1.1 MAYOR'S REPORT

MID-YEAR REPORT FOR THE HONOURABLE MAYOR OF ZULULAND DISTRICT MUNICIPALITY, HIS WORSHIP DT BUTHELEZI

To be attached

1. MAYORS REPORT

MID-YEAR REPORT FOR THE HONOURABLE MAYOR OF ZULULAND DISTRICT MUNICIPALITY, HIS WORSHIP DT BUTHELEZI

This period marks the beginning of both a new year and a new term, although we are just in the final mid-year budget for the previous term. I wish to congratulate our Honourable Councillors who were re-elected and newly elected to the council, indeed the 2021 local government elections marked a new turning point, where the society at large was ready to make changes in leadership, giving corruption and laziness a red card, and giving accountability and transparency a green card.

Members of the Executive Committee, Zululand District Municipal Management, and Staff, I want to wish them a prosperous 2022, and a year full of energy and motivation towards service delivery. I once again appreciate the opportunity given to me to lead the Zululand District Municipality during this term of office, I intend to fulfill the responsibility placed on my shoulders with truthfulness and distinction, be an embodiment of transparency and accountability. It's a pleasure for me to remain highly conscious that this is a position of service.

Let me reassure everybody that our focus as ZDM has not shifted an inch since I took over in 2018, and now as I begin the 2021-2026 term of office with confidence that the citizens of Zululand District have rewarded our excellency with yet another term. Our focus is still producing clean water and sanitation for our citizens. The scourge of the coronavirus pandemic that confronted has declined as we have remained in alert level one for the past three months, we are now able to gather, to go to places of worship, schools, workplaces, and place of business. Countless achievements were made, effective service delivery has been achieved.

It is a statutory requirement that in terms of Section 72 of the Municipal Finance Management Act (MFMA), the implementation of the budget is monitored and a report be generated in the form of a mid-year budget assessment. The Mid-year assessment is done in the form of a template issued by the National Treasury. This assessment is attached for simplicity of reference.

Our co-function, in line with the directives of the constitution of the Republic of South Africa, to serve as an authority for the provision of water and sanitation for our people, we strive to improve the quality of service within the confines of the available resources, fast – track the provision of the basic commodity to our people. Thus we continue to work towards the improvement of the quality of life for all our citizens by ensuring that we provide these basic services.

As Zululand district, we were severely affected by the drought in the previous years, and most rivers and dams within the district ran dry constantly. We now see adequate rainfalls that assure the sustainability of the water levels, experts

have estimated that this will take at least five years. We are still doing all in our power to mitigate against the impairment of the drought crisis by using the funds allocated to us to drill and equip boreholes, protection of springs, increase the number of water tankers, and provide portable water by using trucks to deliver water to our affected communities.

Just last year in 2021, we held a business breakfast which became a public media spectacle because of power-hungry and mongered politicians who saw an opportunity to tarnish the good name of this institution for political gains.

Mr. Mthokozisi Nyawose from Zanamanzi who is a director in a company which is responsible for raw water abstraction, construction of water and waste systems, technical support, refurbishments, and asset management; made a presentation at the said business breakfast, the company is already responsible for three current projects in Zululand, the upgrade of Ulundi Waterworks, and the Construction of Lindizwe and Holinyoka pump stations in Nongoma. This company plans to use its network of suppliers, specialists, and subcontractors to benefit the people of Zululand.

We continue to seek more assistance to ensure relief to our communities during this period, by their nature the grant we use for water provisions like the Municipal Infrastructure Grant (MIG), Regional Bulk Infrastructure Grant (RBIG), Water Services Infrastructure Grant (WSIG) and other grants are strictly conditional and cannot be diverted to other activities, making it difficult to use them to deal with the drought except for what they were allocated for.

We will continue upgrading and equipping regional schemes and using our grant allocation to ensure effective and sustainable service delivery. We are indeed still too far from the total eradication of backlogs in this regard, but we continue to install the required infrastructure in line with the Water Service Delivery and Implementation Plan (WSDP) increasing the number of water tankers and Jojo tanks in affected communities.

In the past we had the exemption of water revenue due to drought, and had received very little income; now that we are past the draught period, the pandemic has affected how we are supposed to collect revenue. Although we are facing numerous challenges, the main challenge is the huge backlogs in the provision of water and sanitation. We are determined to eradicate water and sanitation-related problems facing our district and with the grants and allocations that we get, we are doing all we can to achieve that.

We continue to provide water from our ten regional schemes namely

- Coronation
- Hlahlindlela
- Khambi
- Mandlakazi
- Nkonjeni

- Simdlangentsha Central
- Simdlangentsha East
- Simdlangentsha West
- Usuthu and
- Candover

We have established a few stand-alone schemes to assist our communities to get water supply while we await the network for the major schemes to be finalized, we have spent in the region an amount over R1.3 Billion since the year 2011/12 to install the bulk infrastructure and reticulation in our region to ensure sustainable water supply, we are still too far from the total eradication of backlogs in this regard. About sanitation we have spent more than R400m supplying pit – latrines to our communities, we continue laying our infrastructure for the betterment of our communities.

Socio-Economic Development

To enhance the Municipality's success, we will strengthen our relationship with traditional leadership, stakeholders, and businesses, ensuring that everyone can make their contribution towards a share good outcome, this is particularly important for the local economic development and youth development, which will be two cornerstones of our work going forward. Traditional Leaders, the Amakhosi in particular are part of our council meetings and their attendance has improved. Our rapid response team is effective in ensuring peace and harmony in our communities. We have appointed Community Liaison as we work towards maintaining a closer relationship with our communities. Local entrepreneurs continue to be at the center of the development initiatives, to such an extent that we have established the Sethembe Contractors development initiative, where local entrepreneurs benefit from the MIG projects. We must now pursue youth on board the tourism and agriculture industry. Employment generation is a key priority.

In conclusion, I am well aware that our work cannot be done without the instrumental support of a strong team, from the administrative and technical staff, all the way to CFO and Municipal Manager. We would urge us to have the same cooperative spirit that has ensured success in the past six months

My Vision for Zululand is simply to ensure that the lives of our people are better at the end of my term of office than they were yesterday and are today. I invite you to join me in this noble pursuit

Thank you!

- There is a challenge of high level of debt that calls for a continuous assessment for indigency and impairment/write off.
- ➤ The increase is mainly due to non-payment by low-cost housing consumers, businesses, and organs of state.
- A senior manager debt collection position has been established to assist with collection
