tangible evidence of results, to eliminate guess work and speculation. To be useful, the reporting must be timely, accurate, and complete. Reporting requires processes for data collection, analysis, and proper record keeping.

Accountability is meaningless without consequences

Accountability is an *obligation* to answer for the discharge of responsibilities. It is an *obligation* to demonstrate and take responsibility for performance. It is an *obligation* to answer for the execution of one's assigned responsibilities. Obligation implies liability, which comes with consequences. The consequences could be positive (rewards) or negative (sanctions).

Accountability improves performance

The goal of accountability is to improve performance, not to place blame and deliver punishment. Accountability is a relationship and process through which performance expectations are planned, defined, and negotiated at the outset; resources are allocated; performance is evaluated; and adjustments/corrections are made as necessary. In this process, the person being held to account is actively involved in each of these phases. Additionally, the foundation is set such that those being held to account, stay focused on improving performance, not explaining a lack of it.

INSTITUTIONAL STRUCTURES

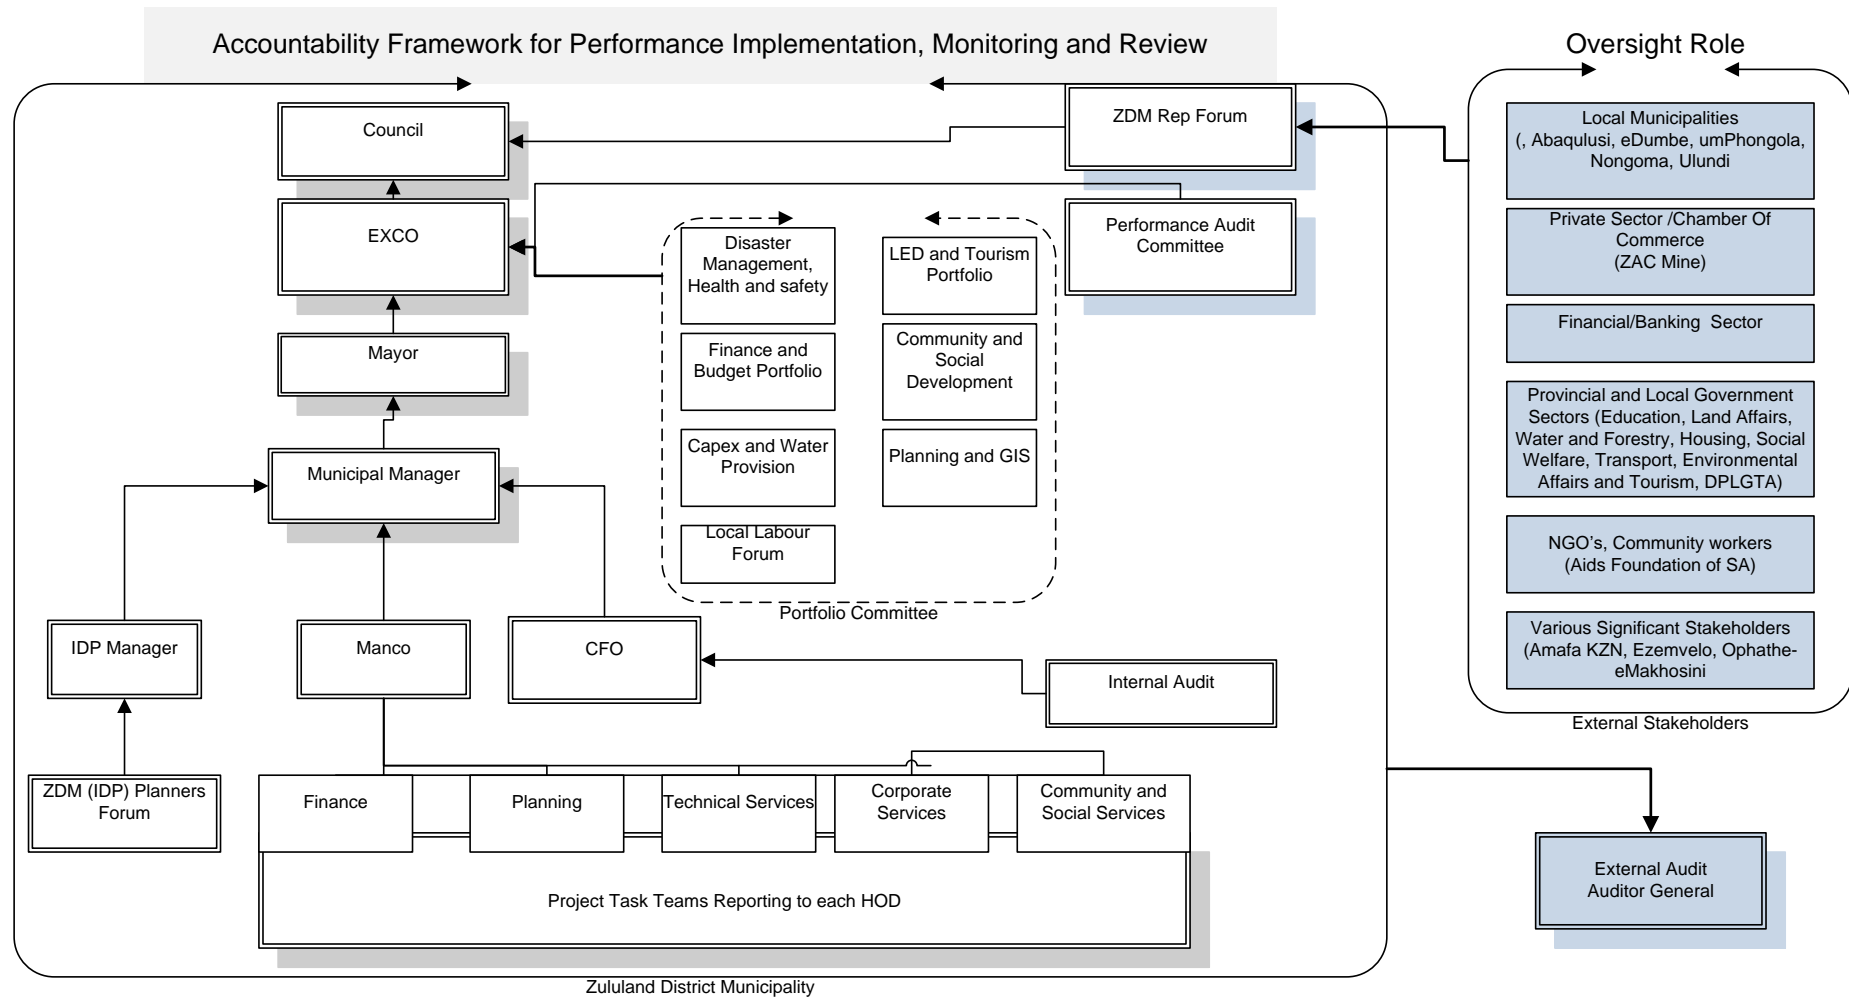

Figure 5: Illustrating accountability structure i.e. who reports to whom

Role Player	Description
Council	The ZDM Council consists of 34 councillors. The council is chaired by the speaker. The council is elected by the municipality's residents to decide on their behalf, on the overall direction and policies for the municipality
Exco (Executive Committee)	Exco is nominated by the council. ZDM's EXCO consists of 7 councillors and is chaired by the Mayor.
Mayor	The mayor is responsible for approving the annual performance contract for the municipal manager and monitors actual performance. The mayor is responsible for approving Policy, budgets, outcomes, policy and management oversight over municipal manager.
Municipal Manager	The municipal manager is responsible for ensuring that the policies of council are implemented. The municipal manager is the accounting officer of the municipality and is accountable to the mayor for implementing specific agreed outputs, and to the council for the overall administration of the municipality.
CFO (Chief Financial Officer)	<p>Chief Financial Officer is accountable to the MM and is responsible for:</p> <p>Budgeting and administering the budget</p> <ul style="list-style-type: none"> • providing advice to the MM on the exercise of powers and duties assigned to the MM • assisting the MM in the administration of the municipality's bank accounts and in the preparation and implementation of the municipality's budget • advising HOD's and other senior officials in the exercise of assigned powers and duties in terms of the MFMA or delegated to them by the MM. <p>CFO is also accountable for accounting, financial analysis and reporting, cash management, debt management, supply chain management, financial management, and other duties as may be delegated by the MM.</p>
Manco (Management Committee)	Manco consists of all Heads of Department and the Municipal manager who collectively reviews the KPI's each year. Manco addresses any current implementation or planning issues relating to performance.
HOD's	Currently there are five head of departments who report directly to the municipal manager. They are accountable to the MM for the implementation of the SDBIP of their function.

Internal Audit	<p>Outsourced to Price Waterhouse Coopers. Internal Audit's accountabilities include the following:</p> <p>prepare a risk based audit plan and an internal audit programme for each financial year</p> <ul style="list-style-type: none">• advise the accounting officer and report to the audit committee on the implementation of the internal audit plan and matters relating to:<ul style="list-style-type: none">– internal controls– accounting procedures and practices– risk and risk management– performance management– loss control– compliance with the MFMA, DoRA and any other applicable legislation• examine and review the reliability and integrity of financial and operating information and the means used to identify, measure, classify and report