#### PREAMBLE

- 1.(1) In terms of section 20 of the Act, all designated employers are required to develop and implement an Employment Equity Plan for its organisation, and the Municipality will ensure that the principles of fairness and equity are incorporated into all aspects of employment, including recruitment, training, promotion, retention, and accommodation in the workforce.
- (2) The Municipality is committed, and will take all necessary steps, to ultimately achieve employment equity by addressing the imbalances of the past in all levels of employment, and this Employment Equity Plan focuses on the goals and objectives to move towards that goal.

#### INTRODUCTION

- 2.(1) The Zululand District Municipality is one of ten district municipalities in KwaZulu-Natal and is located in the central northern region of the Province. The Municipality covers an area of approximately 14,810 km², with half of its area of jurisdiction divided between commercially-owned farms and Protected Areas, and the other half being managed by the Ingonyama Trust on behalf of Traditional Authorities and Communities.
- (2) The towns of Vryheid and Ulundi are the major hubs within the Municipality, with the former being the economic hub, whilst the latter is the administrative hub, which includes the former Legislative Precinct and the seat of the Municipality. Included in the area of jurisdiction of the Municipality are the following local municipalities:
  - (a) the Ulundi Local Municipality;
  - (b) the eDumbe Local Municipality;
  - (c) the uPhongolo Local Municipality;
  - (d) the Nongoma Local Municipality; and
  - (e) the AbaQulusi Local Municipality.
- (3) The outcome of the Census during 2011, which is admittedly outdated, indicated that the Municipality experienced substantial population growth between 1996 and

2001, during which period the population grew by 12.88%, whilst the population growth between 2001 and 2011 reduced substantially to 3.01%.

- (4) As at 2011, the population of the Municipality was approximately 804,000 citizens of which 45.8% were male, and 54.2% were female. The overwhelming majority of the population speaks *isiZulu* (93.,24%), whilst the remainder is primarily made up of English, Afrikaans and *isiNdebele* speaking citizens.
- (5) As indicated, the current information from Statistics South Africa, emanating from Census 2011, is substantially outdated, and it is envisaged that the Honourable Minister in the Presidency, responsible for Planning, Monitoring and Evaluation, will publish a Proclamation in the Government Gazette shortly, in accordance with the provisions of section 7(2)(a) of the Statistics Act, 1999 (Act No. 6 of 1999), proclaiming a date on which Census 2022 will be conducted.
- (6) The above notwithstanding, it is deemed apposite to reflect the statistics relating to households, gender distribution, and employment, as reflected in Census 2011. At the time, the District was home to 157,748 households, with each household accommodating an average of five individuals. At the time, approximately 20.07% of the households resided in urban areas, 64,85% in areas under the nominal jurisdiction of Traditional Authorities, and 15.08% on commercially-owned farms.
- (7) Between 2007 and 2011, the number of households grew by 10.67%, with the highest growth being registered in uPhongolo Local Municipality, with the lowest growth recorded in the Ulundi Local Municipality. Whilst urban households in the Nongoma Municipalities grew by 77.82%, the opposite is true for most of the remaining local municipalities in the Municipality, as total urban households declined by 12.69%, largely as a result of a decline of 16.72% of such households in the AbaQulusi Municipality and a decline of 22.65% of such households in the Ulundi Municipality.
- (8) Contrary to the decline in urban households, significant growth was experienced in rural households, with growth of 67.81% in the AbaQulusi Municipality, and growth of 35.58% in the uPhongolo Municipality. The number of female- and child-headed households increased between 1996 and 2011, especially female-headed households

which grew by a significant 46.79% between 1996 and 2002, and 12.33% between 2001 and 2011. Child-headed households declined by 12.19% between 1996 and 2001, but subsequently grew by a significant 26.99% between 2001 and 2011.

- (9) The increases in rural households and a decline in urban households are in all probability primarily due to migration patterns, especially males migrating out of the area of jurisdiction of the Municipality in search of economic opportunities in adjacent economic hubs, both inland towards Newcastle, and towards the coast in the King Cetshwayo and iLembe District, and the eThekwini Metropolitan Municipalities. Having said that, the male to female population ratio in the Municipality of 48.7% / 51.3% is not substantially different to the Census 2011 population ratio of 47.27% / 52.73%.
- (10) As far as unemployment is concerned, the largest unemployed group in South Africa is the African population, and this is also true for the Municipality, which has an unsustainably high unemployment rate, far higher than the Province-wide unemployment rate. This is confirmed by the labour participation rate, which indicates that only 31.11% of the working age population are engaged in actual employment or are actively seeking work, which is substantially lower than the provincial rate of 43.9%.
- (11) This fact is an indication of discouraged work-seekers, who do not have the means to actively search for employment, especially females of working age, and it is important to note that these figures will no doubt increase substantially upon conclusion of Census 2022, especially considering the impact of Covid-19 and the unrest experienced in the Province, which led to the massive shedding of formal employment opportunities. In addition, approximately 10% of the population in the Municipality comprises of people living with disabilities, which also has a substantial impact on the unemployment rate.
- (12) On a positive note, Census 2011, indicates that there was a substantial increase in the education level of the population, with an increase of 15.89% during the period 1996 to 2011, and a decrease of 45.33% of citizens with no education whatsoever. The number of citizens with a Grade 12 education grew by 130.82% between 2001 and 2011, and the number with a higher education grew by 31.98% over the same period. What does detract from this positive development, is the increase in

unemployed Graduates and persons with a formal education, and active measures will have to be implemented to halt this decline.

