On Revenue there seem to be no major variances between year-to-date budget and year to date actual, there are minor variances on interest on investments on Service charges, this is due to accelerated expenditure on grants and to the correction of billing estimates; respectively. The Municipality is in a process to secure funding for the procurement of meters.

Major variances on expenditure are on contracted services and Other expenditure, this is due to accelerated expenditure in; water provision through water tankers; security services; water/sewer plant operating cost and Eskom (bulk electricity) which have spent more than year to date budget.

The Financial Performance indicate a deficit of **R56.7 million**, this means the Municipality was not able to generate enough revenue to cover all expenses for the period being reported.