this information• examine and review the systems established to ensure compliance with policies, plans, procedures, laws, regulations and contracts that could have an impact on the overall operations and reporting of the council• examine and review the system of internal controls for safeguarding assets of the municipality• periodically verify the existence of property and equipment assets of the municipality• evaluate the economy and efficiency with which the municipality has utilized resources• review the operations and programmes of the municipality to ascertain whether the results are consistent with established goals and objectives• evaluate the extent of compliance and reliability of performance management• systems as required by the MFMA, and ensure that annual performance agreements are evaluated at the end of each financial year• perform investigations into financial problems of the municipality based on circumstances encountered during internal audit reviews or as requested by the audit committee or management
----------------	---

PAC (Performance Audit Committee)	<p>There is a Performance Audit Committee that has been appointed by ZDM.</p> <p>The audit committee is an independent advisory body, which advises EXCO, on matters relating to:</p> <ul style="list-style-type: none"> • internal financial control and internal audits • risk management • accounting policies • the adequacy, reliability and accuracy of financial reporting and information • performance management • effective governance • compliance with the MFMA, any other applicable legislation • performance evaluation • respond to the council on any issues raised by the Auditor-General in the audit report
ZDM Rep Forum	A broad public, participative forum that is formed annually to provide input into the IDP document. The forum consists of stakeholders from the private, NGO, Local municipal, sector departments, and provincial government.
Oversight Committee	<p>The oversight committee is a sub -committee that is selected from the ZDM Rep Forum. The committee is made up of only non-executive councillors and representatives of the community. It is formed each year to deal with the review of the annual report. Municipal officials cannot be members of an oversight committee as this would pose a conflict of interest.</p> <p>The current years oversight committee is??</p>
IDP Manager	The current IDP manager is Mr S Landman.
IDP Planners Forum	Consists of IDP managers from each of the constituent local municipality's. The IDP Planners Forum addresses all planning and IDP issues that pertain the current year as well as planning for next year's IDP.
Portfolio Committee	Specialist committees that are chaired by an Exco member.

TASKS AND ACCOUNTABILITIES

FUNCTION: REVIEW OF ANNUAL PERFORMANCE

Legislation:

Section 129 of the MFMA

MFMA Circular No. 63 - Annual Report Guidelines - 26 January 2012

Description:

An annual process, where the municipality's performance is formally reviewed and documented as an annual report. The report contains both financial and non-financial information and serves as an authoritative record of the municipality's performance. The annual report is submitted to the council by the Municipal Manager and the mayor. The tabling of the annual report is a formal discharge of accountability by the executive and administration for their performance. The council then considers and consults on the annual report. The council then produces an oversight report

Accountability	Action	Deadline
CFO	Complete annual financial statements	31 August
CFO (Delegated by MM)	Submit financials to Auditor General	31 August
CFO (Delegated by MM)	Submit consolidated financials to Auditor General for audit	30 September
CFO	Receive audited annual financial statements and audit report of municipality from Auditor General	November
MM	Delegate issues that require responses to audit findings.	November
MM	Ensure that issues raised in the audit are addressed or that plans are implemented to address issues that were raised in the audit reports	
CFO	Prepare Annual Report	July - November
CFO	submit annual report to municipal manager	November
MM	Revise and approve annual report Submit approved annual report to Mayor	November
Mayor	Table annual report and audited financials in council	November/December