#### POLICIES, PRACTICES AND PROCEDURES

8. Consistent with the principles of EE, the Municipality is committed to review all its policies and related procedures on an ongoing basis, to ensure alignment with its EE Policy, in order to identify procedures and practices, whether formal or informal, that have a detrimental effect on the recruitment, selection, appointment, retention, development and promotion of members of designated groups.

#### **KEY CHALLENGES**

9. The Key Challenges faced by the Municipality are as depicted in the Table below.

Challenges	Responsibility	Target date
(1) Compliance with the Act:	Supervisors,	Ongoing
The Executive Management of the Municipality	Managers, EE	
recognises its obligations in terms of the Act and	Committee, and	
understands that the primary purpose of the Act is	Recruitment	
to advance transformation through the setting of	Committees	
time specific targets for achieving equity in all the		
levels of management.		
(2) Participation and Consultation:	HR Policy &	Ongoing
The Municipality endeavours acceptance of its	Planning Unit, and	
Employment Equity Policy as required by the Act	all Employees	
throughout the organisation by ensuring		
participation of all the relevant stakeholders in		
developing the Plan in a transparent and		
consultative manner.		
(3) Equality and Equal Opportunities:	Employees,	Ongoing
The Municipality recognises that certain actions	Supervisors,	
are required in order to create a platform from	Management, the	j
which equal opportunities can be legitimately and	Diversity Unit, and	
effectively practiced, and from which the race and	the HR Policy &	
gender imbalances in the management structures	Planning Unit	
can be addressed. Precautions must however be		
taken, to ensure that the affirmative action		
programme does not result in the creation of new		
forms of disadvantage and unfair discrimination or		
in the marginalisation of any group on the basis of		
race, gender, or disability. Management is		
accordingly committed to the elimination of any		
form of direct or indirect unfair discrimination in any		
policy or practice and will review its policies and		
related procedures on an ongoing basis to ensure		
alignment with its EE Policy.		

(4) Diversity in the workplace:	Diversity Unit,	Ongoing
The Municipality recognises the fact that diversity	Employees,	
brings substantial potential benefits such as better	Supervisors,	
decision-making and improved problem solving,	Management, and	
greater creativity and innovation. The act of	HR Development	
recognising diversity also allows for those	Unit	
employees with talents to feel needed and have a		
sense of belonging, which in turn increases their		
commitment to the Municipality and allows each of		
them to contribute in a unique way. The		
Municipality will, therefore, continue to subject all		
its employees to an all-embracing diversity		
intervention.		
(5) Recruitment Policy:	HR Policy &	Ongoing
Using the Municipality's recruitment policy and	Planning Unit,	
procedures as a framework, every reasonable	Recruitment Unit,	
effort will be made to appoint suitable internal and	Recruitment	
external candidates from the designated groups to	Committees,	
vacant positions. To make the recruitment strategy	Supervisors, and	
an effective tool for employment equity, the focus	Management	
of the strategy will strive to be proactive and long-		
term, rather than reactive and short-term.		
Succession planning will be implemented, and an		
attempt will be made to identify the potential of		
internal and external candidates from the		
designated groups, with a view also to provide	1	
appropriate skills development opportunities.		
(6) Organisational Culture:	All Employees	Ongoing
The Municipality's workforce is diverse in terms of		
race, gender and origin and it commits itself to		!
fostering an effective organisational culture		
through the development of a shared set of		
common values rooted in basic equality and		

dignity of all persons. This will be supported by		
respecting individuals irrespective of their		
backgrounds and traditions, and an appreciation of		
the negative consequences of stereotyping, which		
will create a positive, nurturing, and welcoming	}	
environment conducive to the growth,		
development, and retention of its employees		
irrespective of race, gender, nationality or		
disability.		
(7) Employee Training and Development:	Management,	Ongoing
The Municipality is committed to the creation of an	HRD Unit,	
enabling environment, which allows individuals to	Employees	
achieve their full potential and thus contribute to	}	
excellent performance. Senior Management		
accordingly commits itself to the development of all		
employees irrespective of race, gender, and		
disability, although it is nonetheless recognised		
that past discriminatory practices have		
disadvantaged certain groups relative to others,		
and that special programmes may be warranted in		
order to achieve equality for all.		
(8) Succession Planning, Retention and	Supervisors,	Ongoing
Capacity Building:	Management,	
The Municipality recognises the challenges	Recruitment Unit,	
inherent in recruiting and retaining staff in highly	and HR Policy Unit	
skilled and specialised disciplines, where the pool	:	
of candidates from designated groups is extremely		
limited. In this regard succession planning,		
retention and capacity building are crucial to the		
success of this Plan, having due regard to the		
rights and expectations of all employees with the		
necessary talents to obtain the said scarce or		
specialised skills, by way of capacity building,		