Oversight Committee	Draft oversight report	September/November
Oversight Committee	Conducts public hearings, debates issues and considers oversight report; make oversight report public	
MM	Attend public hearings to respond to Questions. ensure copies of minutes of the meetings are submitted to the Auditor- General and organs of state as required	September/November
(Planning) delegated by MM	Publish annual report Submit report to Auditor-General, and organs of state as required	December
Council	Adopt oversight report (within two months of tabling Annual Report (section 72 report)	December
(Planning) delegated by MM	Publish oversight report and submit to AG, provincial treasury	Within 7 days from adoption

FUNCTION: PLAN NEXT YEAR'S BUDGET

Legislation: MFMA

Description:

A function that allows the municipality to plan and propose budgetary amounts that would be required to implement projects and or functions. The process caters for various inputs such as the District's strategic priorities and alignment (from ZDM Summit), proposed allocations (provincial) and revised implementation priorities (as per ZDM's strategic workshop) that have considered the previous year's and the current year's performance.

Accountability	Action	Deadline
CFO	Prepare budget preparation schedule	August
Mayor	table budget schedule, outlining key deadlines for budget process establish committees and consultation forums for the budget process	31 August
CFO	Based on the input from ZDM Growth and	30 September

	<p>Development Summit, review budget projections.</p> <p>Determine revenue and expenditure projections including levels for rates and tariffs</p> <p>Produce the Medium Term Budget Policy Statement for the municipality (MTBPS)</p> <p>Engage with national and provincial sector departments for alignment with municipal strategy</p>	
HOD	Submit budget requests and justification to CFO	31 December
CFO	Proposed budget, strategic objectives, strategies are prepared (considering Annual Report, strategic direction, the municipal MTBPS and previous year's performance as per audited financial statements)	31 December
CFO	Incorporate proposed national and provincial allocations into budget documentation	28 January
HOD	Revise budget allocations based on proposed budget and ZDM strategic workshop	15 February
CFO	<p>Proposed budget and SDBIP submitted to mayor taking into account the mid-year review of the current year and any corrective measures proposed as part of an oversight report for the past year.</p> <p>District municipalities to notify local municipalities of projected allocations</p>	31 March
Mayor	<p>Table budget including all required documentation.</p> <p>Submit to organs of state as required and invite stakeholders to comment</p>	31 March
CFO	Budget documentation revised taking into account consultation and results of the third quarterly review	April

CFO	Final budget documentation prepared for consideration of approval by council	May
Council	Table approved budget , 30 days before start of budget year	June
CFO (delegated by MM)	Publish approved budget and required supporting documentation immediately after approval	June
MM	Revise SDBIP and performance contracts as per approved budget	June
MM	Submit SDBIP and performance contracts to Mayor	14 days after budget is adopted
Mayor	Approves SDBIP and annual performance agreements of senior managers	within 28 days of approval of the budget by council, before start of new year
Mayor (delegated to MM)	publishes SDBIP and annual performance agreements and provides to council and MEC for local government in the province	

FUNCTION: PLAN NEXT YEAR'S IDP (IDP ANNUAL REVIEW)

Legislation: MFMA

Description:

A function that allows the municipality to review the IDP and determine, implementation priorities, KPI's for the following year.

Accountability	Action	Deadline
IDP Manager	Produce <u>IDP framework plan</u> (that illustrates how alignment within the district would be achieved) and Process Plan (that illustrates how IDP annual Review process would occur).	31 August
IDP Manager	Produce <u>Process Plan</u> (that illustrates how IDP annual Review process would occur).	31 August
MM	Table Process and Framework Plan	31 August
IDP Manager	Plan and Co-ordinate ZDM Summit	September

IDP Manager	Document and circulate summit actions, findings to relevant stakeholders	September
Planning	Determine Status Quo (review and update demographic information, backlogs)	September
Planning	Review and update key Sector Plans; Produce workplan and milestones to review and update sector plan information	
All departments	Co-ordinate finalization of key Sector Plans incl. WSDP, LED Plan, HIV/AIDS strategy, Youth Development Plan, Skills Development Plan, Financial Plan, SDF, Disaster Management Sector Plan to be reviewed and incorporated into IDP	28 February
IDP Manager	Facilitate IDP Planners Forum meetings Provide feedback on alignment and planning issues to the relevant HOD	Ongoing
IDP Manager	Collate information that affects IDP i.e. Status Quo changes, Summit Actions, IDP planners inputs, Budget allocations	Mid January
HOD's	Analysing data, trends that determines future directions or changes in the environment.	
Planning	Co-ordinate ZDM strategic meeting	28 February
MM	Facilitate or delegate facilitation of workshop	
IDP Manager	Document Strategic meeting actions	
HOD's	Define objectives, KPI's, strategies, baseline, targets, quarterly targets, budget input	March - May
HOD's	Defining KPI's data requirements, portfolio of evidence for KPI's, responsibility for data collection, collection procedure and frequency.	
HOD's	Specifying and implementing systems to collect data	
HOD's	Define required monitoring and management information that ensures KPIs are achieved.	
IDP Manager	Validate Quality of KPI's in terms of its Smartness.	
IDP Manager	Validate KPI's to ensure: 1. Ensure KPI's are aligned to IDP strategic	

	<p>Objectives</p> <p>2. Compulsory KPI's included</p> <p>3. ZDM's KPI's represent balanced score card perspective</p>	
MANCO	Review municipal SDBIP	March - May
HOD	Revise SDBIP to produce final SDBIP Approve KPI's	June
IDP Manager	Prepare Draft IDP	28 February
MM	Produce Performance Contracts with HOD's KPI's and responsibilities	June - July
MM	Discuss and sign performance agreements	
IDP Manager	Submit draft to ZDM Rep Forum	
	Submit Draft to Exco	March
IDP Manager	Advertise Draft IDP for comments	March - April
IDP Manager	Incorporate Comments	April - May
IDP Manager	Submit IDP to Exco for final approval	May
IDP Manager	Submit approved IDP to council	May
IDP Manager	Submit approved IDP to DLGTA	June within 10 days after council approval
Mayor	Report to public, council, MEC Monthly revenue and expenditure projections, service delivery targets and performance indicators for each quarter.	14 days after approval of SDBIP

FUNCTION: IMPLEMENT CURRENT YEARS IDP

Accountability	Action	Deadline
CFO	Ensure vote structure supports reporting and traceability to KPI's Allocate approved budget to vote numbers	
CFO (delegated by MM)	Set up internal audit and performance audit committees schedule Ensure that TOR is reviewed and is relevant for internal audit and Performance Audit Committee	01 August
HOD's	Capture project information in IMPI i.e. project description, vote number, KPI Number, planned quarterly milestones, estimated budget expenditure per quarter	01 st of July, ongoing
HOD's	Implement strategies, projects or initiatives for KPI	01 July to 30 June
CFO	Provide Monthly report to MM	7 days from month end
MM	Provide Monthly report to mayor and provincial treasury Statement in prescribed format on state of budget reflecting details for the month and year-to-date, including projections for rest of year as required by section 87, MFMA	10 working days from month end
Mayor	review monthly reports and only report to council if there are material deviations from the budget and SDBIP	10 working days from month end
HOD	Review and assess quarterly KPI performance. Identifying and implementing process improvement initiatives.	10 working days from month end for the quarter
HOD	Ensuring that portfolio of evidence is routinely collected. Make evidence available to internal audit.	10 working days from month end for the quarter
CFO	Produce and submit quarterly reports on performance to MM	7 days from month end for the quarter

MM	Assess and review HOD's quarterly performance and consider internal audit's report	10 working days from month end for the quarter
MM	Produce and submit quarterly reports on performance to Mayor	10 working days from month end for the quarter
CFO	Prepare and submit mid-year review reports to MM	January
MM	Provide mid-year review report including recommendations regarding the need for an adjustment budget to mayor, National and provincial treasury (MFMA, subsection 1a)	25 January
Mayor	Present Section 72 report to council	31 January
CFO	Consider mid year performance assessment in budget preparation function	31 January
Mayor	review mid year review reports and tables to council with recommendations regarding the need for an adjustments budget	31 January
Council	Considers midyear performance assessment and act as necessary	31 January
MM	Assess annual performance	31 August of next year
CFO (delegated by MM)	Management of contracts and agreements as well as performance of contractors in terms of section 116.	Monthly

REPORTING REQUIREMENTS

REPORT	FREQUENCY	SUBMITTED FOR CONSIDERATION AND/OR REVIEW TO	REMARKS
1. SDBIPs	Quarterly	Executive Committee	See MFMA Circular 13 of National Treasury for further information
2. Monthly budget statements	Monthly	Mayor (in consultation with Exco)	See sections 71 and 54 of the MFMA
3. Organisational Scorecard	Quarterly	Executive Committee	
4. SDBIP mid-year budget and performance assessment	Annually during January of each year	Mayor (in consultation with Exco)	See sections 72 and 54 of the MFMA
5. Performance report	Annually	Council	See section 46 of the Municipal Systems Act as amended. Said report to form part of the annual report (see 7 below)
6. Annual report	Annually	Council	See chapter 12 of the MFMA

PERFORMANCE ASSESSMENT

1. Performance will be measured and evaluated annually.
2. The performance assessment consists of two components, both of which must be contained in the performance agreement. The employee is assessed against both components, with a weighting of 80: 20 allocated to the Key Performance Areas (KPAs) and the Critical Leading Competencies (CLCs), respectively.
3. The employee's assessment will be based on his or her performance of the KPI's that are associated to a KPA.
4. In the case of managers directly accountable to the municipal manager, key performance areas related to the functional area of the relevant manager, must be subject to negotiation between the municipal manager and the relevant manager.
5. The CLCs will make up the other 20% of the employee's assessment score.
6. The performance of the employee in relation to his or her performance agreement is reviewed quarterly, with the understanding that reviews in the first and third quarter may be verbal if performance is satisfactory.
7. ZDM does a written assessment of the mid-year review and annual assessment meetings.
8. Performance feedback is based on the employer's assessment of the employee's performance.
9. The employer will be entitled to review and make reasonable changes to the provisions of the performance plan from time to time for operational reasons on agreement between both parties.
10. Calculation of scorecards:
11. KPI's are scored per KPA, where each KPA is weighted and the total of the KPA weightings =1

KPA Score = KPA weighting * % KPI for associated KPA, where

% KPI =(Total of the KPI ratings for the measured KPI's where rating ranges from of 1 to 5)/ (number of KPI's for the KPA *3), since 3 represents 100%.

CLC Score = Sum of (CLC weighting *%CLC), where % CLC = CLC rating (1-5) /3

Performance Assessment Calculation

= 0.8 * KPA score + 0.2 Competency Requirement Score

WHAT ASPECTS OF PERFORMANCE WILL BE MANAGED?

The following aspects relating to performance management will be managed:

ASPECT	DESCRIPTION
Broad Participation	Representation via the ZDM Rep Forum Sector engagement via Portfolio Committees and consultants IDP Roadshows Adverts in local and provincial newspapers
IDP Alignment	IDP Alignment via the IDP planners forum ZDM Summit that is held annually Regular alignment meetings as per IDP Framework
Accountability	Signing of Performance Contract Ensuring that each KPI has one person who is accountable for the KPI's performance. TOR for: <ul style="list-style-type: none"> • IDP Manager • IDP Planners Forum • Performance Audit Committee • Internal Audit
Reporting Format Consistency	Standard Templates for SDBIP (see Appendix C) Standard Template for Quarterly Review (See Appendix D)
Performance Planning	During Performance planning the following aspects are verified by the IDP manager and Internal Audit <ul style="list-style-type: none"> • IDP Alignment • Legislative Compliance (see Tasks and Accountabilities) • KPI Selection (see below) • KPI Quality (see below) • KPI Data Criteria (see below)
Performance Implementation	Signing of Performance Contract
Performance Monitoring	Monthly Performance Monitoring via Manco Meeting Quarterly Review by HOD's Monthly Budget and Expenditure Statement Mid Year Review Quarterly SDBIP

Performance Auditing	TOR of Performance Audit Committee and Internal Audit
Performance Review And Assessment	Year end performance evaluation and assessment Annual Report (section 72 report) Oversight Report Review of progress towards outcomes

KPI SELECTION

KPI's are selected so that they represent all four of the balanced score card perspectives (refer to KPI selection).