structured professional development.  (9) Harassment in the Workplace:  The Municipality is committed in creating an enabling work environment, which promotes the social and personal well-being of all employees and fosters the realisation of their full human potential. In this context harassment is an important issue for the Municipality because of the negative impact it may have on the physical and psychological well-being of affected employees.  Senior Management is committed to eliminate any form of direct or indirect harassment in the workplace, which includes any acts or threats that interfere with the performance at work of any individual or group on account of race, gender, sex, pregnancy, marital status, family responsibility, ethnic or social origin, HIV/Aids status, sexual orientation, age, disability, religion, conscience, belief, political opinion, culture, language, or birth.  (10) HIV and AIDS Policy:  In line with its HIV and AIDS Policy the Municipality will continue to play a significant role in combating the HiV/AIDS Pandemic.  (11) SHERQ Policies and Practices:  The Municipality will ensure that the highest standards are always adhered to regarding the Safety, Health and Environment Policies and Practices, and an Employee Wellness programme will be implemented on all levels. #### **NUMERICAL GOALS AND TARGETS**

17.(1) The estimated National Economically Active Population reflected in Census 2011, is as depicted in the table below.

GENDER	AFRICAN	COLOURED	INDIAN	WHITE	TOTAL
MALE	40.5	6.0	1.9	6.7	55.1
FEMALE	33.1	5.0	1.3	5.4	44.8
TOTALS	73.6	11.0	3.2	12.1	100

(2) The estimated KwaZulu-Natal Economically Active Population reflected in Census 2011, is as depicted in the table below.

GENDER	AFRICAN	COLOURED	INDIAN	WHITE	TOTAL
MALE	45.3	0.9	5.2	3.1	54.5
FEMALE	39.2	0.7	3.3	2.3	45.5
TOTALS	84.5	1.6	8.5	5.4	100

(3) What is evident from the above Tables, is that when compared to the national statistics, members of the African and Indian population groups are more economically active in KwaZulu-Natal, whilst members of the Coloured and White population groups are less economically active. For purposes of clarity, the national statistics emanating from Census 2011, are utilised in this Plan, and the Provincial statistics are reflected for purposes of clarity and reference only.

Goals and Targets that are proposed to be achieved by the end of this Plan on 31 August 2026. submitted in January 2021, a copy of which is attached hereto for ease of reference as Annexure "B". #### NUMERICAL GOALS AND TARGETS PER OCCUPATIONAL LEVEL

19. The current status of filled posts at the Municipality, as compared to the Economically Active Population statistics, and the numerical goals and targets per Occupational Level for the period 2021 to 2026, are as depicted in the Tables below.

#### (1) TOP MANAGEMENT

		MA	\LE			FEM	ALE			REIGN IONAL	TOTAL
	A	C	1	W	A	C	1	W	MALE	FEMALE	
EAP	40.5	6.0	1.9	6.7	33,1	5.0	1.3	5.4	0	0	100
ACTUAL	5			1							1
%	83.3	0	0	16.7	0	0	0	0	0	0	100

#### COMMENTS:

African Males are substantially over-represented at the Top Management level, with no representation from African Females or the Coloured and Indian population.

It must be noted that recruitment of members of the Coloured and Indian population group is extremely difficult, primarily due to the rural nature of the District Municipality. There are no substantive Coloured and Indian Communities in the Municipality, both of which are primarily centered around the coastal municipalities of the eThekwini Metropolitan Municipality, the King Cetshwayo and iLembe District Municipalities, as well as uMgungundlovu District Municipality. This applies to all the occupational levels reflected below, and whilst there is some representation by the Coloured and Indian population, it is highly unlikely that this will increase substantially during the period of the Plan, for this reason.

#### COMMENTS:

African males are similarly over-represented at the Senior Management level, although less so than at Top Management Level.

As far as the Foreign Nationals are concerned, both employees are in the process of obtaining the necessary Residency Permits, with the intention of becoming South African citizens.

The under-representation of the Coloured and Indian population groups is due to the reasons discussed in paragraph (a) above.

#### COMMENTS:

Both African Males and females are over-represented at this level, although efforts will be made to recruit additional African Females, to ensure gender equality within this level.

The under-representation of the Coloured and Indian population groups is due to the reasons discussed in paragraph (a) above.