KPI's are also classified in terms of whether it represents an input, output, process or outcome indicator. KPI's are chosen so that there is a mixture of leading and lagging indicators.

KPI QUALITY ASSESSMENT

Each KPI is evaluated according the following criteria:

S = Specific Is the measure clear and focused to avoid misinterpretation? It should include measurement assumptions and definitions, and should be easily interpreted.

M = Measurable Can the measure be quantified and compared to other data? It should allow for meaningful statistical analysis. Avoid yes/no" measures except in limited cases, such as start-up or systems-in-place situations.

A = Attainable Is the measure achievable, reasonable, and credible under conditions expected?

R = Realistic Does the measure fit into the organization's constraints? Is it cost-effective?

T= Timely Is measurement doable within the time frame given?

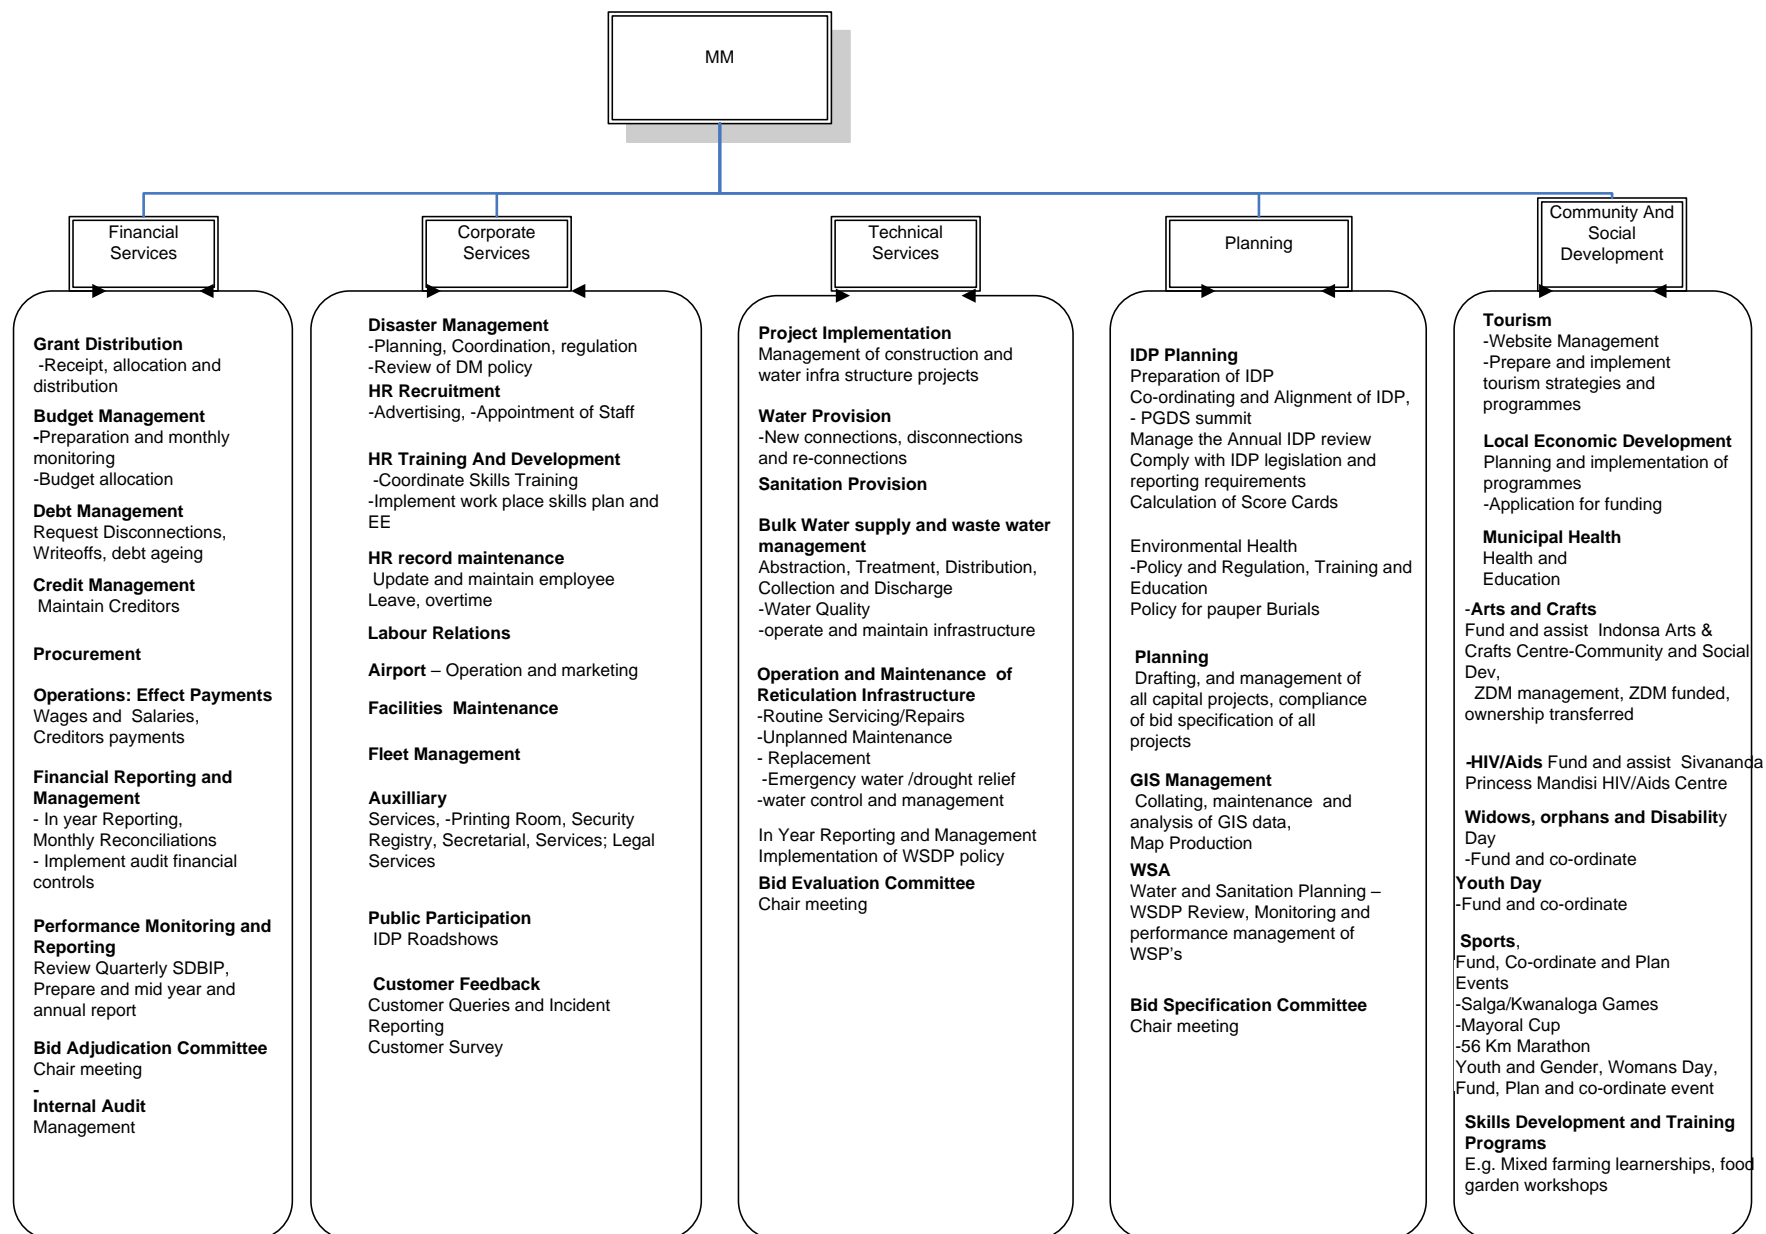

DATA CRITERIA

Data availability and reliability can impact the selection and development of performance measures. With regard to *Data Criteria*, the following aspects are considered

Availability	<p>Is the data currently available? If not, can the data be collected?</p> <p>Are better indicators available using existing data?</p> <p>Are there better indicators that we should be working towards, for which data are not currently available?</p>
Accuracy	<p>Are the data sufficiently reliable?</p> <p>Are there biases, exaggerations, omissions, or errors that are likely to make an indicator or measure inaccurate or misleading?</p> <p>Is the data verifiable and auditable?</p>
Timeliness	<p>Is the data timely enough for evaluating program performance?</p> <p>How frequently is the data collected and/or reported (e.g., monthly vs. annually)?</p>
Costs of Data Collection	<p>Are there sufficient resources (e.g., expertise, computer capability or funds) available for data collection?</p> <p>Is the collection of the data cost-effective (i.e., do the costs exceed the benefits derived from the data)?</p>

APPENDIX E: PERFORMANCE AGREEMENT

SENIOR MANAGEMENT SERVICES

PERFORMANCE AGREEMENT

The Municipal Manager reporting to the Mayor
(“The Municipal Manager”)

AND

The Head of Department: Services reporting to the Municipal Manager
(“The Head of Department: Services”)

Financial year: 01 July - 30 June

PERFORMANCE AGREEMENT

ENTERED INTO BY AND BETWEEN:

The Zululand District Municipality herein represented by the Municipal Manager (hereinafter referred to as the Employer or Supervisor)

And

Mr/Ms, Employee of the Municipality (hereinafter referred to as the Employee or Head of Department: Services).

WHEREBY IT IS AGREED AS FOLLOWS:

1. INTRODUCTION

- 1.1 The Municipality has entered into a contract of employment with the Head of Department: Services for a period of five (5) years, ending on 31 July 2016 in terms of section 57(1)(a) of the Local Government: Municipal Systems Act 32 of 2000 ("the Systems Act").
- 1.2 Section 57(1)(b) of the Systems Act, read with the Contract of Employment concluded between the parties, requires the parties to conclude an annual performance agreement.
- 1.3 The parties wish to ensure that they are clear about the goals to be achieved, and secure the commitment of the Head of Department: Services reporting to the Municipal Manager to a set of outcomes that will secure local government policy goals.
- 1.4 The parties wish to ensure that the Municipal Manager will be responsible for facilitating the setting and evaluation of performance objectives and targets on behalf of the Municipality. The Municipal Manager shall report to the Mayor in regard to the above.

2. PURPOSE OF THIS AGREEMENT

The purpose of this Agreement is to –

- 2.1 comply with the provisions of Section 57(1)(b), (4A), (4B) and (5) of the Systems Act as well as the employment contract entered into between the parties;
- 2.2
- 2.3 specify objectives and targets defined and agreed with the employee and to communicate to the employee the employer's expectations of the employee's performance and accountabilities in alignment with the Integrated Development Plan, Service Delivery and Budget Implementation Plan (SDBIP) and the Budget of the municipality.
- 2.4 specify accountability as set out in a performance plan, reflected as Annexure A to the performance agreement;
- 2.5 monitor and measure performance against set targeted outputs;
- 2.6 monitor and measure the core competencies against competency behavioural standards;
- 2.7 use the performance agreement as the basis for assessing whether the employee has met the performance expectations applicable to his or her job;
- 2.8 in the event of outstanding performance, to appropriately reward the employee;
- 2.9 proactively focus on the development of the Head of Department: Services (Personal Development Plan – Annexure B);
- 2.10 give effect to the employer's commitment to a performance-orientated relationship with its employee in attaining equitable and improved service delivery.

3. COMMENCEMENT AND DURATION

- 3.1 This Agreement will commence on the 1st of July and will be applicable until the 30th of June This agreement will remain until a new Performance Agreement is concluded between the parties, if required during the performance cycle.
- 3.2 The parties will review the provisions of this Agreement during June each year. The parties will conclude a new Performance Agreement and Performance Plan that replaces this Agreement at least once a year by no later than the beginning of each successive financial year.
- 3.3 This Agreement should be read in conjunction with the Contract of Employment and this agreement will terminate on the termination of the Head of Department: Services Contract of Employment.
- 3.4 The content of this Agreement may be revised at any time during the above-mentioned period to determine the applicability of the matters agreed upon.
- 3.5 If at any time during the validity of this Agreement the work environment alters (whether as a result of government or council decisions or otherwise) to the extent that the contents of this Agreement are no longer appropriate, the contents shall immediately be revised.

4. PERFORMANCE OBJECTIVES

- 4.1 The Performance Plan (Annexure “A”) sets out:
- 4.1.1 The performance objectives and targets that must be met by the Head of Department: Services ; and
- 4.1.2 the time frames within which those performance objectives and targets must be met.
- 4.2 The performance objectives and targets reflected in Annexure “A” are set by the Municipal Manager in consultation with the Head of Department: Services, and based on the Integrated

Development Plan, Service Delivery and Budget Implementation Plan (SDBIP), and shall include key objectives, key performance indicators, target dates and weights.

4.3 The key objectives describe the main tasks that need to be done.

4.4 The key performance indicators provide a means to measure the extent to which a key objective has been achieved.

5. **PERFORMANCE MANAGEMENT SYSTEM**

5.1 The Head of Department: Services accepts that the purpose of the Performance Management System will be to provide a comprehensive system with specific performance standards to assist the Municipality, management and municipal staff to perform to the standards required.

5.2 The Municipal Manager will consult the Head of Department: Services about the specific performance standards that will be included in the Performance Management System as applicable to the Head of Department: Services.

5.3 The Municipal Manager undertakes to actively focus towards the promotion and implementation of the KPAs (including special projects relevant to the employee's responsibilities) within the local government framework.

5.4 The criteria upon which the performance of the Head of Department: Services shall be assessed shall consist of two components, both of which shall be contained in the Performance Agreement.

5.5 The Head of Department: Services must be assessed against both components, with a weighting of 80:20 allocated to the Key Performance Areas (KPAs) and the Core Competency Requirements (CLCs) respectively.

5.6 Each area of assessment will be weighted and will contribute a specific part to the total score.

- 5.7 KPAs covering the main areas of work will account for 80% and CLCs will account for 20% of the final assessment.
- 5.8 The Head of Department: Services assessment will be based on his performance in terms of the performance indicators identified as per attached Performance Plan (**Annexure A**), which are linked to the KPA's, and will constitute 80% of the overall assessment result as per the weightings agreed to between the Municipal Manager and the Head of Department: Services.

Key Performance Areas (KPA's)	Weighting
Basic Service Delivery	
Local Economic Development, Agriculture and Business	
Social Development and Food Security	
Good governance and Public Participation	
Total	100%

- 5.9 The critical Leading Competencies (CLC) and Core Competencies (CC) as per Annexure A of the Local Government: Competency Framework for Senior Managers will make up the other 20% of the Employee's assessment score. There is no hierarchical connotation and all competencies are essential to the role of the All competencies must therefore be selected from the list below as agreed to between the Employer and the Employee:

CRITICAL LEADING COMPETENCIES		WEIGHT
Strategic Direction and Leadership	<ul style="list-style-type: none"> • Impact and influence • Institutional Performance Management • Strategic Planning and Management • Organisational Awareness 	
People Management	<ul style="list-style-type: none"> • Human Capital Planning and Development • Diversity Management • Employee Relations Management • Negotiation and Dispute Management 	20%
Programme and Project Management	<ul style="list-style-type: none"> • Program and Project Planning and Implementation • Service Delivery Management • Program and Project Monitoring and Evaluation 	5%
Financial Management	<ul style="list-style-type: none"> • Budget Planning and Evaluation • Financial Strategy and Delivery • Financial Reporting and Monitoring 	
Change Leadership	<ul style="list-style-type: none"> • Change Vision and Strategy • Process Design and Improvement • Change Impact Monitoring and Evaluation 	
Governance Leadership	<ul style="list-style-type: none"> • Policy Formulation • Risk and Compliance Management • Co-operative Governance 	
CORE COMPETENCIES		
Moral Competence		
Planning and Organising		
Analysis and Innovation		
Knowledge and Information Management		
Communication		
Results and Quality Focus

6. EVALUATING PERFORMANCE

6.1 The Performance Plan (Annexure “A”) to this Agreement sets out:

6.1.1 the standards and procedures for evaluating the Head of Department: Services performance; and

6.1.2 the intervals for the evaluation of the Head of Department: Services performance.

6.2 Despite the establishment of agreed intervals for evaluation, the Municipal Manager may, in addition, review the Head of Department: Services performance at any stage while the Contract of Employment remains in force.

6.3 Personal growth and development needs identified during any performance review discussion must be documented in Personal Development Plan as well as the actions agreed to and implementation must take place within set time frames.

6.4 Any submission/achievement required in accordance with a KPI will be deemed to be submitted/achieved, only after the Municipal Manager was satisfied that the submission/achievement was of sufficient quality.

6.5 The annual performance appraisal will involve:

6.5.1 **Assessment of the achievement of results as outlined in the performance plan:**

- (a) Each KPA should be assessed according to the extent to which the specified standards or performance indicators have been met and with due regard to ad hoc tasks that had to be performed under the KPA.

- (b) An indicative rating on the five-point scale should be provided for each KPA.
- (c) The applicable assessment rating calculator must then be used to add the scores and calculate a final KPA score.

6.5.2 Assessment of the CLCs & CCs:

- (a) Each CLC & CC should be assessed according to the extent to which the specified standards have been met.
- (b) An indicative rating on the five-point scale should be provided for each CLC & CC
- (c) This rating should be multiplied by the weighting given to each CLC & CC during the contracting process, to provide a score.
- (d) The applicable assessment rating calculator must then be used to add the scores and calculate a final CLC & CC score.

6.5.3 Overall rating

- (a) An overall rating is calculated by using the applicable assessment-rating calculator. Such overall ratings represent the outcome of the performance appraisal.

6.5.4 The assessment of the performance of the Head of Department: Services will be based on the following rating scale for KPA's and CLCs & CCs:

Level	Terminology	Description
5	Outstanding performance	Performance far exceeds the standard expected of an employee at this level. The appraisal indicates that the Employee has achieved above fully effective results against all performance criteria and indicators as specified in the PA and Performance Plan and maintained this in all areas of responsibility throughout the year.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the Employee has achieved above fully effective results against more than half of the performance criteria and indicators and fully achieved all other throughout the year.

3	Fully effective	Performance fully meets the standards expected in all areas of the job. The appraisal indicates that the Employee has fully achieved effective results against all significant performance criteria and indicators as specified in the PA and Performance Plan.
2	Not fully effective	Performance is below the standards required for the job in key areas. Performance meets some standards expected for the job. The review / assessment indicate that the employee has achieved below fully effective results against more than half the key performance criteria and indicators as specified in the PA and Performance Plan.
1	Unaccepted performance	Performance does not meet the standards expected for the job. The review / assessment indicate that the employee has achieved below fully effective results against almost all of the performance criteria and indicators as specified in the PA and Performance Plan. The employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.

6.6 For purpose of evaluating the annual performance of the Head of Department: Services an evaluation panel constituted of the following persons must be established –

- a) Municipal Manager;
- b) Chairperson of performance audit committee
- c) Member of the executive committee
- d) Municipal Manager from another municipality

6.7 The manager responsible for human resources of the municipality must provide secretariat services to the evaluation panel referred to in sub-regulations (d) and (e) of the Municipal Systems Act (Act no 32 of 2000).

7. SCHEDULE FOR PERFORMANCE REVIEWS

7.1 The performance of the employee in relation to his performance agreement shall be reviewed on the dates provided by the Municipal Manager and one member of the Executive Committee and in case of

managers reporting to the Municipal Manager, the Municipal Manager with the understanding that reviews in the first and third quarter may be verbal if performance is satisfactory:

First quarter	:	October
Second quarter	:	January
Third quarter	:	April
Fourth quarter	:	July

7.2 The Municipal Manager shall keep record of the mid-year review and annual assessment meetings.

7.3 Performance feedback shall be based on the Municipal Managers assessment of the Head of Department: Services performance.

7.4 The Municipal Manager will be entitled to review and make reasonable changes to the provision of Annexure A from time to time for operational reasons. The Head of Department: Services will be fully consulted before any such change is made.

7.5 The Municipal Manager may amend the provisions of Annexure A whenever the Performance Management System is adopted, implemented and / or amended as the case may be. In that case the Head of Department: Services will be fully consulted before any such change is made.

8. DEVELOPMENTAL REQUIREMENTS

8.1 The Personal Development Plan (PDP) for addressing developmental gaps is attached as Annexure B.

8.2 The Employer shall –

8.1.1 create an enabling environment to facilitate effective performance by the employee;

8.1.2 provide access to skills development and capacity building opportunities;

8.1.3 work collaboratively with the Head of Department: Services to solve problems and generate solutions to common problems that may impact on the performance of the Head of Department: Services .

8.1.4 on request of the Head of Department: Services delegate such powers reasonably required by the Head of Department: Services to enable him to meet the performance objectives and targets established in terms of this Agreement; and

8.1.5 make available to the Head of Department: Services such resources as the Head of Department: Services may reasonably require from time to time to assist him to meet the performance objectives and targets established in terms of this Agreement.

9. CONSULTATION

9.1 The Municipal Manager agrees to consult the Head of Department: Services timely where the exercising of the powers will have amongst others:

9.1.1 a direct effect on the performance of any of the Head of Department: Services functions;

- 9.1.2 commit the Head of Department: Services to implement or to give effect to a decision made by the Municipal Manager; and
- 9.1.3 a substantial financial effect on the Municipality.

- 9.2 The Municipal Manager agrees to inform the Head of Department: Services of the outcome of any decisions taken pursuant to the exercise of powers contemplated in 10.1 as soon as is practicable to enable the Head of Department: Services to take any necessary action without delay.

10. MANAGEMENT OF EVALUATION OUTCOMES

- 10.1 The evaluation of the Head of Department: Services performance will form the basis for rewarding outstanding performance or correcting unacceptable performance.

- 10.2 A performance bonus for the Head of Department: Services in recognition of outstanding performance to be constituted as follows:

- a) a score of 130% to 149% is awarded a performance bonus ranging from 5% to 9%; and
- b) a score of 150% and above is awarded a performance bonus ranging from 10% to 14%.

- 10.3 In the case of unacceptable performance, the Municipal Manager shall –

- a) provide systematic remedial or developmental support to assist the Head of Department: Services to improve his or her performance; and
- b) after appropriate performance counselling and having provided the necessary guidance and / or support as well as reasonable time for improvement in performance, the Municipal Manager may consider alternative steps as advised through a formal disciplinary hearing.

11. DISPUTES RESOLUTION

- 11.1 In the event that the employee is dissatisfied with any decision or action of the Council in terms of this Agreement, or where a dispute or difference arises as to the extent to which the employee has achieved the performance objectives and targets established in terms of this Agreement, the employee may meet with the employer with a view to resolving the issue.
- 11.2 During the meeting the employer will record the outcome of the meeting in writing.
- 11.3 If the parties could not resolve the issues as mentioned in 11.1 the matter should be referred to the Municipal Council (or any other person appointed by the Council provided that such member was not part of the evaluation panel provided for in sub-regulation 27(4)(e) of the Municipal Performance Regulations, 2006,) within thirty (30) days of receipt of a formal dispute from The Head of Department: Services.
- 11.4 If the parties do not agree, the dispute may be referred to a mediator, mutually agreed upon by both parties whose decision shall be final and binding on matters covered in this agreement.
- 11.5 In the event that the mediation process contemplated above fails, clause 20.3 of the Contract of Employment shall apply.

12. GENERAL

- 12.1 The contents of the Agreement and the outcome of any review conducted in terms of Annexure A may be made available to the public by the Municipality, where appropriate.
- 12.2 Nothing in this Agreement diminishes the obligations, duties or accountabilities of the Head of Department: Services in terms of his contract of employment, or the effects of existing or new regulations, circulars, policies, directives or other instruments.
- 12.3 The performance assessment results of the Head of Department: Services must be submitted to the MEC for Local Government in the provincial government and the National Minister responsible for local government, within fourteen (14) days after the conclusion of the assessment.
